Mittman's Story.

Yesterday morning's BEE contained telegraphic reference to the shooting of Durham at Millard Wednesday night. Yesterday morning Dep-Sheriff Grebe went the scene, and taking C. Mittman, the man who did the shooting, into custody, brought him to this city and had him locked up in the county jail. He was there seen by a BEE reporter yesterday.

Mittman, is a large, heavy German, with a mild round set of features, trimmed with moustache and goatee. He made no trouble in giving his version of the story, which is plausible and evidently worthy of credence, because he bears upon one of his eyes a fearful proof of having been beaten in the affray.

"I keep a saloon at Millard." he said
"where I have resided for about thirteen
months. I used formerly to live in
Omaha. Last night about five Omaha. Last night about five o'clock Durham and Cole came into my place. They wanted me to give them a drink. Now Durham had been to my place several times and I had given him credit, but I had not got paid, and I made up my mind not to give him nor any of his friends anything on credit. Because, why should I do it? You trust a railread laborer and there is nobody to pay for him if he skips away, because the con-tractors say they will not be responsible for any debts run by laborers. So I told Lim that I only spoke once, and that I had told him before he could not get drink without money.
"Last week I went to Omaha and before

"Last week I went to Omaha and before going I told my daughter not to give Durham nor any other person drink without paying for it. While I was gone Durham and Cole went to my saloon, asked for drink, and my daughter, who was seventeen years of age, told them what I had told her, and refused to give them liquor. They then said they would help themselves and were going behind the bar when my wife interfered and they went away."

"Now, last night, they came around again, after what they had done before, and again annoyed me about drinks,

again, after what they had done betore, and again annoyed me about drinks, which I always refused. They became angry, and Durham finally asked me for 25 cents to pay his way to Papillion, because both he and Cole are working on the B. & M. grade right near this place. I told him I would not give him the twenty-five cents, and both of them became augry. My daughter screamed and urged me to go into the back room because she says she heard back room because she says she heard them say they would kill me. I was leaning on the end of the counter at the time, my back being toward the end of the bar. Cole got behind me, put his arms around my neck and pulled me down on the floor and then Durnam stamped me in my eye, as you see, with the heel of his boot. struggled upward and was pushed out I struggled unward and was pushed out into the dining room, when Durham attempted to get behind the bar to seize a bottle of whisky. My wife headed him off and he struck her a powerful blow on the forehead, and she has a big lump there now. I was now struggling with Cole, and forced myself out and caught hold of a sodawater box, filled with bottles, which hold on to and miled myself un which I held on to and pulled myself up behind the bar and grasped my revolver. Durham then came at me with a knife and both of them forced me in the corner, and in raising my hand to ward off his knife blows, the revolver went off and shot him through the throat. I was in a dangerous corner and the next instant I felt that Duram's knife would have killed me."

Excursionists into Nebraska-Other

It has been many a day since Omaha has witnessed such an influx of homeseekers sound for western Nebraska as occourred yesterday morning. The occasion was the harvest excursion, at reduced rates, for the benefit of those who want to locate in the west. The Rock Island and Northwestern trains together brought in about eight hundred people, while the "Q" brought in several hundred more who were taken west on the B.& M. from Oreapolis in a train of twenty-one cars. The Rock Island and Northwestern passengers were transferred to the Union Pacific overland No. 3, which was held one hour and a half waiting for the Northwestern train. This train had been unavoidably delayed in Iowa. Most of these passengers were bound thought over fifty and in the prime of for points in interior and western Ne-braska, and the majority of them will doubtless locate in the state. Another "harvest excursion" will occur before the

Her Injuries Proved Fatal.

The BEE of yesterday morning contained an account of the frightful accident at 2320 Harney street Wednesday night, in which Mrs. Alice Titcomb was so badly burned by the upsetting of a lamp. The unfortunate women died from the effects of her injuries yesterday

morning.

MR. BURDICK'S ACCOUNT.

