

THE DAILY BEE. PUBLISHED EVERY MORNING. TERMS OF SUBSCRIPTION: Daily Morning Edition, including Sunday Bee, One Year, \$10.00.

The Convention's Work. The republicans of Douglas county are to be congratulated upon the work of their convention. Considering the magnitude of the issues involved and the conflicting elements engaged, the harmony and good feeling that prevailed throughout were exceptional in the history of conventions that nominate legislative tickets in a senatorial and congressional campaign.

years, during which no eviction should be legal except for non-payment of the decreed rent. In further dealing with the famous "three F's" demanded by the Irish-fair rent, the commission were empowered to lay for the tenants on favorable terms any land occupied by them.

entirely non-political matters in which the president chooses to put a strict construction upon his powers, and as he has no lawful authority to extend government aid he withholds it. He pleased to take the view that notwithstanding the severity of the exigency, and although the whole people would undoubtedly approve of any course for the relief of the distress and privations of the sufferers he might adopt, still in the absence of well-defined authority to help them he can do nothing.

about making up among private consumers. This is a "long and short" of prohibition. Prohibitionists denounce him as a league with the devil, but when they get a chance to operate their own system they give the liquor traffic a big boom, only in a little different direction. By parity of reasoning, isn't prohibition a "league with the devil," too?

New York's Capital City. Albany's Great Bi-Centennial Week and How It Was Celebrated. Historic Incidents Which Have Been Enacted Near Its Confines—Bloody Tragedies and Tales of Indian Outrages.

Sworn Statement of Circulation. State of Nebraska, I, a. County of Douglas, I, a. Geo. B. Tschuck, secretary of the Bee Publishing Company, do hereby swear that the actual circulation of the Daily Bee for the week ending Sept. 10th, 1886, was as follows:

For the first time in ten years the candidates stand on a platform expressing the views of the party on the living issues of the hour—the temperance, the labor and the railroad questions. For the first time in the history of Nebraska Douglas county has endorsed a senator not a resident of the county.

Nervousness of Americans. Among the most valuable papers read at the session of the Social Science Association, held at Saratoga recently, was one by Dr. Peckham, of New York, on the nervousness of Americans. This affliction, the lecturer said, is more and more regarded as an undesirable characteristic of our nation.

Let Bygones be Bygones. Chicago News. If Gerolamo's life is left in the hands of a commission composed of army officers Gerolamo will soon be a very interesting bygone.

Great Leveler. The vote in Winchester, Va., on the liquor license question, divided both democrats and republicans, whites and blacks. The vote is a great leveler—in more ways than one.

Some Are Inconvenient. Cincinnati Commercial. Brass is a small man with a terrible lunge, and he has himself picked up a few enemies, some of whom are inconvenient.

Contents of the Sunday Bee. Page 1. New York Herald Cable Specials to the Bee—General and Special Telegraphic News. Page 2. Telegraph, City News and State Political Notes—Advertisements. Page 3. Markets and Special Advertisements.

Senator Van Wyck Endorsed. Senator Van Wyck has every reason to be satisfied with the flattering compliment bestowed upon him in the metropolitan press of New York. By a practically unanimous vote the following resolution was incorporated in the platform of the republicans of Douglas county.

Church Howe's Waterloo. With Douglas, Lancaster, Cass, Sarpy and Richardson solid against him Mr. Church Howe has at last struck the fatal snag that will send him to the bottom of the political sea. He has claimed everything and the luster shouting from the democratic and subsidized republican press created the impression in some quarters that he was invincible.

Live and Let Be. The Alpine heaven is bright; Tired cloudlets sleep along your azure sea. Soft airs steal by and whisper, faint and light, Live and let be!

Another Man With an. John H. Reagan, of Texas, is another man who wins favor with the people because he stands for something. While many of the Texas representatives have had great difficulty in securing re-nominations, and in several instances have failed miserably, Mr. Reagan finds himself in the field by acclamation.

Probable Contest Between Dr. O'Reilly and Bishop Burgess. DETROIT, Mich., Sept. 18.—(Special Telegram to the Bee.)—It is stated that if Reverend Dr. O'Reilly does not resign the trusteeship of the Irish National League by to-night the probability is he will be summoned by his bishop, the Right Reverend John A. Burgess, to resign, to which he refuses to comply with the order promulgated by the Sandwich synod last month.

It was another cold day for Church Howe. The overwhelming success of the Howe and anti-Van Wyck forces was not visible to the naked eye. Mr. Boyd and Pat Ford carried the Third ward for Church Howe, but the Third ward isn't Douglas county.

It was a field day for Van Wyck all around. Douglas, Cass, Sarpy and other counties swung into line with York and Saline. DOUGLAS COUNTY will present her candidate for congress to the Beatrice convention. His other name will not be Church Howe.

It is not so much influence in climate as is generally supposed. All kinds of climate prevail in the United States, yet common national peculiarities are common everywhere. The dryness of the air and the electrical conditions are said to be the distinctive characteristics of our atmosphere. The relation of these to the nerves has not been proven.

heads of a bunch of arrows were lying by the redoubt, and the water with a portion of the earth upon which it contained the water with which the spirit had refreshed itself on its journey to the hunting grounds. This skeleton was for many days a hindrance, and excited wide spread interest.
