THE DAILY BEE.

Sworn Statement of Circulation. State of Nebraska, ss. Geo. B. Tzschuck, secretary of the Bee Publishing company, does solemnly swear that the actual circulation of the Daily Bee for the week ending July 9th, 1886, was as follows:

Subscribed and sworn to before me this 15th day of July, 1886. N. P. FEIL, Notary Public.

Subscribed and sworn to before me this 5th day of July, A. D. 1886. N. P. FEIL, Notary Public.

We will gladly exchange the "old wave" for a "wet wave."

JIM LAIRD is good on his muscle, but the question is whether Nebraska wants to be represented by rowdies in congress?

The best publicity for such a villain as the man Woodridge would be as an attachment to a telegraph pole or convenient tree limb.

The Provident Savings bank of St. Louis, whose cashier ran off with everything but the safe, ought to have its name changed to the Improvident bank.

A JURY has been finally secured for the Chicago anarchists. The general impression is that it will be as difficult to secure an agreement as it was to obtain a full jury box.

SENATOR VEST tried to do a good thing for the old Missouri river yesterday by moving to increase the appropriation from \$375,000 to \$500,000, but the senate voted it down.

OPEN cesspools, stagnant water, filthy alleys and slaughter houses sending out their stenches over the city are good hotbeds for cholera germs.

WHEN you meet a candidate for a state office in these days, he wants it distinctly understood that he doesn't want to be committed on any vital issue that affects the people's welfare until after the convention has adjourned.

THE First district will nominate a candidate just one week before the state convention. Church Howe has set his mousetrap as skillfully as in his name were Jay Gould. He now can pledge the Nemaha delegation to half a dozen candidates for every state office and he will not be obliged to show his fine Italian hand until after the sold out delegations have delivered their goods to him.

IT appears from a report just received at the state department at Washington from Consul General Klein at Berlin, that cases of trichinosis have been decreased in Germany since the exclusion of the American hog from that country.

THE reports submitted in the United States senate on Thursday, adverse to an investigation of the alleged use of corrupt means in the election of Senator Payne, do not exculpate the accused except to the extent of saying that he is not personally implicated—that is, he did not himself engage in buying up members to vote for himself.

THE river and harbor bill will die either at the hands of congress or by the veto of the president. It is not an entirely simple matter to get at the motive which re behind the conduct of certain members of both houses of congress in relation to this bill—

Through Thick and Thin.

General Thayer has been subjected to the exhausting pump of the Lincoln organ of railroad republicans. The general declared upon his honor that he has entered into no political alliance with Senator Van Wyck and has made no pledges on the senatorial issue to any of Van Wyck's friends.

General Thayer has also assured the pump handle at Lincoln that he has been a staunch republican through thick and thin and has never failed to support any candidate who had the seal of a convention on his coat tails.

A Disgrace to the State.

Nebraska has been disgraced by the bloated rowdy who represents the Second congressional district in the halls of congress. The use of vile language followed by personal violence may commend Jim Laird to the cowboys and saloon bums, but he is not a respectable citizen.

Both houses have passed the bill to pension veterans of the Mexican war and the measure has now gone to President Cleveland for his approval.

The Limit of Tariff Taxation.

Those who would be encouraged by proposals to declare the committee in his able exposure of Sam Randall's apple-jack tariff bill, "may still take comfort in that public necessity which requires a revenue of \$100,000,000 to be derived annually from custom house taxes."

Other Lands Than Ours.

The elections have decided Mr. Gladstone's downfall. The majority of thirty against his measure for home rule has been swelled at the polling booths to seventy-five.

Senatorial Pointers.

In the seventies there are but two senators, Payne being 75 and Morrill 70. Out of a total of seventy-six senators thirty-four have been born in the states they represent.

Good Work.

To the Editor of the BEE: Allow me simply as an outsider to speak of a work that is being carried on in this city by a few ladies that I am sure is not fully appreciated by most of our citizens.

Managing the Department with Reference to the Public Debt.

If we do not misapprehend the character of Mr. Manning, he is not only very tenacious of his opinions, but is very sensitive under rebuke, and he must therefore feel keenly the condemnation visited upon him in the message of the Morrison resolution.

The Ninety-seventh Anniversary of the Taking of the Bastille.

The ninety-seventh anniversary of the taking of the bastille was celebrated Wednesday evening under the auspices of the French Americans of St. Louis.

How Frankie Stirred up the Old Man.

"Graver, dear, is this a democratic administration?" "Of course it is, Frankie. For heaven's sake don't let anyone hear you ask such a foolish question."

Chicago Gets the Roses!

Will Be Settled Some Day.

At latest accounts Dakota had not been admitted into the union, though having every claim to the thing.

The Suicidal Mania in Iowa.

The village of Wilton, twenty miles west of Davenport, Ia., with 500 inhabitants, has furnished seven suicides since January 1, and thirteen instances of self destruction within two years.

A Victory for Women.

The victory won by women at the present season of college anniversaries is nothing short of a revolution in the ideas of what is proper to be done within the walls of a college.
