THE MASCOT LOST HIS GRIP

The Union Pacifics Badly Scooped by the Hastings Team.

DAVITT WILL VISIT OMAHA.

Caught a Thief--Cricket Match-General Howard --- A Peculiar IIIness--- The Press Club --- Brevities and Other Locals.

The Record Broken. The closeness of the ball game on Satarday between the Union Pacifics and the Hastings Reas and the knowledge that yesterday's game would be pinyed for blood by both sides, drew an immense erowd to the Athletic park yesterday afternoon. When the game was called at 3:30 o'clock vacant seats in the grand stand were scarcer than the scores of the home team were when the game was finished. Fully 3,000 people were present. The Reds went to bat, with Salisbury pitching and Bandle catching for the home team. Salisbury was not in shape and the batters pounded him so heavily that he had to give place to Anderson, who putched the rest of the game. The Reds made four scores in the first inning and held the home team down to one. In the second inning the Reds were shut out, while the home team scored three tallies, making an even thing of it at the end of the second. At this point excitement ran high. Hastings had a delegation of about one hundred persons in the grand stand, and their efforts to yell themselves hoarse were crowned with success. The Reds scored twice in the fourth, once in the fifth and once in the seventh, tieing the home team by a score of eight to eight at the end of the seventh. By a combinato the end of the seventh. By a combina-tion of mishaps and errors the home team lost their hold in the eighth inning and failed to score. The visitors made one in the eighth and went to bat in the final inning flushed with their already apparent victory, and by dint of heavy batting and as fine running as has been seen on the home field this year, scored four more runs, closing their batting inning with a total score of 14. There was a faint hope in the breasts of the backers of the home team that they would redeem themselves in the "fatal ninth" and possibly win the game. Rockwell went to bat and lead off with a long and high fly, which was captured in right field by Newman. Dugan followed with a high flyer which was picked up in center field by Nicholson. Sarisbury then took the bat and, for a change, sent a fly to left field. It was caught by Bader, making the game a victory for the Reds by a score of game a victory for the Reds by a score of 14 to 8. The game was umpired by Manager Harrington of the Lincoln team. The Reds showed their metal yesterday in much better shape than in the first game. Their fielding was superior to that of any club that has met the Union Pacific this year, while to their fine base running was due, in a great measure, their victory. The home team did not play their usual game, and there seemed to be no way for accounting for their failure. The following is the score in UNION PACIFICS.

Bandle, c 3		1	8		j

Cricket.

The fourth of the series of matches between the Omaha cricket club and the freight and ticket office of the B. & M. railroad was played on Saturday and resulted in favor of the former by twelve runs. The victory was mainly due to the opportune contribution of W. J. Francis in the batting line, and the faultless fielding of Messrs. Gavin and Thake-

MICHAEL DAVITT. The Irish Leader to Spend a Week in

Omaha. Mr. Thomas Brennan, ex-secretary of the Irish Land League, received a letter yesterday from Michael Davitt, dated Dublin, July 18. It states that the writer would leave on August 1, (yesterday), for this country, accompanied by Mr. J. O'Rourke, a wealthy flour merchant of Dublin, and William O'Brien, editor of United Ireland. Mr. O'Rourke is an uncle of Mr. Brennan, who comes here with reviewing the country and visiting his nephew. These gentlemen will arrive in this country on August 8. Mr. Davitt will speak in Chicago on the 14th inst., at the great annual gathering of the Irish nationalists of that city. Mr. Theo. Brennan will also deliver an address on that occasion. Both these gentlemen will atleague at the same city on the 18th and 19th inst, after which Mr. Davitt will re-turn with Mr. Brennan and Mr. O'Rourke to this city, where he will remain for a week. He will then leave for San Fran-

The evening train from Denver was two hours late on account of having to wait for the Rio Grande connection.

sisco, where he will commence his lec-ture season, which will continue for sev-

TALKS WITH TRAVELERS. Short Interviews Gathered in the Hotel Rotundas.

