

IMPROVEMENT IN TRADING.

The Decline on Chicago 'Change Relieved by a Day of Activity.

WHEAT STRONG AND HIGHER.

Corn and Provisions Also Advance in Price, But Everything Closes Easier—The Cattle Market Slow—Quotations.

CHICAGO PRODUCE MARKET.

Chicago, Oct. 13.—(Special Telegram to the Bee.) The open board this morning was very uninteresting, November wheat opening and closing at 74 1/2c. But between that time and the opening of the regular board reports of a decrease in wheat on passage came in and firming up the market. There was also an improved tone to cables. November opened at 80 1/2c, but within an hour had fallen to 80 1/4c. The improved cables spoke of brought in a good many buying orders. The French were reported buying a good many cargoes of the coast and were also fast buyers of futures here. These cables were sufficient to bring the market up to 75 1/2c, but it soon eased back to 75 1/4c. Corn sold up to 30 1/2c and back to 30 1/4c. The feeling as regards the wheat situation was just a little nervous and active. One thing that tended to encourage this view was the smallest fractional decline in consols for account. This market was not so strong as the stronger in their position than they would otherwise have been. These things were the talk when wheat was sold at 75 1/4c. A little later, when not so much of this kind of talk was in circulation, there was a reaction to 75 1/2c. On this decline, Carter was a good buyer. He said to be doing a particularly active business. It was claimed that yesterday's takings were twenty-two and a half million bushels. This was very strengthening in its effect and bulled November wheat to 75 1/2c, but when the winter wheat movement was unmentioned there was a reaction to 75 1/4c. The market stood at this point half an hour before the close. Late cables showed a decline in wheat on passage to 34 1/2c. The high point in corn was not maintained, owing to the declining tendency in wheat. The market for corn was very steady, but was subject to only a very moderate trade. Flour—Patents, \$4.10-4.25; bakers', \$3.10-3.25. Receipts—Wheat, 145,000 bu.; flour, 27,000 bu. Shipments—Wheat, 30,000 bu.; flour, 27,000 bu. Market—Wheat, 74 1/2c; flour, 27,000 bu. Market—Wheat, 74 1/2c; flour, 27,000 bu.

CHICAGO LIVE STOCK.

Chicago, Oct. 13.—(Special Telegram to the Bee.)—Cattle—The offerings were a very few desirable cattle which sold at steady prices, but the general market was very slow and averaged not quite so good as yesterday. Common fair kinds especially were harder to sell, if possible, than they have been, though there seemed to be no notable change in the market. A few very good 1,200 lb. cattle for which \$3.20 was bid, but there was nothing here to compare in quality with the cattle sold last week at \$3.00. The market thus far this week has been about steady for good stock, with almost no demand for inferior stock. Shipping steers, 1,500 to 1,700 lbs., \$4.80-5.20; cows, 1,200 to 1,400 lbs., \$4.00-4.50; calves, 500 to 700 lbs., \$3.50-4.00. In range cattle only about 1,500 through Texas arrived to-day, including some 800 to dressed beef men. There were nearly as many wintered Texas and territory cattle. The market for very good cattle was fairly active and in some cases stronger, while the common kinds, especially the wintered Texas and territory, declined. Sales: 100 Montana, 1,200 lbs., \$4.00; 10 Dakota, 1,200 lbs., \$3.80; 200 Nebraska, 1,200 lbs., \$3.60; 100 Wyoming, 1,200 lbs., \$3.40; 100 Colorado, 1,200 lbs., \$3.20; 100 Iowa, 1,200 lbs., \$3.00. Hogs—The market was active and prices about the same as yesterday. At one time during the forenoon the market was upturn, but at the close the advance was not obtainable. As has been the case since Monday, city butchers and eastern shippers were the only buyers, all the leading commission establishments being yet out of the market on account of the lockout. Hence, as heretofore, John P. O'Connell, the city packer, is the only buyer for the ordinary run of packers. Shippers and city butchers paid \$4.10-4.20 for ordinary receipts, \$4.20-4.30 for fancy heavy and strictly Philadelphia. Light sorts sold at \$3.80-4.00; Yorkers, \$4.10-4.30.

FINANCIAL.

New York, Oct. 13.—Money—On call, active at 1/2 per cent, closing at 1 per cent. Sterling—Exchange—Weak and unsettled. Actual rates, 12 1/2 for sixty days bills; 14 1/2 for demand. Government bonds were dull but steady. Stocks—The temper of stock speculation underwent a sudden change to-day, and instead of the hesitancy and caution lately displayed, there was a rush to the stock market. The entire list participated in the upward movement, which, however, was subject to frequent reactions. The advance in the last hour was heavier than at any previous time during the day. The great feature of to-day's market was the steady advance in the last hour from 1894 to 1895. The buying was done by specialists and was accompanied by the purchase of large quantities of stock. The opening was strong and active and there was no way to the close, which, however, was active and strong at the best prices of the day. Not a single active stock shows a decline to-night. The general list, while Manhattan is up 1/2 per cent.
