It is expected that Major Williams will be tried at this term of court for shooting a fellow confidence man in the Union Avenue hotel.

It is understood that instead of further attempting to prove that he was not the man who fired the fatal shot, the "major" will admit the shooting, but claims that he did it in self defense.

The gambling house that has for several years been located on Broadway over the Phoenix amon has been removed down stairs.

One of the proprietors of the house yesterday said to a Bee man, "all the other gambling is done on the first floor of buildings and we've got to do as others do. We save money by going down stairs by our move, and I tell you we haven't taken in any more than that lately."

G. W. Fisher, president of the National Cutters' association, and head cutter with F. E. Stubbs, the merchant tailor, No. 506 Broadway, has gone east to complete the arrangements for the convention of the cutters, to be held in July next at Put-in-Bay.

Mr. Fisher has been president of the association for several terms and is said to be one of the first cutters. He will return on Saturday next to his position with Mr. Stubbs, in whose employ he has been for the past two months.

Big Show for Little Money. The King, Burke & Co's show, which appears here Thursday, Friday and Saturday, is the big dime show of the season.

The Springfield State Journal says: This popular circus gave two of their enjoyable entertainments yesterday in the afternoon and evening, and their tents were filled to overflowing with pleased audiences on both occasions.

Their specialties are all of a high order of merit and possess bright attractions which captivate crowds of people. The names of the prominent performers and their particular acts have been particularized in previous notices, and it only remains to be said that the more frequently their acts of daring and skill are witnessed, the more marvelous appear the achievements and the greater the admiration for the control and mastery.

MORE PROHIBITORY WARFARE.

The Reports of Those Holding County Permits Being Inspected.

A BEWILDERED YOUNG LADY.

Various New Items Gathered in and About the Bluffs--Personal--The Woman's Exchange--The Dime Show.

Peering into the Records. There is a good prospect of trouble for some of those who are selling intoxicating liquors under the county permit system.

Those who have county permits giving them the right to sell for scientific, medical, mechanical and sacramental purposes are required under the law to file monthly reports showing the amount of liquors on hand, the amount purchased, and a detailed statement of the amount sold, to whom sold, for what purpose and the price.

These statements have to be sworn to, and are supposed to be looked over by the authorities. The making of reports has, in many instances, been a mere matter of form, and little attention has been paid to the matter.

Irregularities are said to exist in many of these, some not being sworn to, others being defective by the absence of certain items required by law, and some are made up in such a manner as to be almost unintelligible.

In some places in the state much trouble has been already caused by these defective and irregular reports. Now it seems that the storm is about to break on Pottawattamie county.

Yesterday there arrived here a young looking man, near sighted, and having a rather foreign air, who proceeded to the county auditor's office, and there demanded to see the reports filed by those selling under a county permit.

The assistant auditor went to know why this request was made, and what the stranger was going to do with them.

"I do not know as I am required to state my reasons for asking to see them. They are matters of public record, are they not?"

The assistant auditor was not certain about this. When Auditor Clausen came in the stranger was given permission to go ahead with the examination. He secured the services of a short hand reporter, and commenced on the work of going through these reports, dictating various matters as he discovered them.

It seems that the inquisitive stranger is no other than L. W. Goslin, who now resides at Le Mars, and who lately resided at Carroll. He is a young attorney, who has been working on such cases at Sioux City and other places. It is apparent that he is gathering up material for the grand jury, which begins work to-day.

Whether he will succeed in getting any indictments, and causing any offenders to be punished, remains to be seen. It is not known how he is paid. The prohibition alliance may be paying him a salary or a per cent, and perhaps he gets some amount of the fines which are collected as the result of his prosecutions.

Punished by a Garisho. Samuel J. Berry, of Wymore, Neb., writes some of his experiences with the garisho made of collecting accounts, which has caused so much complaint on the part of railway men particularly. He thus recites the hardships to which he was put: "I was garished by David Jerman at Council Bluffs for a bill of \$6.17, due the firm of Wigg & Westberg by one S. M. Berry, and was notified here at Wymore by our paymaster that my pay would be paid to him if I did not appear and defend myself. I went before a justice of the peace here at Wymore, and swore out an affidavit that my name was Sam J. Berry, and that I never knew anything of the bill, etc. David Jerman went to work there, and garished me in my right name, and I was notified to appear before Justice Hendricks and defend myself May 11 at 9 o'clock. I went there, and after seeing the justice, I went and employed an attorney. We went to Omaha and saw Mr. Wiggs, and he said at once that I was not the man and gave the attorney a note to the justice stating that I was not the man. Well, of course, I got a release from the garisho, but my expenses amounted to about \$35, losing time, paying board, etc. All this to satisfy these men that I was not the man who owed \$7."