John Steen, Wahoo: The crops in some sections of Saunders county have been somewhat injured by the late drouth. In those sections nearly six weeks elapsed since rain fell, but in others the dry season has not been felt so keenly. The recent rains, however, have done a great deal to make farmers feel happy. If it had not been for them the crops through-out the county would have suffered sadly indeed. Politics are rather quiet out our way. I do not know that the prohibitionists intend to take part in this year's contest.

If they do it will be after the other parties have made their nominations. I don't think, however, that the prohibitionists will go much farther this year than to insist upon the submission to the people of an amendment to the consti-tution providing for the abolition of the liquor traffic. If they secure the submission of such an amendment they will be satisfied for this year. I have been a subscriber to and a reader of the BEE from the time its first copy was issued. I thought some time ago that I had still a copy of the first number, but on making a search I was unable to find it. But I still think it is lying around among my spaces?"

it is lying around among my papers." C. Thurber, Ogden: I see that the fast train idea has been abandoned. Well, I guess it's all for the best. The Union Pacific has tried the fast train business and abandoned it. They put on two trains to our place, some three or four years ago, and endeavored to make rapid time to distance the B. & M., which had just gone into Denver and there connected for Ogden with the Denver & Rio Grande. But they never made time. Their engines broke and the great speed with their heavy cars used up the track. Besides, they got to stopping at every station which displayed a flag, to pick up a man or woman who was going fifteen miles, and I understand that some of these stations had out a flag whenever the train passed. The train was an expensive one and was finally abandoned when the road was getting into trouble. If the Union Pacific want to put on a fast train they will have to profit a little from the experience of the train I have mentioned.

Local Laconies.

Rev. James Paterson: The number of Episcopalians is increasing rapidly in Omaha and throughout the state. The roof is nearly on St. John's church, which we are building in North Omaha, near the Long school Work on All Saints' church, in the southwestern portion of the city, will be commenced very soon, the plans having been perfected. The congregation is anxiously waiting for the city authorities to fix a permanent street grade. Brownell hall is nearing com-pletion very rapidly. It will certainly be ready for occupancy January next."

"Do you hear from Dean Milspaugh

frequently?"
"Oh yes, quite often. He and Mrs. Milspaugh are very much pleased with their new home. The dean has a very important charge and a fine congregation, and from what I can hear the flock thinks a great deal of its shepherd.

Manager Hughes of the clearing house: The bank clearings for the past week while showing a hearty increase over those of last year, are not so large as they have been for a week or two previous. This I think is due to the drought, which affects banking as it does other kinds of business. I am sure I don't know what else it can be.

George Smith, county surveyor-"As an evidence of the large number of additions that are being laid out to the city right along, allow me to cite the fact that within the past few days I have driven 9,000 stakes on property surveyed as additions to the city. The stakes will average two to a lot, so that the work represents 4,500 lots, or about 1,000 acres. Of course there are other surveyers in the field who may have done as much more.

A Peculiar Ailment.

Yesterday morning Frank Doane who is the proprietor of a saloon on Sixth and Pacific streets arose from bed and suddenly fell into a chair, his head dropping | there was nothing but corn stalks. over on his right shoulder. His wife noticing the peculiar action of her husband ran to his relief. To all appearances he was dead. She screamed for assistance and some of the neighbors quickly responded. Phicians were sent for and on a very short time Drs. Peabody and Coffman were on hand. They announced at once that life had not departed and adopted heroic measures to revive Mr Doane. After several hours he was aroused to consciousness but was very much exhausted and is now confined to his bed from the effects of his peculiar ex-He has been ailing for some time and it is feared that this attack will prove fatal. He is well known in Omaha and many friends will sympathize with his family.

General O. O. Howard.

Major General Howard, commanding the department of the Pacific, was in the city yesterday with his aged mother. They arrived on the morning train from Glencoe, Ill., and spent the day with the general's son, Chauncey O., of West Omaha precinct. General Howard has been in the east several weeks, visiting different places in Illinois, Ohio, Michigan and New York. This trip was en-tirely a personal one, having no connec-tion whatever with military business, the main object to accompany his mother to his new home in California. The latter is an exceedingly well preserved lady for her advanced age and joined as heartily in conversation as the general himself. The party left for the coast on the overland last night.

Received a Cane.

