

A DOUBLE-DEALING ORGAN.

The State Journal's Republicanism in Lancaster and Democracy in Saline.

HOME FOR THE FRIENDLESS.

Annual Report of the Officers of the Institution—Supreme Court Doings—Happenings at the State Capital.

FROM THE BEE'S SCHOOL BUREAU.

It is remarkable the way the State Journal swears blood for the grand old party in Lancaster county and coddles the democracy of Saline county. It is joyful when it quotes from democratic papers which are opposed to the re-election of Senator Van Wyck, and as ready to acknowledge their good judgment as that of any other hide-bound corporation thing who sing the song of the railroads and their bosses.

LOCAL NEWS IN BRIEF. The cattle sale held by Mr. Quack at his farm was the most successful held in this vicinity this season, especially considering the stock was only grades. The total amount realized was \$3,408.25.

LEGISLATION OF THE YEAR.

What the Law Makers Have Done During the Year 1885-86.

AN INTERESTING SUMMARY.

New Federal and State Laws—Some Rather Peculiar Legislation.

New York Sun: A very interesting summary of legislation in the United States for the year 1885-86 was given by Mr. William Allen Butler in his address at the annual meeting of the American Bar Association at Saratoga last August.

The extent to which the system of biennial sessions has been adopted is shown by the circumstances that legislatures were convened in less than half of the states.

In a recent issue of an insurance paper published in Chicago is the letter of a writer from Washington, D. C., in which he says he is going west to start an insurance company and wants the publishers to send him some of the latest writing from Washington.

The cattle sale held by Mr. Quack at his farm was the most successful held in this vicinity this season, especially considering the stock was only grades.

Recently a paper was filed with the county court which is known in law as an unexecuted will, the deceased being Mrs. Isabella B. Clark, of this county.

Up to yesterday noon seven indictments had been returned by the grand jury, and they were still resting with the grand jury.

There has been, it is stated, a great amount of prayer meetings that they have spoiled the annual races.

The pain and misery suffered by those who are afflicted with dyspepsia are innumerable.

Frank B. Graham and Lottie Poilgert of Atlanta, wanted to marry, but they had to wait until a friend brought a clergyman.

Disease lies in ambush for the weak, a feeble constitution is ill adapted to encounter a malarious atmosphere.

During a heavy gale in the South Pacific Seaman Kelly, of the ship Reaper, fell from the rigging.

Mansion House, Mr. C. H. Ramsey, Buffalo—Kid Star Cough Cure sold by mail.

A citizen of Port Jervis, N. Y., who has been a member of the Delaware river at that point to be as low as now.

FIELD, FARM AND GARDEN.

Some Seasonable Hints and Suggestions.

Strong unbleached muslin is excellent in place of glass for poultry houses or chicken runs, and is much less expensive.

Much of the rose bushes with leaves or material on the mulch to keep in place.

The Farm Journal is authority for the statement that the so-called "appetizers" for fattening stock consist largely of stimulants.

If geese and ducks are plucked at this season they must be kept in a warm, dry place, and fed highly.

Feed the brooding ewes plenty of oats at this season, especially at night, and do not let them get cold.

Professor Arnold, who has been inspecting the English modes of agriculture states that the English dairyman are far in advance of the American.

Hardy bulbs should be transplanted when necessary in the fall, and earlier in the fall the better.

Many farmers believe that potatoes should be dug as soon as the tops are dead, but they are certainly not improved by so early digging.

The exterior characteristics of a good heavy draft-horse are a large, deep chest, straight shoulders, a little inclined, fleshy, thick body, yet not too much belly.

A writer in the London Gardeners' Chronicle has had excellent success in the use of a weak solution of sulphate of ammonia.