Go to Beard for low prices. Where Are Her Friends? A young lady named Nellie Bailey, daughter of a dry goods merchant at Madison, Wis., is in this city trying to find some friends by the name of De-

ming, from whom she has become separated.

One of the Bee force, yesterday, learning of the case, called on Miss Bailey, who is being cared for by a resident of this city until her friends can be found.

Miss Bailey was en route with her friends, H. M. Demming and wife, from Madison, Wis., to Kansas City. They stopped at Sioux City, and when Mr. and Mrs. Demming were ready to come in this direction, Miss Bailey concluded to tarry a few days, giving her baggage in charge of Mr. Demming, and she came down on Thursday evening last instead of Friday morning.

Miss Bailey says Mr. Demming has a married sister in Council Bluffs, while Mrs. Demming has a sister who resides in Omaha and is also married. She does not know the names of these ladies, nor does she know whether they came to Council Bluffs or Omaha. She says she is now satisfied she took the wrong train to reach Sioux City for the place that she was to meet Mr. and Mrs. Demming at the transfer, but as she came in on the morning train and they were not there, she is satisfied they would have met her and she came down on Thursday evening last instead of Friday morning.

AMERICANS AND DIAMONDS. Barkeepers Our Noblemen--Passion of Poor People for Jewels.

Pittsburg Commercial Gazette. A middle-aged, sharp-eyed man, E. A. Weed by name, stood in a lobby of the Monongahela house yesterday afternoon in the midst of a group of Pittsburg jewellers and gentlemen carelessly looking at a necklace, composed of forty or fifty magnificent diamonds that sent the erratic darts of light all over the room as they lay in his hands in the sunlight.

In the midst of the chatter about the necklace, composed of forty or fifty magnificent diamonds that sent the erratic darts of light all over the room as they lay in his hands in the sunlight. "I think, judging from my experience, that there are no noblemen, but only barkeepers. They are our aristocracy. We don't have gamblers any more. That class of people which formerly traveled on steamboats, frequented watering places, resided at restaurants or was in the custody of the most expensive hotels is now only a reminiscence. He is gone. Stock gambling, grain gambling have superseded poker playing, and there is no route for the old time to work. He formerly wore the diamonds, but the barkeeper has succeeded him. Faugh! think of it. But he is not the only one of our wonderful American population that is partial to jewels. I know women, nice respectable ladies in New York, who wear earrings, two or three finger rings, throat stones and seal-like saques, whose husbands are not worth a dollar. They ask them and they come to them for them. They frequently subsist almost on bread and water to get these luxuries, but they get them. I once saw a barber who wore a magnificent solitaire on his little finger. I bought my own razor shaving mug and shaved myself thereafter. Why, there is that fellow Charles Davis, better known as 'Alvin Joslyn,' the actor. He is a boor, has no education, manners, couldn't do a thing, but he got to buying diamonds and showing them off in jewelers' windows and made a fortune out of his shrewdness.

"People go to see a man who owns such jewelry. Real rich and cultured people don't affect diamonds. They are too common. It is the poor man who is my best customer. He nearly always has one I think England is the largest diamond-buying country in the world and next to it America. France and other European countries like them, but don't buy so many.

"Every diamond that the world has ever seen or heard of is still in existence. Gold and silver waste by abrasion, but diamonds lose nothing. I tell you that the value of diamonds in this country is in excess of the money that is in them. We know that the value of the diamonds of the world is over a thousand millions of dollars. Brazil, India and other localities formerly furnished diamonds, but they don't send out any more. The great supply comes from South Africa. They are the best diamonds, too. Diamonds keep nearly a staple value. They sell by the carat, and vary in color and brilliancy. They are found in Holland, England and America and also largely in other countries."
