ONLY ONE CASE OF TARRING

Protestants Daub a Catholic, But Otherwise Belfast Had a Quiet Day.

HOW THE MEN FOUGHT SUNDAY.

An Eye Witness Tells of the Firing of the Police-More Rioting Feared Sunday-Troops Pouring in-Other Foreign News.

The Belfast Situation. BELFAST, August 13.- |New York Herald Cable-Special to the BEE|-With the exception of the excitement caused by the tarring by some Orange Island men of a Catholic named John Johnston, Belfast has been perfectly quiet to-day. Johnston has a sister, Maria Johnston, who lives in New Orleans. He works in Harland & Wolff's ship-building yard. During the breakfast hour this morning a pot of hot tar was emptied on his head by a lot of Protestant ship carpenters. He was not seriously burned, but made a sorry looking mortal with hair and beard covered with and his eyes full of tar, His clothes were saturated with the stuff and stuck to his body, where they had not been loosened by the beating he had atterwards received.

A PEACEFUL PROCESSION. It was expected that this outrage would lead to attacks on the island men as they returned from work this evening, but the mass of workmen passed safely through the Catholic neighborhood in spite of their irritating howls of "buckshot" at the police and their cheers for the troops and the magistrates, who are disliked by the Catholics on Bridge and North streets. It seemed for a moment as if the cheers for J. H. Haslett, the late Protestant member of parliament, who was defeated by Thomas Sexton, might goad the Catholics on to an attack in spite of the police and troops, but the danger passed at the intersection of Milfield street and Peter's Hill, An attempt was made to arrest an island man who threw an iron bolt over the heads of a double cordon of police and troops. It caused a momentary scuffle and some excitement, The bolt struck a Catholic who was standing behind the police forcibly in the stomach, doubling him up for the moment. However, the thrower of the bolt was not recognized, as his comrades closed around him and hurried him up reter's Hill into the Protestant quarters before the police could get to him.

THE TROOPS SHOWED THEIR SYMPATHY with the Island men by refusing to point out the rioter. Such remarks as "That's a good throw" as the bolt whizzed over their heals showed that the sympathy between the troops and the Protestants is now quite as marked as that between the police and the Catholics.

AN EYE WITNESS INTERVIEWED. I talked to-day with J. J. Johnston, an insurance agent, who was an eye witness of the brick field fight between the Protestants and Catholics Sunday evening, Mr. Johnston has, by the way, a brother named Alexander, who lives in New Jersey. Mr. Johnston's story will serve, perhaps, to explain partly the Orange hatred for the police, He said:

"I saw a crowd of orange boys gather on the Shank Hill road and Pierce streets. Some Catholics had also gathered at the lower end of the street. Both sides were at it hot and and appreciate-Miss East Lake. Such per-

This course was arranged so that the yachtsmen and visitors might see the start and finish. The race is not expected to be over before noon on Sunday. To-night the weather is in favor of the Genesta. There is a strong southwest gale,

and every appearance of DIRTY WEATHER TO-MORROW. But should the wind veer doe west it is

thought the Ibex will, in all probability, be the winner. The Ibex gives time allowance, but it is not settled whether by American or English rules. The former favor the Genesta. The point is being de-bated now by the members of

the royal yacht squadron, and the result will e announced in the morning. The Genesta carries twenty-six men, including the owner, his brother, and Sir William Levinge, who is well known among American yachtsmen. The Ibex hasalso challenged the Genesta for the Brenton reof cup. This race will be salled soon but the date is not fixed. The barbor as I returned from visiting the Genesta presented a fairy scene, with the bright lights of the yachts sparkling under the inky black sky.

WILSON BARRETT'S FAREWELL

A Hearty "Bon Voyage" to an English Actor Bound for America.

