The Railroad Attorneys Bill. Mr. Beck's bill to prevent senators or congressmen of the United States from acting as paid attorneys for railroads was referred to the senate judiciary committee on June 23.

Senator Beck has a bill to prevent senators or congressmen of the United States from acting as paid attorneys for railroads.

After nearly three weeks' delay the bill has been reported back to the senate so distorted and loaded down with additional matter as to insure its defeat.

The original measure simply forbade the people's representatives from acting as attorneys for any land grant road.

The bill as reported from the judiciary committee prohibits a member of either house of congress from being employed by any corporation engaged in interstate commerce by land or water, or in the transportation of the mails.

This result forms one of the grandest of the proofs presented to show that the senate is controlled by corporate influences.

De Lesseps' Failure. Nobody will be greatly surprised at the statement that comes from Paris that French confidence in the Panama Canal company is about exhausted.

The foreign markets are closed to the American manufacturers largely because Americans close their doors to the raw materials of foreign production.

A reasonable and sensible tax reduction will include the maintenance of internal revenue taxes for whose reduction there is no demand.

Doing Sherman Injustice. There appears to be a disposition in certain quarters to ascribe the apparent anxiety of Senator Sherman to have the Payne senatorial election investigated.
