CLEMENT CHASE has increased the population of Omaha another 5,000. He has put the population of the city at 80,000.

It is about time for the exposition managers to map out their programme and begin work. Omaha cannot afford to depend upon spontaneous efforts of exhibitors.

"IRRIGATION" is no new thing in politics, and it has been confined to no party. It has, however, been adopted as the fundamental principle of a new political party in California.

THE St. Louis Globe-Democrat says that General Miles reports that the trouble along the Mexican boundary is caused by the inadequacy of the protection afforded by our troops.

The Easter issue of the Chicago Current was a double number filled with special articles from some of the best known writers in this country.

The statement is frequently made that the present congress is a do-nothing body and that no previous congress has ever done so slowly in the passage of bills.

THE city council will be asked to reconsider its action in rejecting the ordinance which proposes to repeal the franchise the Omaha gas company.

THE senate one day last week passed 525 bills in three hours, or nearly three bills a minute.

Labor Agitations and Their Results.

The steady advance in the material prosperity of workingmen has been largely due during the past fifty years to the organization of labor to secure a fair share in the profits of labor.

Workingmen have attached more importance to shorter hours of labor than to rates of wages in their struggle with employers. Great progress has been made in this respect since the time when the weary working hours ran "from sun to sun" the year round.

While rates of wages have advanced and hours of labor have been shortened, the next point of interest is whether with these assured gains the purchasing power of the earnings of workingmen has increased.

The new Union Pacific management is alive to the importance of giving to Omaha the local improvements that are demanded by the growth of the city.

The railroad land grabbers have joined with the thousands of fraudulent entry swindlers to drag Commissioner Sparks down from the seat where he is doing his best to honestly and faithfully administer the business of the land office.

The New York Herald is exposing the land frauds throughout the entire west. Its special correspondent is now devoting his attention to Nebraska.

Well, here are millions of acres of virgin land in Nebraska. When our eastern population becomes too numerous these lands should be open to them.

Notwithstanding the charges and exposures made from time to time by the Bee, and now followed up by the New York Herald, there is in Nebraska no one who takes the Lincoln Journal, which has the brazen audacity to defend the villainous

omniscience of the land swindlers. In a very flippant manner it criticizes the action of the agents of the general land office for reporting "in some cases" in the western land districts entries for cancellation without any hearing.

The above charge against special agents so far as they have acted in Nebraska is not only unjust but untrue. It is a fact that the entries, referred to by the Journal, were, with few exceptions, made in entirely fictitious names.

Why can't the Odd Fellows change the calendar and put their anniversary into May instead of April? They would then have less rain and more sunshine.

THE city of Omaha wants cheap gas. Mr. Nathan Shelton has a big supply on hand at very low figures.
