the beach this morning for a breakfast  
and a bath.  
Stenographer and typewriter, O. Mun-  
son, with M. F. Rorher, over C. B. Na-  
tional bank.  
Charence Judson has ordered a \$400  
boat, which is expected to-day or to-  
morrow, for Lake Manawa.  
L. P. Judson has purchased lumber  
from the Chicago Lumber company for  
an eighty-foot boat which he is to build.  
The rail Road War is over, but you can  
always save a few dollars by purchas-  
ing your ticket of Bushnell, No. 30 Main

Some sort of a fire extinguisher is to  
be exhibited at the corner of Broadway  
and Eighth street to-night, and a small  
box or building is to be burned. If a  
blaze is seen in that part of the city  
and the crowd begins to run, keep cool  
and don't turn in an alarm, as the chief  
has been notified already.  
D. Harle and Marshall Traynor have  
returned from Chicago, where they went  
to purchase a steam launch for Lake  
Manawa. They could not buy one for  
love nor money, and as it is so late in  
the season they concluded not to have  
one built, as it would require five or six  
weeks to get it here and then the season  
would be over.  
Win. H. Burns, general agent for the  
Union Pacific in Council Bluffs, has  
opened his office at No. 506 First avenue,  
in Shugart's building, for the conveni-  
ence of merchants and shippers. As  
soon as Mr. Burns can complete his ar-  
rangements he will have office hours, at  
which time and place he hopes to be able  
to attend to the wishes of all parties un-  
der the arrangement of a new system. A. Lei-  
gold, his representative, will make ap-  
pointments for Mr. Burns.  
Fred Gerstenberg has kept away from  
Council Bluffs for some months, and  
says he has been really at work in  
Omaha. His absence has been a refresh-  
ing one, but yesterday he concluded to  
return to Council Bluffs again, and took a run  
over on the dummy. He was just going  
to take the train back again when Officer  
O'Brien arrested him on an old charge of  
obtaining money under false pretenses.  
The complainant was Mr. Woodruff, a  
saloonkeeper, and the transaction is said  
to have occurred last winter. Fred de-  
clares that there is any cause for such a  
charge, and that the claim is really for a  
bar bill, and a little borrowed money.  
Mike McCarthy, a cigarmaker who  
formerly worked for T. D. King & Co., of  
this city, and who left here in June, had  
a narrow call at Cory, Minn., the other  
day. He was standing in his doorway  
during a storm and the lightning struck  
a maple tree about ten feet distant, shiv-  
ering it and the adjacent fence. The  
lightning then made a circuit of the door  
and left its mark in the form of a small  
round hole through the door  
itself. The shock to McCarthy was so  
great that for a long time it was  
thought he could not live, but at last ac-  
counts he was better with good prospects  
for recovery, although his legs are partly  
paralyzed.  
It does well enough for the dear old  
lady to cry "Help to build up Council  
Bluffs," but it doesn't build up after  
trying to ruin it. Her favorite suburban re-  
sidence. Another bad break was made by  
her yesterday, when she proceeded to  
poke such fun at the Red Oak boys. It  
was bad enough to have to beat them,  
without giving them such a snub. Red  
Oak should be won over to Council  
Bluffs and its merchants coaxed into buy-  
ing goods here, and visiting the city of  
railways, rather than being ridiculed and  
made to hate the city. She has already  
shown too little sense in her treatment of  
those who visit Council Bluffs. True hospi-  
tality will help to build up a city.

Mr. and Mrs. J. J. Stewart have re-  
turned from their eastern trip and from a  
visit to his old home in Ohio. Among  
the pleasant reminders of his visit which  
he brought with him is an excellent por-  
trait of President Cleveland, which his  
younger sister, Miss Ellie Stewart, made  
with a pencil. The young lady is pre-  
sently a lightning penholder, as his por-  
trait was made while the carriage was  
waiting at the door to take the family out  
for a ride, and it certainly is an excellent  
one. Miss Stewart has taken several  
honors in her home for artistic work, and  
surely has talent which should be de-  
veloped more.

and Police Alarm.

**ABUSING THE RED OAK NINE.**

Fresh Points on Paying-Doings of the  
City Council—Personal Men-  
tion and the News-  
Boiled Down.

