

BOUND FOR THE REUNION.

The Capital City Sends Large Delegations to the Grand Island Camp.

A RETIRED POLITICIAN OUT OF THE CASE, AGAIN REAPPEARS IN THE SENATORIAL CONTEST—Laird Visits the State Capital—Other Lincoln Notes.

The old days are to be revisited this day and the B. & M. is sending double trains to the reunion at Grand Island.

Yesterday the B. & M. depot was the liveliest scene witnessed in many days, and among the crowds that trooped up and down the long platforms a large percentage were dressed in blue with badges denoting that they were of the grand army of the republic.

Ex-Senator Tefft, of Cass county, who has become a congressional candidate, was at the state capital yesterday looking over the work that had been done by Howe and Weaver in previous days.

If you are suffering with weak or inflamed eyes, or granulated eyelids, you can be quickly cured by using Dr. J. H. McLean's Strengthening Eye Salve. 25 cents a box.

THE LOVE OF MAJOR CASS.

Sad Ending of a Life Romance Begun in Michigan.

An Unsuccessful Wooer of the Sister of Governor Mason—He United in Paris Only to be Severed by Death.

"I have a plot for a historical novel," said a friend to me the other day, and over a generous luncheon, writes Halston in the "Detroit Free Press," he recited a story in which we find a figure who is the only son of Lewis Cass, of national fame.

It was something like fifty years ago that Michigan came into the union a full-fledged state, with Stephen Mason for her first governor. His sister, already known as the "Michigan belle," was a popular woman in all the northwest.

It is well known that the inhabitants of many eastern nations shield themselves from malarial fevers by wearing Aromatic Gums on the pit of the stomach.

AN OCEAN TRICYCLE. Curious Life-Saving Machine—A Sea Wagon Twenty-Seven Feet High.

An ocean tricycle, twenty-seven feet high, is in course of building in Camden, and will be completed so that the inventor may test it in the surf at Ocean City within two weeks.

The machine may be run by two men easily, and yet is so strong and so constructed that it can be used in rough water without injury and without even wetting the men who may ride upon it.

Yesterday the special coaches of Mr. Perkins and General Manager Holdrege were side-tracked at this point, and General Superintendent Calvert and B. & M. Attorney T. M. Marquette were holding a business meeting with the first mentioned officials.

Yesterday some fifteen of the members of the Plattsmouth Sportsman's club passed through Lincoln en route to Cass county, after the testive chicken. This is one of the long established and most enthusiastic gun clubs in the state, and no year passes by without numerous excursions of this kind with General Livingston at the head.

AT THE STATE HOUSE. Yesterday the absence of several of the officials who had departed to the reunion was noticeable.

THE NEW NOTARIES. Appointed by the governor the past week number the following list distributed over the state.

MATTERS ABOUT TOWN. The fairer men are coming to town, as well as large delegations of sneak thieves, thugs and gamblers.

"Hash is higher," remarked a regular boarder at one of the upper restaurants, and he produced a slip of paper which proved to be a published agreement between restaurant men to advance the price of meal tickets fifty cents a week all around.

The city council at its last meeting was confronted by the hackmen of the city, who desired the ordinance rescinded that fixed the charges by hacks at fair times.

AT THE ONLY Misfit Clothing Parlors

IIIIG Farnam Street, Omaha, Nebraska. IIIIG

adverse fortunes fell upon her—the love that still was the same love, devoted, earnest, and ever-enduring. But yet again she said him nay; after giving the strength and fullness and the rest of her life to others, it were not meet, she argued him, to render now husks when the kernels were spent elsewhere.

It is well known that the inhabitants of many eastern nations shield themselves from malarial fevers by wearing Aromatic Gums on the pit of the stomach.

The Stoman Stock. At noon yesterday the new bids for the Stoman stock were opened at the office of the United States clerk.

A Burglary. A burglar entered the boarding house of Mrs. Cully, 2010 Webster street, about dawn yesterday morning, and was busily engaged in rummaging the house, when the landlord awakened and frightened him awake.

Her Majesty's Favorite Cosmetic Glycerine Soap. It is the best of all soaps for the face, and the only one that does not dry the skin.

Apollinaris. "Fifty streets may be had and defective drainage and sewerage works, but for the promotion of diseases the diarrhoeal type there is no agent like the polluted water supply."

Elm City Military Institute. Preparatory for college or for business. For terms, apply to WILLIAM H. STORR, President, 178 Central St., New Haven, Conn.

WRECK AT THE BLUFFS. U. P. Engine 574 Meets With One of the Fatalities of the Rail. Yesterday morning when day broke, the Union Pacific yard men in Council Bluffs found engine 574 lying on her back in the ditch at the junction near the freight depot.

There now remains but a small part of Sherman which is not finished by the pavers, and that distance will be covered by next Friday.