Mr. S. S. Auchmoody, deputy county clerk and superintendent of the Sunday school of the Seward Street Methodist church, was yesterday presented with a magnificent gold-headed cane by the children under his care. This was a deserving recognition by the little ones and their parents, of the services of a gentleman whose work in the the Sunday school has been both unremitting and successful.

He Stole the Horse.

Mention was made in yesterday's BEE of the arrest of C. F. Howard on suspicion of being a horse thief, because he had traded a fine sorrel horse worth at least \$150 for a broken down broncho which he afterward sold for \$15. The sorrel horse proves to have been taken by Howard from J. H. Gue's barn on Sixteenth street. Mr. Gue secured possession of his property yesterday and will prosecute Howard for stealing.

The meeting of the Press club, which was held yesterday afternoon at the

Elks' lodge, adjourned to meet to-night at 8 o'clock sharp in the Herald office, where every member is expected to be present. Permanent officers will then be elected.

Opelt's Hotel, Lincoln Neb., opened March 15th, first class in every respect. J. L. Wilkie, manufacturer of paper

boxes, 106 S. 14th street Omaha.

RUSHVILLE.

An Embryo Nebraska City Where Progress and Prosperity Hold Sway.

CREAM OF CUSTER COUNTY

The Towns of Mason In the South and Whitney In the North---Their Magical Growth and Promise.

Affairs at Rushville. RUSHVILLE, Nob., July 31 .- [Correspondence of the Bee. |-The ranchmen who have been croaking about the dry weather in the western part of the state have been somewhat premature. Within the past week it has rained several heavy showers. The corn crop is in prime condition, and shows for itself, refuting the false assertions of the sheep king. The people have come here to stay, and the cattle baron must go. There is no finer agricultural and pasturage lands in the state than we have here, together with plenty of wood for fuel and building purposes. Good water is found in abundance, and land is rapidly increasing in valuation. The sod house and dugout are rapidly giving place to the more commodious frame building, and signs of prosperity are abundant. A large amount of breaking has been done this season,

which will greatly increase the acreage of crops next year. The wheat crop is being harvested, The yield is good. Oats are looking

The Indian supply depot has been removed from Gordon to Rushville and greatly enlarged. The unwashed savage now appears on our streets in all his primitive glory. Hereafter 6,000 Sioux will receive their supplies from here.
The town has an addition of two more

lumber yards and now a war has been maugurated and the prices have gone down. The people have taken advantage and many residences are being creeted, also several stores. The base ball mania has reached us and some high

scores are being made
The political cauldron is beginning to The political cauldron is beginning to boil and some are already looking legislatureward. The people are for Van Wyck and none need apply for election who will not support him. The brazenfaced audacity of the Republican and State Journal in denouncing Van Wyck "because he is working for the Union Pacific," is an ancient chestnut. If there are two greater railroad cappers and corare two greater railroad cappers and cor-poration tools in this state than the editors of the above papers, we have failed to hear of them. Besides their junketing tour through this county October in a palace car, wined and dined by the railroad, coupled with their poker playing, left anything but a favorable impression. The people should support him for the enemies he has made and return him again for the work he has done.

this town, some two months ago, it was thought it would be just a small village, the company at that time being ignorant of the vast amount of territory tributary to it. Instead of a village Mason will be a city in less than eighteen months, having miles and miles of fertile country on

each side. Already eightylots have been sold and the boom has not yet begun in good shape. Fine large buildings are being erected on every hand and everything goes to show that Mason will be a town of at least two thousand inhabitants in eightern ments. Mason has all live eighteen months Mason has all live business men and eyeryone is wide awake to the best interests of the town.