**Capture of Richmond.**

The capture over the proposed fire  
alarm system has been decided in favor  
of the Richmond, as against the Game-  
well. The matter has caused a great  
deal of interest here, and free discussion.  
Mr. Chandler, representing the Game-  
well alarm, had many personal friends  
here, and they worked zealously for him,  
feeling that they could do so conscientiously,  
as he has a fire alarm system  
which is in use in many of the leading  
cities of the land and is of acknowledged  
merit. It is conceded to be the old and  
reliable one, and this, in addition to the  
personal feeling toward Mr. Chandler,  
made the claims for the Gamewell  
strongly pressed. The council has de-  
cided in favor of the Richmond, because  
they honestly believed it was the best  
one to secure, prices and all considered.  
The action of the council will be gen-  
erally endorsed. The Richmond alarm is  
a comparatively new one, and this was  
the strongest argument against it. This  
city has already wasted considerable  
money in trying to get along with a  
cheap fire alarm, and the citizens are  
very tender on any proposal to experi-  
ment. This timidity was recognized, and  
the Richmond company in its contract  
is to guarantee the city as strongly as it  
is possible to guarantee it. The system  
is to work satisfactorily to the council,  
the aldermen, and not outsiders or courts,  
to be the judges as to whether the system  
works well. Sixty days after the system  
is put into active operation the city is to  
pay \$500, or one-fourth of the contract  
price. In six months, if still working  
satisfactorily, another \$500 is to be paid,  
and at the end of a year the remaining  
\$1,000 is to be paid. Besides this guar-  
antee the Richmond company is to give  
a satisfactory bond of \$2,000 as a  
guarantee that the sys-  
tem will work all right for two  
years, and if for that time it proves not  
to be what the city has the right to ex-  
pect, the company is to pay back the  
money received, and take the system out.  
The council seems to have put into the  
contract almost every possible condition  
to protect the interests of the city, and  
there seems no lack of confidence on the  
part of the Richmond company about being  
able to meet all requirements.

The difference in the cost is much in  
favor of the Richmond system, and the  
system is pronounced by many who have  
examined it as fully as good, and by many  
pronounced better than the other.  
The special advantage is offered by the  
Richmond system, a police alarm system,  
combined with the fire alarm system,  
and yet working separately and dis-  
tinctly. The city gets a fire alarm and  
police alarm for less than the Gamewell  
fire alarm could put in. In view of the  
charge, and that the claim is really for a  
bar bill, and a little borrowed money.

The Richmond company is also to put  
in three registers, one at each house, and  
if at the end of a year they prove satis-  
fying, the city is to pay \$200 for each  
one. If not the city is not to accept them  
at any price.

This city has long needed a reliable  
system, and if the Richmond proves satis-  
fying, it will be a boon to the city. The  
workmanship of the boxes displayed  
here, and the manner of operating, con-  
vinced all who saw them that it is an ex-  
cellent alarm, and the special advantage  
of having a police alarm system at the  
same time, gives it a great leverage on  
the public favor. It is possible that with  
the adoption of this system the patrol  
wagon, which now lies idle in the stable,  
may again be called into service.

Chief Templeton has examined both  
systems, and he is heartily in favor of the  
Richmond.

**She Pulls in Her Latch String.**

The funny child of the dear old grand-  
mother yesterday morning laid himself  
out by the insulting remarks about the  
Red Oak club, who played in this city  
Wednesday afternoon with the Mueller  
Music Company club, causing the Mueller  
nine to become indignant, and they sent  
the following letter to the Red Oak club  
forthwith:

COUNCIL BLUFFS, July 21.—The article  
which appeared in this morning's issue of the  
Nonpareil, giving vent to the funny ideas of  
the Red Oak club, is denounced by the Mueller  
Music team under each and every circum-  
stance. We consider you the strongest team  
we have ever met, and pronounce each and  
every one a ball player. The article referred  
to gave no synopsis or detail of the game, but  
was simply to make light of and ridicule your  
team for the sake of a few cents. You made  
liant plays and some very bad errors. The  
same can be justly said of us. In regard to  
the matter of "licking," you made an equal  
amount on both sides. Believe us, we de-  
nounce the article in toto. Yours truly,  
MUELLER MUSIC TEAM.

**OFFICIAL SCORES.**

R. N. Whitteley, the scorer of the  
game of ball played on Wednesday, did  
not get the official score in shape for  
publication until yesterday morning, and in  
consequence the Bee could not give it  
yesterday in connection with the pub-  
lished account of the game.

The following is the score in full:
