Model Engines that Pay. Chicago Mail: The beautiful model engine which was first exhibited in the Rock Island ticket office, at the corner of Clark and Washington streets, but which has now been moved down to the Grand Pacific, cost \$1,500 to build. It is as complete in its parts as any engine running although it does not weigh 100 pounds. It was built by a firm of New York mode makers who made a business of exhibit ing these elegant madels, trusting to the curiosity of the public for getting their money back. This engine runs and the music plays when a nickel is dropped in the slot. About a dollar a day is contributed by people who are willing to drop a nickel to see the machine move. The business runs itself and nobody is required to look after it. An agent comes around occasionally, takes out the money and cleans and oils the model. The model pays for itself in about three years and is then just as good as new. "We have these models," said a member of the firm, "all over the country. We like to get our engines in the railroad offices. and steamboats in steamer offices. In the hotels and large saloons, we have a variety of others. We get an excellent return on our investment."

Benton's Hair Grower

All who are BALD, all who are becoming BALD, all who do not want to be baid, all who are troubled with DANDRUFF, or ITCHING of the scalp; should use Benton's Hair Grower. Eight PER CENT of those using it have grown hair. It never fails to stop the hair from talling. Through sickness and fevers the hair sometimes talls off in a short time, and although the person may have remained bald for years, if you use Benton's Hair Grower according to directions you are sure of a growth of hair. In hundreds of cases we have produced a good growth of Hair on those who have been bald and glazed for years we have fully substantiated the following facts:

We grow Hair in 80 cases out of 100, no matter how long bald.
Unlike other preparations, it contains no sugar of lead, or vegetable or mineral poisons.

It is a specific for falling hair, dandruff, and itching of the scalp.
The Hair Grower is a hair food, and its omposition is almost exactly like the oil which supplies the hair with its vitality, DOUBLE AND TRIPLE STRENGTH. When the skin is very tough and hard, and the follice is apparently effectually closed, the single strength will sometimes fall to reach the papilla; in such cases the double or triple strength should be used in connection with the single, using them alternately.