LONDON, August 13 - [New York Herald Cable-Special to the BEE,]-Wilson Barrett's literary and professional confreres gave him at "the witching time" to-night an au revoir supper at the Criterion restaurant. Covers were laid for 250, and more than that number wished to subscribe after the capacity of the room had been exhausted by the earlier acceptances. The supper was conduced to Barrett's confreres. A stupid story that Henry Irving has gone to America to "backcap" Barrett is killed by the fact that Irving's name appears as one of the stewards, and among the guests were lrving's intimates, Hatton, Brereton and Dr. Morrell Mackenzie. Among the dramatists present were Willis, H. A. Jones, Sydney Grundy and H. S. Hermann, each of whom will furnish a play in the forthcoming American repertoire. Besides these there were Concicalt, Pinero, Godfrey, Pattit and Hauttrey. Among the literary men were David Christie Murray and B. L. Faricon, the novelists, Oscar Wilde and Mr. Perry, the president of the Boston Press club. As for the actors or managers present, to enumerate them 1 should require to have a copy of all the London playbills. Charles Warner was chairman. Whether

his claims to that position had aught to do with his well-known success in the drama of drink, and the adaptation of L'Assamoir, i is certain that all admitted his claim as an introducer of toasts. The health of the queen and the royal family were drank with boundless enthusiasm. The royal family is the very spinal column of the theatrical body. Joseph Knight, the editor of Notes and Queries, proposed "Literature and Drama," which was appropriately responded to by a novelist and play-wright. The chairman, in the course of a much too long speech remarked: "Wilson Barrett we lend to America, in return for the pleasure and amuse ment America has lately lent us. It is impossible his gifts can fail of winning the same ample recognition upon the other side of the Atlanta that they have won on this. He will be accompanied by a lady whose talent and achievement we fully recognize after

A BIG SHORTAGE. Mary Anderson and Other Friends

Practically Aid a Defaulter. LOUISVILLE, August 13 .- This city was treated to a genuine sensation to-day by publication in the Evening Times of a three column article showing that when Colonel R. M. Kelley, for thirteen years pension agent here, retired from office in March last, he was \$58,800 short in his accounts. This shortage had gradually accumulated during Colonel Kelly's entire term, he giving a fresh bond every year or so to lower it. The shortage became public some time after Colonel Kelly turned his office over to his successor and a hasty summoned meeting of his bondsmen and personal friends resulted in the amount being contribited and made good to the governmen. Among the gratuities are: Mary Anderson, the actress, \$5,500; Mrs. Woodward, \$1,000; A. S. Schmitt, (for the First National bank) A. S. Schmith, (for the First National bank) \$1,000; Logan C. Murray, (on a quasi collat-eral) \$4,000; B. Dupont was responsible for \$7,000, as bondsman, but contributed \$15,-000; Mr. Schmitt, of Chicago, liable for about \$17,500, compromised on \$1,000. CHICAGO, August 13 .- Michael Davitt, the one-armed father of the land league, arrived in this city over the Lake Shore road tonight, and was met at the depot by the local reception committee, headed by Mr. Frank Murray. He was quietly escorted to the Frand Pacific, where he was received by Patrick Egan, Alexander Sullivan, Daniel Corkery and several other gentlemen. During the evening a committee of ladies from St. Joseph Orphan asylum waited upon Mr. Davitt and requested him to visit the West Side driving park in the morning and make a speech. He kindly but firmly told the ladies that he could not speak at any place but Ogden grove to-morrow, but that later on,

The Cabinet Decides to Send a Special Envoy to Mexico.

MEXICO'S FOREIGN FRIENDS.

A Delicate Mission.

