EXONERATION by the city council is needless.

No one who knows Isaac S. Hascall would ever accuse him of keeping a disreputable house.

There are not so many loud calls for candidates to pledge themselves in opposition to Van Wyck as there were a few weeks ago.

A SYSTEM of cable roads in Omaha is inevitable. It will be built in spite of perplexing delays and legal obstacles.

PRESIDENT CLEVELAND proposes to equal Mr. Arthur's record as a fisherman. He landed a large trout from Adirondack waters yesterday.

In changing the ordinance fixing the salaries of the board of public works the pay of the members, except the chairman, has been doubled.

CHURCH HOWE is again signing the pledge. He has pledged himself and the Nemaha delegation to every candidate for office on the state ticket.

THE New York Sun, which shines for all but Grover Cleveland, is attacking the president for giving his assent to the oleomargarine bill.

THE secretary of war has set aside \$2,000 from the barracks and quarters fund for repairs at Fort Omaha and \$1,900 for immediate repairs at Fort Robinson.

RELIEF is quiet, but it is feared that it is the peace that comes of temporary exhaustion and not that which follows conquered hates and burned-out passions.

MR. CLEVELAND isn't reading newspapers at present. He is engaged in the much more enjoyable business of catching trout and entertaining his mother-in-law.

Democratic Measle. There was a great deal of democratic music in the air of several states on Wednesday, and it goes without saying that it was not all harmony.

Hits It on the Head. A local correspondent of the Bee, who adds the qualification of being a heavy shipper to that of being a man of brains, writes that the only solution of the railroad problem in Omaha's interests is the construction of lines from this city to the northwest and southwest.

The kind of improvements that improve are substantial buildings like those against them eastern drummers hold the field. A direct line up the Elkhorn valley from Omaha would take nearly every pound of freight from local shippers.

The English war department has succeeded in making a cannon which cost \$1,000,000 and uses \$1,000,000 of ammunition every time it is fired.

MR. CHARLES A. DANA, editor of the Sun, who is a strong opponent of the administration, predicts that Mr. Cleveland's chances for a renomination in 1888 will be even slimmer than they are in 1886.

MR. POWDERLY is outspoken in his denunciation of the anarchist element, and has declared that he will not tolerate their presence in the organization of which he is the head.

THE Chicago newspapers figure up a population of 763,817 from the school census just completed. They never let a St. Louis man have anything to do with this annual mathematical exploit.

THE opening proceedings of the Irish National League convention were of a character to gratify the friends of Ireland's cause everywhere. They showed

that the foremost men of the body have a proper sense of the significance and importance of the occasion.

A Hint to Cleveland. President Cleveland is preparing to go into the Adirondacks to hunt for rest and quiet. He should post a battery of galling guns at every possible point of approach.

Wait for the Facts. Cutting someone to have been guilty both of libel and contempt of court while a resident of Mexico and tacitly bound to obey its laws, he affords a very shabby case for a sermagand, and it is better to wait till all the facts are incontrovertibly known.

A Broken Sword. The shaman shambled from the doorway out into the hall and down the stairs. Snapped in the half 'twas scarcely dear. I doubt.

His fate to gain? Who was it dreamed his system-world should open? To this—in vain? Perchance with some stout Argonaut it sailed.

STATE AND TERRITORY. Nebraska Jottings. Allison has opened a new cooler. York's cannery is enjoying a strike of tinkers.

Wyoming. The railroad will be completed to Douglas this week. There is great scarcity of dwelling houses at Evanston.

Colorado. The rail mill of the Colorado Coal and Iron company at Pueblo will start up next month, on orders which will keep it busy for a year.

Idaho and Julia. Atlanta (Ga.) Constitution: Here is a story in a paragraph—a novel, a mystery, a romance, a tragedy, a comedy.

Sayings of Miss Cleveland. Here are a few specimens from Miss Cleveland's book: The analysis of theological pedantry. The subtle equities of this silent reciprocity.

St. Louis Had Nothing to Do With It. The Chicago newspapers figure up a population of 763,817 from the school census just completed.

Geromon as an Auxiliary. Geromon continues his depositions along the border without any interference on the

part of the United States. Unless Geromon is a monster of ingratitude he will be on our side in the event of a war with Mexico.
