

THE CAPITAL'S FINANCES.

Lincoln's City Clerk Makes a Satisfactory and Yet Unsatisfactory Report. A DEMAND FOR MORE DETAILS. The Ball Team Makes Its First Public Appearance—Arbor Day Properly Observed—Brief and Interesting Notes.

FROM THE BEE'S LANSLOW SPECIAL. City Clerk Manley made his report to the municipal finance for the year ending April 15, 1886, by which the total indebtedness of the city is shown to be \$229,252.33. Of this \$217,500 is bonded, while the rest is due on warrants and coupons. The figures as a whole are undoubtedly correct, yet the report is hardly as explicit as most taxpayers would wish. An era of public improvements and large expenditures is at hand, and there is a general desire to know just how the city's finances stand. The people want a detailed statement showing the condition of each fund separately, the receipts and expenditures, and especially the charges outstanding against it. Taxpayers generally understand that these funds are not to be used to pay the money in one cannot be used to pay warrants drawn on another, and that, consequently, an ordinary report does not impart the desired information. This there may be a deficit of \$20,000 in the general fund, and a balance of \$100,000 in the water fund, and the general fund would show a net balance of \$100 to the credit of the city. But as the money in the water fund cannot be used for general city purposes, the deficit in the latter would still exist, and some arrangements would have to be made for paying it. It is true that the illegal issue of warrants which has cost the city money in the fund to meet them, and that a deficit, but it is done every year, and probably will be for years to come. It would also be interesting to know the actual running expenses of the city, just how much money it takes to support the various departments, aside from the road, sidewalk and water improvements that are being constantly made. Mr. Manley has given a very creditable report so far as accuracy is concerned, and it has doubtless involved considerable labor. It is not, however, possible for him to furnish the detailed information required. In such event it would be a profitable investment to give him all the assistance necessary to a thorough and comprehensive statement. Mr. Manley's report put the total receipts for the city treasury during 1885-6 at \$1,027,272.22, expenditures \$1,027,272.22, balance on hand of \$11,351.34. The receipts for school purposes were \$38,082.22, including \$38,082.22 left over from the previous year. Penalties were \$51,510.00; balance on hand, \$1,575.11. The final exhibit is:

Table with financial data: Bonded debt \$317,500.00, Warrants out \$20,000.00, Coupons out \$2,500.00, Total \$340,000.00, Cash on hand \$11,351.34, Balance \$328,648.66.

MANLEY'S REPORT. Manager Durfee, of the Lincoln baseball club, had his new team out for practice yesterday afternoon. The new team consists of interested spectators. The Lincoln club is a member of the American League, and will be pitted against the great teams at Denver, Leavenworth, St. Joe, Leavenworth and Topeka, there has been considerable curiosity to know what kind of an outfit Durfee had put in the field. The showing made yesterday satisfied all who were present, that every member of the team is a first-class player. Mr. Durfee has ten men under contract, all of them picked out by Al Spink, formerly sporting editor of the Times, and a contract, mainly on strength of their last season's record. The team consists of Perry Warden, late of St. Louis, an excellent all-around player; F. P. Sullivan, pitcher and fielder, formerly with the Allegheny and Memphis clubs; M. H. Hickey, pitcher and general player of last year's Kansas City club; Harry East, late of the Baltimore; Charles Hartz, first baseman with the Indianapolis team; R. M. Hickey, the catcher of the Peoria Ash team; Will Steops and Louis Keatinge, of the Jacksonville; Heald Hill, pitcher, of the Peoria; and C. E. Smith, of Jefferson City, Mo.

There are six clubs in the league, and the directors have arranged a schedule of games for each city, the season opening on May 5, and closing September 19. The schedule for games to be played at Lincoln is as follows: With the Denver, May 12, 14, 15 and 17; Topeka, May 19, 21, 22 and 24; Leavenworth, June 2, 4, 5 and 6; St. Joe, June 12, 13 and 14; Leavenworth, July 2, 3, 24 and 25; Leavenworth, August 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21 and 22; St. Joe, September 8, 10, 11 and 13.

ARBOR DAY IN LINCOLN. Arbor Day was observed in Lincoln by a general closing of public offices, banks, and other institutions of that nature, greatly to the enjoyment of the employees, and disgust of the news-hunting reporters. The only attempts at public exercises of the day were at the Park and High schools, where the children gathered in the afternoon and went through appropriate exercises, and a commemorative of tree planting and its benefits.

It was intended to make the day a sort of "Military exhibition" of the city, and Governor Furnas and Hon. J. Sterling Morton were invited to be present and do the big talking. Late Wednesday evening word was received that neither of the gentlemen could come, and the proposed programme was abandoned. There was an informal gathering in the city at 7 o'clock, followed by a free-riding on the campus under the direction of Prof. Bessey and Janitor Green, each class taking care of its own tree.

BRICK MENTOR. Postmaster Watkins has appointed Thomas McShane as a brick mentor in place of William Cooper whose suspension from duty was noted yesterday.