WASHINGTON, August 12,- [Special Telegram to the BEE - Notwithstanding the great precautions that have been taken to keep the recent diplomatic negotiations with Mexico a profound secret, some one has leaked and the points in the new moves are out. They are as follows: At the cabinet meeting yesterday where the proposition to send a lawyer to Mexico to investigate the whole difficulty was discussed, a man was settled upon. This special envoy is not going to the City of Mexico, at least not for the present. He goes directly to Paso del Norte and will there investigate every phase of the case with great care. He will be able to ascertain a great many things that are

now not known to the authorities here. It was thought to be very important to keep this new move from the public, as it would help the objects in view not to have the citizen who has been selected and sent known to either Americans or Mexicans. So important was secrecy thought to be that prominent officials to-day endeavored, by evasive answers and in some instances untruthful ones, to throw those who were seeking information on a wrong scont. One of the few persons who knew of the selection of this envoy gave the following indefinite information:

"The man who has been selected is a private citizen, a lawyer. He is not now con-nected with any branch of the public service. He is said to be a very able and competent

The dis-patching of this special envoy is on the sug-gestion of the Moxican government, backed by Minister Jackson, Of course Jackson is anxious to be returned and come home, but no one thinks he is incompetent or neglect-ing his duties. The fact is the Mexican government profess to be anxious to do something to avoid trouble, but believe that they can convince this coun-try that they are proceeding in a legal way." By dint of careful and close inquiry your correspondent is able to give the name of this extraordinary envoy as Arthur G. He is expected to return to-morrow for final instructions and 20 proceed to Mexico to-morrow night. morrow night.

Attorney Ingham's Dynamite Oratory in the

Trial of the Anarchists.

STINGING COMPARISONS MADE.

Europe's Spewing of Her Outcast Anarchists Festsrs and Corrupts All Who Come in Contact With Them.

Scorching the Anarchists.

CHICAGO, August 13.-In Judge Gary's has been a very peculiar one, starting out, as court room this morning Zeisler resumed his address and began by impeaching the testimony of Witness Waller, which he said was untrustworthy, first, because it was paid for, and second, because the conduct of the conspirators was not such as it would have been had the word "ruhe" meant what he said it did, or if the prisoners were aware of its alleged signification. There might have been a grain of truth, the speaker said, in what Seliger and Walker testified to, but most of their stories were concocted by them. Zeisler concluded by declaring that the state's attorney was blinded by malice and influenced by the police conspiracy to send the speaker's clients to the gallows. He urged the jury not to be influenced by attempts which would be made to arouse their passions.

At the opening of the afternoon session Assistant State's Attorney Ingham stepped

At the opening of the afternoon session Assistant State's Attorney Ingham stepped quickly into the open space in front of the jury, and in a clear ringing voice, commenced his address in the following words: "There are verdicts of juries which make history. Your verdict in this case will make history. It is of great importance that your verdict be right. We live in Chicago, the metropolis of the great northwest and the very center of the civilization of the west. This is the 13th day of August, 1886, and on the latter halt of the nineteenth century, and we are investigating an offence as great as ever disgraced humanity. Seven men were killed; sixty were wounded. But this crime poles into insignificance beside the point of issue which you are to pass upon. Matthias J. Degan, on the 4th of May, left the Des-plaines street station full of life and hope and without mallee toward any living creature. He never harmed a hair on the head of any one of these defendants. Between him and them there could not possibly have been any ill will. Now he lies in his grave because he defended the law. These defendants struck at law. The great question which you are to decide is whether the law of this state is strong enough to protect itself, or whether it is to be trampled upon by these eight men, but one of whom is a native of the soil." The head conspiracy as given in the stat-utes of this state, and said: "Was the bomb throwing on the high of May 4th the result of conspiracy? If so, these men are guilty, and the law is strong enough to protect it-self."

great severity, the wind and sweeping rain combining to produce great hurt to trees and crops. From Creston, 100 miles from Coun-cil Bluffs, the report is that rain came too hate to do any good. From Mount Pleasant, thirty miles west of Burlington, the corn was blown flat to the ground and the present con-dition is worse than it was before, which was bad enough. A report from Sprinzdeld, in this state, is to the effect that the storm has done irreparable damage to corn, though it will revive grass and insures fall pasturage and the law is strong enough to protect it-self." From the opening of Ingham's address thi his arrival at this point it did not appear that a single ear in the court room had lost a word that had been uttered. From the judge on the bench, jury, counsel, defendants and each individual spectator, every attitude be-tokened the most earnest attention, and when the speaker began to pour out a torrent of denunciations upon the heads of the de-fendants and upon their doctrine, the keen-est interest was depicted on nearly every countenance. With the exception of Spies, who continued to smile insolently, the de-fendants listened with solenn countenances. "I know," said Ingham, "that Johan Most, of New York, is the acknowledged head of anarchy in this country. I know that these defendants are his ardent followers. They try to pass here as socialists, as Johan Most does in New York, but I know that at the congress of socialists in Ehrope not long ago. Johan Most was expelled. There were only two votes cast in his favor." Itere Ingham's emphasis became terrific