Politics in Clay County. FAIRFIELD, Neb., July 31.—[Correspondence of the BEE]—The political

pot in Clay county has been gently simmering over the fire for some time past, has never come to an active boil, but has has just simmered along until its contents are pretty well cooked. Clay county's delegation in the state legislature will be composed of new men. The tall and gaunt form of our "Long Dan" Nettieton, which has loomed up so conspicuously in the lower house during its past two sessious, will be seen there no more, for the present, at least. In his place, this part of the county will send Hon. W. L. Randall, of Fairfield, formerly county treasurer of this county. Hon. Ezra Howard, of Edgar, who has also served in the lower house during its past two sessions, will retire to private life on his own motion. The candidates for his position as far as heard from are J. E. Bagley and Robert Brown, both of Sutton, with Bagley several lengths in the lead, but either Brown or Bagley would be content with a nomination for the senate if someone clse should carry off the lower house prize. Hon. Ezra Brown, of Harvard, who has held down a seat in the state senate during its past two sessions, is willing to be considered "in the hands of his friends" considered "in the hands of his friends" for renomination, but it is generally conceded that his ability has been sufficiently recognized by two terms, and it is probable that he will have to give way to a younger man, and the woods are full of younger men willing to sacrifice their time and talents in that situation. Prominent among them are Tom Waters L. G. Hard and T. A. Barbour, of Howafd, and S. W. Christie, of Edgar. From all these candidates, if your correspondent was going to stake his bottom dollar on the ticket which will be elected, he would fix it up like this: For state senator, John E. Bagley, of Sutton; for representrives, Wm. S. Randall, of Fairfield and L. G. Hurd of Howard. This is the outlook from a republican

standpoint, of course. The democrats and prohibitionists will no doubt place tickets in the field to be snowed under as usual. The delegation from this county to the republican state convention will, it is altogether probable, support Hon. J. B. Dinsmore, of Sutton, for governor, with General Thayer as second choice.

A New Town in Dawes County. WHITNEY, Neb., July 29 .- [Correspondence of the BEE. |-Here in the heart of the riebest and most fertile agricultural country known to Northwest Nebraska lies the young but flourishing town of Whitney. It is situated in the beautiful and picturesque White River valley on the Wyoming Central division of the F. E. & M. V. R. R., and is about lifteen miles west of Chadron. The former name of the place was Dawes City, but the name has lately been changed to Whitney, in honor of P E. Whitney, the western town lot agent, and Charles S. Carter, a prominent merchant of the place, has been appointed postmaster. The first town lot was sold on the first day of June, and up to this time there have been creeted eighteen business to-gether with depot buildings, etc. Ad-preent to Whitney are miles of rich rolling prairie well adapted to agriculture or grazing, and this together with the enter-prising people with which the country and town are inhabited, will certainly in sure the town a permanency and a busi-ness center. The soil of the sur-rounding country is a dark loam easily brought to a high state of cultivation and capable of producing in large quantities of either grain or truit. The immigration to this country during the past year has been immense and most of the free government land in the vicinity has been taken although there are still many fine tracts of land within eight or ten miles that can be obtained under the pre-emption, timber claim and home-stead laws, but people are takidg a real-istic view of the fact that land worthy of settlement, will last but a few years longer, hence the great rush to the north-No country offers the inducements west. No country offers the inducements that this does to the poor man, business man or capitalist. The laborers and poor of the east could here take up a beautiful and valuable tract of land and settle down in comfort and prosperityas bundreds are now doing. The climate is the most salubrious and healthy known to any country. For its dryness, for its healthfulness and wholesomeness and for these qualities or properttes which

render one's mere existence exhilarating and enjoyable. If there be such a

thing as "a glorious climate," this country surely possesses it. The soil of the land for productive qualities is not ex-

celled by the choice lands of Illiuois, lowa or Kansas. Wheat yields from twenty to thirty bushels per acre of the best quality, and other grain in proportion. Vegetables that are grown here are not of a pithy, hollow hearted variety, but are good clear through and as line

as any country ever produced. For stock

Ruffian Raftsmen.

The police were called to the vicinity of Boyd's packing house yesterday afternoon by a report that two men were having a shooting matinee. The patrol was sent in response to the alarm. It was found that the trouble was caused by two men who were on their way done the river in a boat. They had stopped at some of the shanties near the river and made demands for food upon the women who were found alone. Not having all of their wants supplied the rullians began firing their revolvers in a reckiess manner nearly frightening the ladies to ceath. When the police arrived they found that the men had cut their boat loose and were quietly "drifting with the tide" beyond the jurisdiction of the civil authorities.