A meeting of the directors of the State Democratic company Tuesday night, and one of the results is a rumor to the effect that an appeal in the management and direction of the paper is imminent. A gentleman from Chillicothe, Ohio is said to be anxious to buy a controlling interest in the paper, and some of the directors are anxious to sell.

Lincoln real estate continues to change hands at a lively rate. The first of the day numbered eight, and the money consideration aggregated \$11,000.

Win. A. Given, of the firm of Aggie F. Cooper, was married at the home of Dr. S. H. King, on North Eleventh street, Wednesday evening by Elder Hawley, of the Christian church.

Secretary Barstow, of the Nebraska Christian Home Association says that fifty-six entries have been made in the stake race to be trotted at Omaha July. Most of the foals are of high grade and some lively contests are expected.

Mr. McCuskey, superintendent of instruction for Lancaster county, is the first official in the state to file a report for the current year. Mr. McCuskey makes the school population of the county 33,283, against 32,125 in 1885. The school population in Lincoln city is 5,028, against 4,413 in 1885.

The unknown child that was found in a barn in his own night last winter, and at the home for the Friendless yesterday morning. There was a mystery about the identity of this child, which the police were at one time in a fair way of solving, when they were hauled off the trail.

PICKED UP ABOUT THE CITY.

Arrival of Minnie Hank in Omaha—An Interview. AFFAIRS IN THE WEST. A Military Man Talks—Odds and Ends—Notes of the Rail—Another Story for the Paxton, Etc.

Minnie Hank. Minnie Hank, Mapleson's principal prima donna, arrived in town yesterday in advance of the company. Her object in leaving San Francisco was to get a day of rest here before her intended performance of Carmen on Saturday night. The trip from San Francisco here is naturally very fatiguing and conscientious Minnie Hank insisted upon having some rest here in order to be in good trim for the opera. Unfortunately the departure of the company has been delayed and it will be impossible for them to reach Omaha in time for a performance Saturday.

A reporter for the Bee who sent up his card to Miss Hank, who is stopping with her husband at the Millard hotel, was presently invited to the presence of the great prima donna. He found himself before a lady of medium height and slender proportions. Her face is of the Spanish type, with dark, expressive eyes which are full of life and charm. Her manners are perfect, and she has a rare faculty of making her visitor perfectly at ease from the moment of introduction.

Minnie Hank looks as fresh and bright as two years ago, when she first graced the stage of Boyd's opera house with her presence. "I recollect my first appearance here perfectly," said the lady to a reporter, "and I would like nothing better than to be introduced to your kind and appreciative public in grand opera. This very morning a letter was brought to me, accompanied by these beautiful flowers. You can see it yourself, it is from some Omaha opera-lover who has given me a very talented and accomplished singer, a better concert here than the one in which I appeared. This is very flattering, indeed, but I think you would like me still better in grand opera."

How was your San Francisco season? "I hear that Mapleson did not do as well financially as last year." "No, I am sorry to say, he must have lost a good deal of money, and he is now endeavoring to explain, for the houses were crowded whenever I appeared, but to the misfortune of all, Mr. Mapleson's opera prima donna, Mlle. Fohstrom, a very talented and accomplished singer, was ill during the entire season of four weeks. She appeared only a few nights, and Mr. Mapleson had to depend on the third prima donna, Mlle. Nordica, for the rest of the season. Unfortunately this lady was called away from San Francisco by the sudden death of her mother, and Mr. Mapleson was thus compelled to close the season with the man who could not sing, and give only four performances instead of seven. It is mostly owing to the illness of one singer and the absence of the other, that Mr. Mapleson did not do so well as you will be to suffer disappointment."

The colonel has been peculiarly unfortunate with his lady artists, he continued. "I think of his lady artists, who have been absent or unable to perform, and I am sure you will be to suffer disappointment."

Some of the policemen on the Omaha force have strange notions of the duties that are required of them, and the manner in which they ought to discharge those duties. A story related of a man lately appointed—but who was a short time since discharged for neglect of duty, is a case in point. This enterprising "cop" undertook to arrest two drunken men near the corner of Tenth and Douglas streets one night last week. One of them managed to escape from him. The other was firmly in his grasp. A bright idea struck the "cop." He took the man by the collar, and with a flourish, and struck him up in one corner, said firmly and impressively, "Now, mind don't you budge till I come back. I'm going to get you into Cal. Jail's section, and standing him up in one corner, the policeman vanished through the door and entered upon a vigorous search for the missing man. It is hardly necessary to say that he was not successful. He returned with the man to the station, and the other prisoner up to jail. Again he was disappointed. The fellow had made his escape through the back door.

Another policeman, the other night, tipped into the water, taking Marshal Cummings by the coat lapel whispered earnestly, "Hush! I think there's a man out here as ought to be arrested for a vagrant. I heard him say he was hoarse." The marshal gently replied that the fact that a man sometimes became hoarse did not prove that he was a vagrant, and sent the over-zealous policeman about his business.
