The Ladlin-Rand Magazine. CHICAGO, August 29.—At 9:15 o'clock this morning, in the midst of a heavy thunder storm, the powder magazine belonging to the Ladlin-Rand powder company was struck by lightning. An explosion followed which destroyed property amounting to \$75,000 in the neighborhood of \$75,000 besides killing two persons almost instantly, and fatally injuring three, and contributing to the painful injuries of nearly twenty others.

LATER ACCOUNT OF THE EXPLOSION.

CHICAGO, August 29.—About 9:15 a flash, which all agreed was much brighter than those preceding it, was followed by a report that shook the greater part of Cook county. It was a sharp report, but strange to say by most of those who lived in the vicinity of the explosion, it was hardly distinguishable from the serious thunder-clap which little before had order of the morning. All agreed that there was a tremendous shaking of the earth.

THE DULLEST WEEK ON RECORD.

NEW YORK, August 29.—[Special Telegram to the Bee.]—There is little to say about the stock speculation of the week, when business steadily dwindles one day after another and trading is stagnant. There has not been a week in the year when business was so light. There was not a day when the total sales were so small as they were last week. Brokers do not know how to account for it, but admit there is nothing doing in the way of legitimate business. They have to make their money by trading in stocks and bonds, which they can do with ease and profit.

BELFAST, August 29.—[New York Herald Cable.—Special to the Bee.]—Two or three stores broken into last night, a drunken man beaten on the Shank Hill road for abusing the late Prince of Orange and several small boys arrested for a too enthusiastic clodding of the poles, form a full list of the leading incidents of what has been a very quiet Sunday. FIRE TRADE AND FREEDOM.

Molasses for Democrats and Vinegar for Republicans. NEW YORK, August 29.—A resolution of the American free traders has been published. It is addressed to the friends of freedom, and in substance says: In the ability of the large democratic majority in the national house of representatives to pass a bill for the relief of the sugar growers, and the heavy burden of taxation from the great industries and the refusal of the representatives of the republican party and their allies to even consider the abatement of tariff taxation in any degree, imperatively calls for aggressive and uncompromising political action by the friends of commercial freedom.

THUG HIRED FOR A GREAT CRIME

District "40" and the Home Club Desire to Rule and Ruin—What the Richmond Convention Will Develop.

Spoiling For a Fight.

PITTSBURG, Pa., August 29.—[Special Telegram to the Bee.]—The Leader has discovered there was a veritable attempt made some time since by a faction in the Knights of Labor to assassinate Grand Master Workman Powderly. The faction referred to is known as the Home club, and has its headquarters in New York city. A leader reporter was sent to New York city during the past week to work it up, with the result of confronting the story. It was on Wednesday, August 12, that delegates of a labor committee met in New York to inquire into the workings of the Home club. Ever since the date mentioned the investigation has been going on, but the evidence, even the names of the investigators, are kept from the knights. In a little room witnesses are admitted one at a time so that the evidence of each is

UNKNOWN TO THE OTHERS.

The investigation shows that in 1883 some radical members of the Home club hired a couple of New York thugs, who, acting under instructions, went to the Fulton street ferry and killed a man named Henry. That night was expected in Brooklyn to attend a special meeting, but something occurred which kept him back. Details of the plot are being kept very quiet, as a New York member said, with the intention of publishing the whole matter at the Richmond meeting.

ALICE MIGHTY CAREFUL.

Another member, high in the councils of the order, said: "I cannot say what Powderly's testimony is, but I understand it was an effort to get the order out of the country. Every effort is being made to keep the matter out of the newspapers, so as to prevent the order from being exposed. It is with information that will result in totally crushing out the Home club." Continuing to say: "The Home club is a power, which will be overthrown, but I fear the organization will split. District 49 now has 60,000 members in good standing. They claim to have a list of 100,000 members. The committee will seal its report and no one is to know its contents until it is read at Richmond."

and demand the expulsion of every member. A committee of the order has been appointed to lead the order, and it is understood that leaders will bolt the convention and walk out with 60,000 members to form, what will be claimed, a straight-out Knights of Labor organization. It is understood that the order will be bound to the order, and it is understood that the order will be bound to the order, and it is understood that the order will be bound to the order.

Perhaps there was no man more thoroughly competent to conduct the office, Secretary Manning, than the late Secretary McCulloch. He was a trained banker when he was first selected as comptroller of the treasury, and he organized that exceedingly important bureau with the greatest success. Throughout his administration, too, of the treasury portfolio he was remarkable for the coolness and success with which he conducted the office. Secretary McCulloch was followed by ex-Governor Boutwell, to whom more than any other man is due the success of the retarding scheme. Mr. Sherman has generally been accorded all the credit that attaches to that important financial movement, but it was owing to Mr. Boutwell's having the eye that Mr. Sherman was enabled to carry it out, and he did it, too, with nerve. Boutwell was followed by Richardson, who was sick of the portfolio almost as soon as he was appointed. The Sanborn contracts worried him greatly. It will be remembered that the Sanborn contracts were of an enormous amount, and that Mr. Sherman, who discovered that a great many parties had defrauded the government of large sums of money, had offered to make good the deficit, but that he probably would not have otherwise been made at all, and his fees amounted to such enormous sums that a congressional investigation was ordered, and Secretary Richardson was greatly worried in consequence. This created a great deal of scandal at the time, but the matter was not the first of the kind, and it is not the last. In fact, it is one of the number of letters which have been written by the secretary of the treasury each day no one would be surprised that that official should not know the contents of the letters which he has written. THEY'LL ALLOW NO GAMBLING

The Decision of the Iowa State Fair Managers and Public Opinion.

VERDICT IN THE HADDOCK CASE.

Orders to Resume Operations Received at Des Moines From Washington—A Miniature Volcano Breaks Loose—Iowa News.

From Iowa's State Capital.

DES MOINES, Ia., August 29.—[Special to the Bee.]—There has been quite a little comment over the fact that the managers of the state fair have refused to allow gambling. This means failure so far as the races are concerned. They say that owners of the best horses are accustomed, in addition to the purses they win, to make a good deal of money for themselves and their friends out of the pools that are sold. They are not allowed to sell pools. Des Moines they will take their horses and go to some wild city like Omaha or Minneapolis and give the Iowa fair the go-by. Possibly this is so, at the action of the fair directors may look a little different. But it is not generally understood that the Iowa state fair was organized primarily for the purpose of raising money for the enrichment of gamblers. It is not possible to have a good fair in an agricultural state like Iowa, with its magnificent resources of field and farm, without making pool selling the most attractive and important feature. It might be just as well to find it out this year. The people of Iowa enjoy seeing a good horse race or run as much as do the people of any other state. But they have become thoroughly disgusted with the professional jockeys and trainers who have been so successful in that they have attended so many races of the past. They think the reform proposed is a good one, at least they are going to give it a fair trial.

WORK TO BE RESUMED.

After several weeks of waiting, the superintendent of the new government building in the city has received orders to go on with the work of bearing down the old walls preparatory to the erection of the new one. It had been some years since congress passed the first appropriation for repairing and enlarging the building, and it has been some time since the work has been resumed.
