OMAHA WHOLESALE MARKETS.

General Markets.

Thursday Evening, July 1.

EGGS—The receipts were more liberal to-day and the market weaker. Sales were made to day at 11@12c.
BUTTER—The receipts have not been quite as liberal the past week, but the quality is very poor. As a general thing the receipts are very heavy at this time, and the quality of the butter better. It is very poor policy for shippers to pack butter in boxes during warm weather, as no retail dealer will buy stock that comes in that shape, and the commission men are forced to sell it for almost nothing. The demand is so light and the general quality of the butter so poor that only a small proportion of the receipts will bring top prices. Choice fresh grass butter, 7@10c; inferior, 3@6c.
POULTRY—The market is in a little better condition than last week and choice stock is bringing better prices. Choice large spring chickens are selling readily at good prices. Small sizes are slow sale and the trade does not want them at any price. Old fowls do not sell as readily as spring chickens, but are quotable a little higher than last week. The following quotations represent the average sale, but fancy stock might bring a little better prices. Old fowls, per doz, $2.60@2.75; spring chickens, as to size, per doz, $2.00@3.00.

ORANGES—Stocks are very much reduced and the season is about over. There is nothing left on the market except Los Angeles and the supply is not large. Los Angeles, $6.00@7.00.
LEMONS—Lemons are advancing steadily; the supply is short and with hot weather before us we may see extremely high figures yet—very high prices seldom prevail before July 4th, but oftener come just after the 4th. Fancy, per box, $8.50; 5 box lots, $8.25.
WATERMELONS,—The first car of the season has just arrived; they are of a choice quality. Watermelons, per 100, $35.00.

CHICAGO, ROCK ISLAND & PACIFIC RAILWAY

By reason of its central position and close relation to all principal lines East and West, at initial and terminal points, constitutes the most important mid-continental link in that system of through connection which invites and facilitates travel and traffic between cities of the Atlantic and Pacific Coasts. It is also the favorite and best route to reach all points East, Northeast and Southeast, and corresponding points West, Northwest and Southwest.

The Great Rock Island Route

Guarantees its patrons that sense of personal security afforded by a solid, thoroughly ballasted roadbed, smooth tracks of continuous steel rail, substantially built culverts and bridges, rolling stock as near perfection as human skill can make it, the safety appliances of patent buffers, platforms and air brakes, and that exacting discipline by which governs the practical operation of all its trains. Other specialties of this route are Transfers at all connecting points in Union Depots, and the unsurpassed comforts and luxuries of its Passenger Equipment.

The Fast Express Trains between Chicago and Peoria, Council Bluffs, Kansas City, Leavenworth and Atchison are composed of well ventilated, finely upholstered Day Coaches, Magnificent Pullman Palace Sleepers of the latest design, and sumptuous Dining Cars, in which elaborately cooked meals are furnished at reasonable rates. Between Chicago and Kansas City and Atchison are also run the Celebrated Reclining Chair Cars.

The Famous Albert Lea Route

Is the direct and favorite line between Chicago and Minneapolis and St. Paul, where connections are made in Union Depots for all points in the Territories and British Provinces. Over this route Fast Express Trains are run to the watering places, summer resorts, picturesque localities, and hunting and fishing grounds of Iowa and Minnesota. It is also the most desirable route to the rich wheat fields and pastoral lands of interior Dakota.

Still another DIRECT LINE, via Seneca and Kankakee, has been opened between Cincinnati, Indianapolis and Lafayette, and Council