Among the witnesses to the sad affair were Edward Taylor, a brother of Mrs. were Edward Taylor, a brother of Mrs. Titeombs' and J. E. Burdick, a draughtsman for Henry Voss, the architect. These gentlemen were visiting with Mrs. Titeomb Wednesday evening, and in trying to extinguish the flames in the ladies' clothing, and their hands badly burned. Both of them will be laid up for several weeks. Mr. Taylor, the brother of the unfortunate victim, is completely prostiated. nate victim, is completely prostrated, partly from the shock caused by the ter-rible death of his sister, and partly from the injuries received, which were of a more painful character than those re-ceived by Mr. Burdick.

The latter was seen yesterday in his room in Creighton block, and gave the following version of the affair:

"Last evening," he said, "Mr. Taylor went up to call on his sister, Mrs. Titcomb, and I accompanied him We spent the evening in pleasant conversation. About 10 o'clock we got up to go and were about to have when the dresser on were about to leave when the dresser on which the lamp was setting was saddenly moved to one side. The lamp was thrown to the floor, exploding instantly. In a moment the room seemed to be filled with a mass of flame. We started to extinguish it by stamping it out and nearly had the fire under control, when Mrs. Titcomb knelt down and commenced to smother the flames with her dress, which was, made of light, inflammable material. In a moment she was all afire. I turned about, saw her condition, and realized that her condition was a perilous one. Before I could find anything to wrap her in, she ran out into the hall, and with one bound jumped down stairs into her brother's arms, on the first floor. He did his best to tear the blazing clothing from her, and I assisted him. I tore off my coat, which was made of light material, and threw it around her, but that had little or no effect. Mrs. Titcomb ran out into the yard, and there we succeeded in tearing off more of the biazing clothing. Sle rushed into the street, where the gradors had been at work and commenced to roll over in the dirt. By this time, the flames were almost out, and were finally extinguished by means of a blanket which someone brought. Mrs. Titcomb was then taken into the house and placed in the doctor's care. She was conscious at first, and we had strong hopes that she would recover. Toward the last, how-ever, she became unconscious."

Some idea of the unfortunate lady's in-juries can be gained when it is stated that her whole body was so badly burned from the ankles up to her shoulders. that the doctor could not insert a hypotermic needle under the skin for the purpose of injecting morphine to ease the pain, because he could not find a single spot that was not charred to a

A Democratic Bull. Immediately after the democratic convention Wednesday there was a meeting of the county central committee held. There was not a full attendance. Some of the members who had been at the convention, and had seen the cut-anddried style in which the packing-house star-chamber business was carried out, refused to attend. There was a quorum present, however, and among other things done was to call the primaries for the county convention, on the 8th, and the convention on the 9th. It was later discovered that as the state convention would be held on the 7th, many of those in attendance upon it would not be able to work at the primaries on the following day. Yesterday morning, Chairman Me-Shane called a special meeting of the committee, to be held at his office yesterday afternoon at 2 o'clock, when the date of the primaries was changed to the and that of the convention to the 12th,

A Serious Accident. The friends of James Lee, brother of Dr. E. W. Lee, of this city, will regret to learn that he recently met with an accident on an Ogallala ranch, which all but proved fatal. He was engaged in roping a steer, when his horse, a fiery, halfbroken steed, reared and fell. Unfortunately Lee fell directly under the horse, and waile no bones were broken he re ecived internal injuries of a complicated nature, concussion of the brain and spine. For a time his life was despaired of, but he rallied and is now on the high road to recovery. Dr. Rebert went out to Ogallala and accompanied the unfortunate to his home in Randolph, N. Y. Mrs. Whittemore's Wounds Considered Fatal-Children Weeping at Their Mother's Bedside.

Denver Tribune, Sept. 21: A shocking affair occurred at Whittemore's ranch about two miles out on the Golden road last night. Mr. Herbert R, Whittemore shot his wife twice thinking that she was g burglar. One ball entered the left side of the neck, and the other the right shoulder, coming out below the right shoulder blade.

The story as told in Mr. Whittemore' own words to the reporter is as follows
