TURKEY seems at present to be under the thumb of the czar. This is preliminary to being under the foot of the czar of the Russians.

CHURCH HOWE's meetings are dwindling away to the size of ward caucuses. Hiring a hall has become a senseless waste of a hoople. A good sized closet would fill the bill.

A NUMBER of plans for the new county hospital have been received by the county commissioners. The greatest care ought to be exercised in the final selection.

MR. PAXTON declines, Mr. Paulsen don't want it, Mr. Creighton won't have it, and Mr. Donovan declines with thanks.

THE popular vote on senatorial preference is an experiment which, if successfully carried out in Nebraska, may revolutionize the selection of senators in other states.

The Store Order System. At the time the supreme court of Pennsylvania rendered the decision clearing unconstitutional the law of that state prohibiting the store order system, we made extended comment on the subject.

Of all the places in Nebraska Lincoln can furnish more indictable material than any city of its size in the union. It is a class of law-breakers and subjects for felons' cells, but there are scores of men in Lincoln whose whole life has been a continuation of felonious acts.

Church Howe's Campaign Lies. I have just received a letter from Bennett, Lancaster county, which contains the following extract: Mr. Howe, the candidate for congress, was at Bennett on the 19th.

General Van Wyck's Appointments. There is not a word of truth in either of these reports. The only convention I had with Church Howe was at the residence of the late Paul Schmike and several delegates from Otoe county.

His record haunts Church Howe at every stage of his canvass. It will not down at his bidding and cannot be explained away.

Indian Gamblers. Yakima (Ore.) Signal: For the last two weeks, ever since the hop-picking season commenced, a lot of sharp, good-looking Indians have been lounging about the town.

The biggest "big gun" in the world is a 112 ton behemoth, with which Humbert of Italy, expects to salute the first king who assaults him.

Keep It Before Republicans. The republicans of the first district should ask themselves whether a man having such a record as that of Church Howe has any rightful claim upon the support of any decent republican.

The records of the legislature of which Church Howe was a member in '76-'77, contain the indelible proofs of the treasonable conspiracy, and no denial can stand against evidence furnished by his own pen.

In 1878 Nebraska elected Silas A. Strickland, Amasa Cobb and A. H. Connor presidential electors by a vote of 31,918 as against a vote of 16,954 cast for the Tilden and Hendricks electors.

The system is not peculiar to Pennsylvania, but exists in many other states, and in nearly all of them where mining is carried on to any great extent.

The B & M. has let the contract for grading eight miles of the extension from Curtis west to a junction with the main line at Akron, Col., a distance of eighty miles.

The fool with a gun is diligently promoting the shooting of a local controversy. Out in Colfax county last week a hired man, firing of target-shooting, turned his artillery on a seven-year-old boy, son of Mr. Blazek, and sent a bullet through the child's head.

Ark. Jan. 17. My Dear Sam: James: For a long time I have been waiting for news from you since your last letter to your old mother.

and the tedious and difficult job of laying the line and piping out into Spirit Lake is done. While blasting for the eastern approach of the high bridge at Dubuque Monday, a piece of rock weighing four or five pounds was thrown into the air and dropped upon the tin roof of a warehouse, through which it went as if the roof was but paper.

In a suit for damages, against the Chicago, Burlington & Quincy, now being tried before Judge Henderson in Des Moines, the court room is littered with twisted bolts, broken bits of rails and other paraphernalia of a first-class wreck, scattered by a miniature bridge and trestle work, while the attorney for the prosecution has a small railway on exhibition, giving the court room the general appearance of a "back shop" for the repair of dilapidated cars.

A thief in jail at Denison, named Struck, is probably as industrious a prisoner as ever handled a saw. He damaged his cell when an extent that the jailer made a thorough search, and discovered several saws. These he received thinking that the work would cease, but the next morning he found several bars over the ceiling, and he was then again searched and chained to the cell door.

Prince Melissano. The suicide of Prince Melissano, duke of Carratoni, in the Cercle Imperial of which he was a member, and where he had a bedroom, is to be ascribed to his name being posted as that of a defaulter on the chimney-glass of the card room.
