Sold by Cooper & McGee. Register to day before it is too late. Every voter has to appear in person to

register or he loses his vote. Fires were lighted yesterday in a good many stores that had not been heated up from the inside since last spring.

It is stated that the Salvation army is to make a raid on this city, and will arrive here to morrow or Sunday. Nearly all the railroads will run "specials" to this city to day, as Barnum, "the great and only," will be here.

J. T. Hurley will represent this city in the Switchmen's Mutual Aid association, which meets in Kansas City next Monday. Dunlap has had a new steam boiler placed in the city school house, and the Reporter now assures the public that the

building can be properly heated. Barnum showed yesterday at Atlantic. The show came from Des Moines in five trains, each being composed of twenty cars. The same appears here to-day.

this city hold a meeting in the city council chamber on Bryant street to make ar-rangements to attend the old settlers' reunion at Macedonia on Tuesday next. Burglars broke into the Catholic church

at Dunlap, but the sacreligious thieves did not secure any booty for their pains. They then broke into the priest's residence, and took a trunk out of doors which they rifled. edge Connor will return to Council

Bluffs and hold an adjourned term of court for one day, to-morrow, for the purpose of clearing the record and set-ting of all cases. It will be the last term under the old law.

So far the registration has been very light indeed. From the figures presented t looks as if many voters are not aware that it is necessary for them to register to be able to vote. All are compelled to register in person or lose their vote.

Clark can't help it, but he lets his philanthropical tendencies get away with him sometimes. He wants the police to run out the crooks, but when they run in one of the worst kind of crooks, a thief and a thug, Clark wants to know by what right he is held. The firm of Smith and Lacroke have

dissolved, Laercke retiring. Smith pays him \$3,000 for his interest in the busi-ness of the Union bakery. Laercke agrees not to engage in the baking business for himself nor anyone else in this city for five years. The boys' work is an important factor in the Y. M. C. A. of this city and every effort will be made to have the boys' de-

partment more attractive than ever before. Each boy is expected to wear his slippers when exercising in the gymnasium. Parents of the boys will be welcomed at any time.

Next week the Friday night boys, meeting of the Y. M. C. A. will begin and each boy who holds a ticket is requested to be present. Those who have lost their tickets or new boys should call and see the secretary before that time, when arrangements will be made to have them admitted.

A thief at West Side, broke into the house of a Mr. Grote, and dressed up in Mr. Grote's good clothes, leaving his old ones in their place. He neglected to leave Mr. Grote's watch and pocketbook when he traded clothes. Mr. Grote shot at him twice, but he escaped. The M. E. church at Dunlap was not

sufficiently lighted to suit many of those who attended there, so last week a hand some new lamp was hung near the pulpit to which was a card endorsed: "This lamp was donated by thirty-eight sinners who attend the church and ask for more light. Respectfully, Sinners." And now the parson invites them to come and receive the light needed.

John Davis, who has been working for D. Gray, the harness man, was arrested for trying to jump a board bill. Mr. Gray gave him the money to settle the bill, but Davis applied it to other purposes. When the marshal went to arrest him he declined to go along without a warrant. The marshal did not stop to argue the case with him, but took him along and had him locked up. He vows vengeance.

Council Meeting.

Last evening the common council met; all the aldermen present; Mayor Evans in the chair. Quite a number of petitions were presented and referred to appropriate committees. Among these was one from the residents of Glen avenue, asking that a sewer be put in on that street preparatory to paving. The council settled up several old paving and grading contracts, on which small balance was due from the city. Several bids were put in by different parties who wanted to turn an honest penny by doing grading for the city on several streets and alleys, for which the city had advertised for bids. These bids were referred to the city engineer, with instructions to select the lowest bids and have the contracts drawn up.

An ordinance was introduced and passed fixing a penalty of not less than 5 nor more than \$100 for worrying, burt ing or killing rabbits, squirrels or birds in any of the public parks or streets of

Mr. Bixby presented a bill for \$30 for putting in the sewer from the jail to the street. The bill was allowed and ordered paid. Mr. Bixby complained that he was not allowed by the water works company to put in any service pipe from mains to the sidewalks, and requested the council to take action which would prevent any discrimination. The motion was referred.

Coming to Astonish Every One. The immense show that P. T. Barnum organized and presented last year was

considered too large by every one who saw it. What will they say this year, when to that big show has been added \$500,000 worth of new features? No one can comprehend the magnitude of these shows by reading about them; they must see for themselves. And these are a few of the features that will bewilder, astonish and delight children, adults, scientists, sages, parents, guardians-in fact, every beholder: Three rings, with, three full circus companies; a Roman hippodrome, with soul-stirring races; performances of a startling character on a big, elevated stage, living curiosities and wonders in the museum, hundreds of wild and strange animals in the two double menageries, a herd of big elephants in the pavilion, droves of camels, 500 horses, 125 ponies, 80 railroad cars, 300 performers, 100 acts, congress of giants repre-senting all countries, the reproduction of Jumbo, the huge ivery-boned elephant skeleton; Alice, Jumbo's widow; the troupe of Arabs, Miramba band, clown elephant, trained pigs, monkeys, ele-phants and other animals, the biggest tents ever seen, and myriads of other rare and costly objects, the whole representing \$4,000,000, and with an expense daily of \$7,000. All of which will be here to-day, with the great \$1,500,000 parade in the morning at 8 o'clock. As the whole shows visit Europe in the fair, this is pos-

Young Men's Reading Club.