The signal service received reports at 10 o'clock showing that the storm yesterday evening was occompanied by less rain than Here Incham's emphasis became terrific when he continued: "Just as a turkey buz-zard spews his vonit upon fair fields, so Europe spewed Johan Most upon these shores. And just as the vomit of the turkey was indicated in special dispatches. In the upper Mississippi valley the precipitation was from one-fourth to halt an inch. The Spring-field, Ill., fall was an inch, at Indianapolis three-quarters of an inch, and through Iowa and Nebraska about half an inch. buzzard festers and corrupts whatever it The speaker said that European leaders of socialism, to see these defendants and hear them call themselves socialists, they would spit upon them. In answer to an argument of Mr. Zeisler that the ignorance of their hearers demanded that Spies and Parsons should use violent language, he said it was their design to prey upon the troubles and poverty of laboring men until they were ex-cited to frenzy. This was how they got their power. Their doctrine of anarchy could not be made to thrive among a prosserous people. Even the contortably situated laborer was THE BASE BALL RECORD. AN INDIGNATION MEETING.

The Catholics held an indignation meeting this afternoon to protest against the tarring of Johnston. Concerning Johnston's case, 1 saw the manager of Kordane & Wolff works, He said:

"We are not able to prevent such outrages. They are always committed during the breakfast and dinner hours. They are prearranged and executed so quickly that the whole thing is settled before a man can come up to prevent it. As regards the taking away of scrap iron for use in rioting, we would prevent it if we could. It is a dead loss to us, but we can't scare our thousand workmen. It is true the Catholics have practically been

DRIVEN OUT OF THE YARD, but that has bappened before the rioting began. We hope they will come back to us as they have before. Any way, we cannot prevent it.

The police and troops are still pouring into the city, in anticipation of Sunday's rioting. Five hundred more police came in this morning. As the city will have to pay a heavy bill for all the extra police, it is expected the rate payers will soon rebel against this continuation of rioting. The fact is the rioting has so little affected business in the better portions of the city that there has not been the same feeling of indignation against it which was felt during the previous riots when a business portion was wrecked. The early return of the Island men to-morrow, which is a half holiday, is looked forward to with some dread by all parties.

Mr. Barrett responded in an unaffected and simple manner, mentioning that he had several requests to attend banquets, but was compelled to accept one given by his confreres. He added: "The chairman has said you are to lend me to America in return for what America has lent us. I fear it is a very poor return for the treasures she has from time to time entrusted to us. A Big Socialist Demonstration.

BRUSSELS, August 13.-It is believed that no less than 50,000 workmen will attend the socialistic meeting next Monday, authorized by the burgomaster on condition that the parade to and from it avoid the king's palace. It is also thought that nearly that number of men will take part in the procession to the meeting. The procession will pass along all the principal streets and boulevards except those near the king's palace. It is also said that he does not quite agree with Secretary Fairchild on inancial questions. He was very much opposed to the ten million bond call which was ssued yesterday. His policy, it is believed Secretary Manninz would have carried out, which was to call in no more bonds than the law required for the sinking fund. Fairchild is also a radical in his ideas of this subject. It is thought that as long as he remains at the head of the department he will act upon the policy indicated by yesterday's call. In that case it is asserted that Jordan will resign as soon as he becomes convinced that Man-ning will not resume his place at the head of the department."
