LONDON, August 14.—[New York Herald Cable-Special to the Bee.]—What is the meaning of the riots on the political question? Such is the substance of an inquiry made of me by an American friend. "Riots in Cork and Tipperary," he writes, "the average American would have it understood as the result, perhaps, of disappointment, but in Belfast, where the great majority consider they have won, it seems strange they should themselves begin the disturbances."

I am glad he asked the question, and should like to answer it. The answer is, far as an answer to me is worth anything to American readers. The fact is, Cork and Tipperary are not disappointed but well satisfied. I almost might say, triumphant. On the other hand, in Belfast...

THE ORANGE PARTY IS NOT SATISFIED and not triumphant. It is very much disappointed and infuriated. What they think of is not so much that they have carried so many seats in Belfast, but that they have lost West Belfast...

THE BELFAST RIOTS. An Able Opinion on the Causes of the Trouble. The troops and police are stationed in such large masses all over the town that probably any attempt at rioting will be suppressed before the men take a hand in it. If, however, rival gangs of boys are able to get well started, it is not unlikely that the whole of the district will be in a state of anarchy...

great gifts and high personal character. He has often called himself as a sort of Captain Boddily in politics. Captain Boddily wore the first time he meets Downright he will bastinado him, but when Downright turns up suddenly Boddily remembers he is bound over to keep the peace, and cannot, therefore, fight Downright. Before we part, however, Boddily will, perhaps, have bastinadoed Downright, and will not undertake to bastinado Gladstone or Parnell.

THE BELFAST RIOTS. An Able Opinion on the Causes of the Trouble. I know members who are boiling over with indignation, but who will not play into the enemy's hands. An utterly ridiculous appointment, like that of Stanley to the board of trade, was too glaring to escape notice. The public is inclined to make a generous allowance for the premier's deficiencies, and the ministry will have fair chance. The man who has the most difficult game to play is Parnell. Any rash or premature step would wreck his party, while too long inaction might do him harm elsewhere. Practically, his work must be begun all over again. The nationalists are naturally unwilling to admit this, but time will show you that it is true.

francs or 15 francs a week, while we would be making 50 francs, you will say the cost of living is higher there. It is not, however, so very much higher. I hear from Belgium in Chicago that they can live fairly there on 25 or 30 francs a week.

We admit the idea of state compensation in regard to the depths of water, but Belgium's workmen are not generally in favor of their ideas of co-operation and executive-ism, gradually and logically ending in a grade association of the nation. Under our system the Rothschilds and Jay Goulds, who, after all, can't help being what they are, would become state pensioners. We hope to OBTAIN OUR ENDS PEACEFULLY.

ADRIFT ON THE OCEAN WIDE.

HYDROGRAPHIC OFFICE WORK.

Preparing For Extensive Improvements at the White House With Only a Little Money—Mrs. Cleveland's Pictures—Gossip.

Drifting With the Tide.

WASHINGTON, August 14.—[Special Correspondence of the Bee.]—Very few people have any idea of the character of the work performed by the hydrographic office of the navy department. It is understood in a general manner that this office has something to do with mapping the surface of the ocean in order that the depths of water, location of shoals, etc., may be known to mariners. Each month this office issues a chart, which is known as the pilot chart for the month, giving the direction of the prevailing winds, the location of ice reported and such other data as only seamen are interested in. This chart, although a very dry subject, frequently contains the material out of which a romance is woven. Among other things which this chart contains are the reports received from passing vessels, each week, giving the location of derelicts. Derelicts are vessels which have been wrecked and abandoned, and are therefore, until they sink, far more dangerous to the sailor than the Flying Dutchman or the phantom schooner of the legends of the sea. They are usually lumber laden vessels which have been wrecked and abandoned, and are therefore, until they sink, far more dangerous to the sailor than the Flying Dutchman or the phantom schooner of the legends of the sea.

ANDERSON ADVANCES. A Convention That Sat Down Very Early and Settled Very Early. ST. LOUIS, Mo., August 14.—[Special Telegram to the Bee.]—The republican convention met here to-day at 2 o'clock, and upon the temporary organization the full strength of the Andersonites and the McClellanites was demonstrated. There being a contest in two townships, the committee on credentials returned a unanimous report sustaining the Anderson delegation, though one was a Hepburn republican, and the report of the committee was adopted by a vote of 29-15. Anderson carries one seat and Hepburn one. A motion was made to instruct Hepburn to stand on the same basis as the Andersonites, but this was defeated. The convention adjourned at 11:30 p. m.

Wheat in South America. WASHINGTON, August 14.—[Special Telegram to the Bee.]—From reports received from Argentina Republic it would seem that the country promises to be a formidable rival of the United States in the near future as a wheat producing region. E. L. Baker, United States consul general at Buenos Ayres, writes that a survey has been completed which shows the area of the republic to be about one and a quarter million acres. Five million acres of this land is devoted to grain, and about one and three-quarter million acres is in wheat. The area is increasing from year to year.

Picked Up at Pender. PENDER, Neb., August 14.—[Special Correspondence of the Bee.]—Thursday we were informed that the Senator-elect under the name of "Col. Spleen's World's Fair and Congress of Living Wonders." The show was like all other circuses, and was accompanied by a gang of sharp-shooters who worked their little guano to fleece the verand. Pender among them were the sopsman and the "three-shots man." Grain is coming in fast, and soon time will be better and merchants flush. Corn is up to 23 cents.

Wahoo People Disappointed. WAHOO, Neb., August 14.—[Special Correspondence of the Bee.]—The Wahoo and surrounding country were greatly disappointed yesterday on account of not hearing Hon. C. H. Van Wyck, as they had expected. Senator Van Wyck was billed to speak here yesterday and at Ashland in the evening, and by some oversight the hour of speaking was published in error. Some senator sympathizers were to speak at p. m., and as he had had to leave at 3:30 p. m., in order to reach Ashland, he could not speak here. The teacher's institute closed to-day. The total enrollment was over 170 and the session has been the most successful and interesting ever held here. Some of the best entertainment is entitled to credit for the thorough instruction and the excellent class of entertainments furnished.

Wrath of the Cloud-Burst. READING, Pa., August 14.—[Reports coming from the country districts to-day show that last night's cloud-burst and storm was unprecedented. Many thousands of bushels of unripe fruit are lying on the grounds.
