Gunning for Republicans.

WASHINGTON, Oct. 3.—(Special Telegram to the Bee.)—Secretary's office is being inaugurated in departments until remaining republican clerks no longer enjoy life. They must either accept official degradation, or the latest in the proposed adoption by the civil service commission of rule which will give the head of a bureau, or department, power to demand an examination of any of their clerks, who were not appointed through the commission. This unlimited power, the clerks claim, will result in a gradual cleaning out of all persons having republican influence, who were appointed before the civil service laws were recognized. It is claimed by the commission on the other hand that many utility inespicient people hold positions in the departments within high grades, who were given their appointments as a direct reward for political services. These people, under the new rule will be obliged to stand an examination to test their merits. It is but just, the commission thinks, to many, who have had to pass rigorous examination before appointment, that this course should be taken. This is no reason, it is asserted, why the favorite of a political party should be retained in a position he is unfit for, while many competent people are anxious to obtain it, but are willing to go through trial before getting office.

ESTABLISHED EMPLOYEE TAKE.

Very much to be desired here for several days, according to James W. White, foreman of the bindery in the government printing office, and involving the removal of the bindery from the old building at Capitol Taylor and a number of congressmen, but it is generally believed that investigation will indicate that the bindery employees were dismissed from the government printing office, named Scott, has preferred charges against the government. WILL STRIKE AGAIN.

There is a rumor current in social circles here, in a rumor that Miss Rose Elizabeth Cleveland, who is expected to visit here for the present, and intends to pay her brother a long visit this winter.

WILL STRIKE AGAIN.

There is no use in trying to disguise the truth; Governor Hill will contest New York for the nomination that is inevitable. Colonel Tom Coady, a Tammany democrat, who has been in the city for some time, will be a division of the delegation in convention unless the unit rule is applied. In that event the name of New York will go for Governor Hill.

"Undoubtedly," replied Colonel Coady.

"Undoubtedly," replied Colonel Coady, "the personal characters of the two men. There is as much difference between them as there is between day and night. This difference is not in their personal characters, but in their political principles. Governor Hill carries a personal obligation into official life and will not remain in office until he has satisfied it. Governor Cleveland has no such obligation, and he will not remain in office until he has satisfied it."

MOUNTAINS OF COPPER.

Canada Strikes a Big Mine Bonanza and is Happy. OTTAWA, Oct. 3.—(Special Telegram to the Bee.)—Canada has just hit upon a "bonanza" in the way of a copper mine. The Canadian-American Copper company has hit upon one of the most valuable copper-bearing areas, it is said, in the world, at Sudbury Junction, on the Canadian Pacific. It is remarkable because the ore is so near the surface as to form what is practically little copper mountains, rising to a height of over one hundred feet above the prevailing level. The mine is situated on a hillside of nearly eight miles. The Canadian Pacific railway has constructed a siding from the Algonquin line, and within the last few days has been carrying out an aggregate of some 200,000 tons of ore, have been sent to New York. Montreal capitalists are now visiting the mine, and it is the largest area in the world and with the highest percentage of pure copper that has ever been discovered. The mine is owned by Ohio capitalists, who have 130 men working out 50 tons of ore daily, and the company is employing 300 horses for the mine, which will be added to the present force when the drifts are completely removed.

Alliance Work Checked.

CONSTANTINOPLE, Oct. 3.—(New York Herald Cable Special to the Bee.)—The proposed Franco-Russian alliance, at the court of the sultan, for the dismemberment of England, has been checked seriously by the sultan's refusal to accept the British cabinet. The sultan, within the last few days, has shown a more friendly disposition toward England, and it is believed that the same golden arguments will only Turkish irritation will respect to Egypt as that which Russia does for the purpose of creating irritation, and a general standing between England and Turkey could only be arranged. The sultan is now fully set in the danger lurking under the mask of Russian "wildness."

PREPARATIONS FOR WAR.

The defenses of Erzerum are receiving the greatest attention, and new earthworks are being rapidly constructed. A large number of Krupp guns, imported from Constantinople with a great quantity of ammunition, were shipped of two days ago for transport by the Transcaucasian route. Orders have been issued for the creation of a large body of Kurdish cavalry to be properly trained as regular troops. Very gloomy views are taken here in respect to the future of the alliance.

A DUTY-FUL VISIT.

St. John Simmonds, the governor of Malta, is here on a visit. He had the pleasure of conversing with him yesterday. He considers it impossible for the present crisis to pass away without a war. He is an old Turkish war and colonial administrator, and was a pasha in the hands of the people in the form of the national bank issues. The national bank is now in a state of liquidation, and a bank is being formed to take the place of the old one. The new bank is being formed to take the place of the old one.

TOWARDS THE ORIENT.

More About the Contemplated Westward Movement of Packers. CHICAGO, Oct. 3.—(Special Telegram to the Bee.)—A member of the packing house firm of Robert Warren & Co., being interviewed regarding the condition of affairs among packers, says: "It is a matter of time when other similar firms must follow the example of Shields & Nell, who have moved to Nebraska to escape the imposition of paying ten hours' wages for eight hours' work. The present order of things cannot exist long. We get not for the cut-throat competition between Swift, Armour and Nelson Morris as to who should control the best business, either of them being too timid to take a stand on general business, we would have met the move made by the men and repelled it. We will have to return to the old system, and that soon, or move either to Omaha or Kansas. The former is making great efforts to have Chicago stock interests moved there."

Seed Merchants Fail.

CHICAGO, Oct. 3.—The firm of J. W. Sykes & Co., seed merchants of Michigan avenue, made a voluntary assignment yesterday with assets of \$100,000. The firm was a partnership of J. W.