Reading has become an art, and in this great country with its thousands of different publications, it requires considerable skill to be able to know what to read and what to omit. To aid in developing a desire for proper reading and research the Y. M. C. A. have formed a band who meet once a week to review the current literature of the week. Three meetings have been held and the reports presented have been exceedingly satisfactory. The aim is not to read too much but to give proper attention to some part of each paper. One week before the review each man is assigned a paper found on the tables of the reading room. He is to center his attention upon what he regards as the very best production in the paper and after giving thorough study to the article is expected to report to the band. After a report has been made each person present is at liberty to ask any question, make any suggestion or offer any criticism to what has been The criticisms are likely to inspire short debates and develop independent thought. All young men interested in education will find these occasions inter-esting and profitable. The meetings are held on Tuesday evenings at 8 o'clock.

In spite of the threatening clouds and vivid lightning there was a goodly company of knights and ladies fair at the ball given at Temple hall Wednesday evening. The New York Plumbing Co. have shown enterprise in securing the plumbing contract for a house in Omaha. They are at present engaged in doing some of their excellent work in the house to be occupied by Mr. W. H. Burns, and also the fine residence being erected by Judge James on his lawn.

This company, recognizing the desire of Council Bluffs people for modern improvements, are prepared to furnish domestic electrical appliances, and have already put bills and gas lighting fix-tures in several residences.

The Law on the Subject. Everybody knows that it is dangerous to make a practice of jumping onto and off of a moving engine or train, but a great many boys do it just for fun, and some who are not boys are not deterred by the fear of accident. But a great

many do not know that there is a state

aw against it. Chapter 148, laws of 1876, reads: SEC. 2. Any person not employed thereon, who shall get upon cling to, or otherwise attach himself to any engine or car, for the purpose of riding on the same, intending to jump therefrom when such engine or car is in motion, shall be fined \$100, or imprisoned not exceeding thirty days.

The Industrial school, under the auspices of the Woman's Christian associa-tion, will reopen Saturday afternoon at 3 o'clock, Sept. 18, in the rooms over DeVol's store, entrance on Broadway. Any ladies of the city, whether members of the association or not, who are willing to assist in the work of teaching classes afternately with others, are in-Vited to meet at the rooms on that day.

C. H. Blakesice, of No. 1410 Campbell street, Omaha, who recently lost a beautiful and interesting daughter, and about 15 years, by diphtheria, under the treatment of one of the best physicians in Omaha, writes to Dr. Jefferis, of this city: "Your remedy for diphtheria came too late, our dear daughter was dying when it was received. I am satisfied that her life could have been saved. Another one of our children who had the diphtheria, her, throat was niled up with the putrid ulceration, we used your medicine and in twelve hours the disease was completely subdued. In the future we will keep your medicine at and times in our house. We feel that it saved the life of one of our children. We are very thankful to you, and only regret that we did not call on you sooner." From the Council Bluffs Dally Herald:

Mrs. E. M. Gerard, wife of Engineer Gerard, of the Union Pacific, this city, has been a great sufferer for many years, with what was supposed to be cancer of the throat. It was so bad that she was threatened with starvation. Her general health was completely broken down. She could only wasflow liquid food, and even

posed to be cancer of the throat. It was so bad that she was threatened with starvation. Her general health was completely broken down. She could only swallow liquid food, and even that her stomach could not digest or assimilate. Physicians of Council Bluffs and Omaha attended her for three years and gave no relief. Dr. Jefferis, of this city, was called. In four weeks' time he cured her throat, and completely restored her general health. Had Mrs. Gerard not obtained relief soon she would have died from blood poison, the same condition that destroyed the life of Gen. Grant.

From the Council Bluffs Daily Globe:

M. A. McPike, editor of the Cambria (Ebens burg. Pa.) Freeman, has been the personal friend of the editor of the Globe for more than twenty years, and is known wherever he is known as one of the best men living. He is also an intimate friend of Mr. Clark of the Nonpareil. He has been unfortunate in the fact that his family was ravaged with diphtheria, and greatly distressed. Mr. Clark having heard of his calamity sent him some of Dr. Jefferis' Diphtheria Cure, it was used at once, and the lives of the rest of his children saved. Letters from Mr. McPike are unbounded in their expressions of gratitude for fluding some means of averting the loss of his whole group of little and tender ones. Five of Mr. McPike's children out of eight died from diphtheria before he had an opportunity of using Dr. Jefferis' remedy.

Dyspeptic, why live in misery and die in dis-

ARCADIAN

"The Ideal Waukesha Water."

Bottled direct at the spring, has been found invaluable in the treatment of diseases of Kidneys and bladder, such as Bright's Disease, Albumiuuria Diabetes, Inflamation of the Bladder, etc. The medical profession with great unanimity for many ears past has been prescribing Wankesha water for such ailments, and ARCADIAN as the most perfect examples of these waters is rapidly monopolizing the patronage of the experienced physicians and of intelligent invalids. Diluting and neutralizing the urine, allaying inflamation, freeing the urinary passages of effete matter and acting as a natural solvent. The Arcadian is the best of medicinal agents in diseases of the stomach and alimentary canal, such as dyspepsia, bilious fever, catarrh of the stomach, jaundice, malaria, nervous debility and kin-
