Chloroformed and Robbed. Cal Shultz, living on North Eighteenth street, awoke yesterday morning to find the wind blowing through his pompom door on an open door, which he was sure he had locked last night. He was suffering severely from a headache while the unmistakable odor of chloroform pervaded the room. He found also that his room had been plundered and \$100 in money and a number of other valuables stolen.

TALKS WITH TRAVELERS. Short Interviews Gathered in Hotel. E. D. Simms, Alton, Ill.: "If everything progresses favorably, there will be a bridge built across the Mississippi river at Alton, Ill. I am not sure yet whether congress has yet granted the charter, but I am under the impression that it has. If so the work of building the bridge will be commenced in the spring. The bed of the river is such that the bridge can be constructed with much less labor than the one at St. Louis. It will afford an entrance into St. Louis to the Chicago and St. Paul route, which are now compelled to patronize the Good bridge."

A Star Knecks One a Baggageman. Last week a life hour Ell and June Meade, the gifted entertainers, and vocalist, reached one of Omaha's neighboring towns to find an engagement. At the hall she found a mistake had been made in checking, and instead of her trunk with costumes for her copyrights, a foreign article was waiting for an introduction. Calling the station agent he told her if her trunk was at the depot she could have it by identifying it. She hastened to the depot and found her trunk, so she pointed it out to the baggageman, but the stickler refused to take it. He refused without the check. In vain she showed her name on the trunk and said the audience were waiting. Tiring of his delay she pointed to the trunk, so he took it and handed it to her. He said she had a Sullivan rush for the tape measure that caused him to lose his balance and the lamp chimney. Before he got back from the trunk he had a little star had her trunk outside and sat down upon it with "You touch that trunk now at your peril." There was genuine tragedy in the tones of her wailing voice, and the circumstances of the thing had happened. An afflicted public cries bravo!

He Won "Clark S." The raffish of the well known by golding, "Clark S." owned by Kinney Bros., took place at Thompson & Little's saloon last night. The lucky number was 56, and was held by John Boyd, superintendent of the Union Stock yards.

Where a Type-Writer is Useful. Chicago Herald: The type-writer will never be a universal favorite. It may be and doubtless is a good thing to grind out an editorial or finance, or to flay a man whom you don't like. Likewise a good invention to turn out all sorts of correspondence. But there are fields where the pen—the old-fashioned pen—is still mightier than the type-writer. And fancy a sweetheart—anything but your best friend—bearing her passionate yearnings and fond expressions on a sheet of paper where you have to ring a bell at the end of each line. Love never can get used to any mechanical apparatus as that. You might as well expect to pound out an opera on a sheet-iron boiler with a sledge hammer. Imagine your sweetheart sitting at a typewriter, her fingers flying, and you sitting there, your heart aching, and your eyes staring at the sheet of paper where you have to ring a bell at the end of each line. Handy With a Hatchet. John Lowitz and a fellow native of sunny Italy named Matoroni, became engaged in an altercation on South Tenth street yesterday evening, over the division of some dry goods boxes which had been purchased by them as partners. Matoroni finally assaulted Lowitz, and struck him across the neck with the blade of a hatchet, soiling a \$3 coat and thereby greatly injuring his own feelings. The hatchet artist was arrested.

The "Quorum" was well presented to a packed audience at the People's theater last night. Miss Aida Laurence, in the title role, made a decidedly pleasing impression. Mr. P. J. These Campaign Speakers Manage to Have a Little Fun. New York Tribune: General George A. Sheridan, of Louisiana, has had a wide experience as a political speaker. The stories he tells of occurrences on the campaign are so amusing that the men who listened to him with groups that gather around him when he appears in public places. The general tells of an interview he had with General Chester A. Arthur, who was then managing the republican campaign in the state. General Sheridan had been making a series of speeches over the state. When he came back he called at the headquarters to report on his success. General Arthur, who asked him how much the committee was indebted to him for his expenses, General Sheridan reported: "I have \$35 left over from the money you gave me for expenses. The committee does not owe me anything, but I want to say I was up in Potsdam the other night to make a speech. There was a fight between democrats in the town. They told me to demonstrate, was ever known to attend a republican meeting there. I had my \$30 overcoat stolen. It must have been stolen by a republican. The republican committee feels like giving me a new overcoat, but I don't consider the amount square." General Arthur laughed and quietly wrote out an order on a New York tailor for an overcoat with new cut of clothes, saying that he proposed to preserve the integrity of the republican party if it took all the clothes in Gotham.

While stumping in Ohio a number of years ago, General Sheridan had with him as an alternate speaker a man of somewhat slow observation. The general had a favorite story which he was in the habit of telling his audiences and which invariably provoked tremendous laughter and applause. Several appointments had been filled when one day his companion said to General Sheridan, "I would like to have you tell me that story, would you mind that?" "I would like to have you tell me that story," said Sheridan, dryly. "I would like to have you tell me that story," said Sheridan, dryly. Wrongs of Working Girls. New York Sun: The committee appointed by the Central Labor unions of this city on Brooklyn, to investigate the charges of immorality brought against certain persons in a Williamsburg factory has been holding sessions in temperance hall, Kent avenue, and has examined more than fifty girls, and twenty men and boys lately employed in the factory. Members of the committee say the reports of immorality have been substantiated by the testimony. The committee will file a report on the ground that they came late to work in the morning.

Dike as a Swordsman. Sir Charles Dike, it is well known, is a first-class swordsman. During his recent stay at Hoyt he passed no less than three hours a day in the fencing hall of the commander of the Thirty-third artillery. Every morning Sir Charles drilled two hours with this crack fencing master, and every evening one hour, astonishing by his superior and alertness, alertness and quickness of action such practiced habits of the hall as the Marquis de Saint-Paul, Victor Mamey, Mollat and Leroux, deputy from La Vendee. Nobody who saw Sir Charles in the street, with his still, melancholy stride and black coat buttoned up to the chin, would ever dream that beneath that stolid exterior were concealed such extraordinary energy and suppleness of movement.

A Journalist's Examination Paper. A funny fellow in the Gorman Exchange building suggests that the following examination paper should be set to all candidates for journalistic employment: 1. Give a list of the names of all newspapers and a pair of scissors only, how would you fill your paper with "original articles" and "special telegrams"? 2. Give a few simple notes to accompany the return of MSS. to important persons. 3. How many pages of a book is it necessary to read in order to write (a) a biographical note, (b) a review? 4. Point out in general terms the form in which a theoretical criticism should be written (a) so as to please everybody, (b) so as to make out that a piece which is not your favorite, is a grand success. 5. Give a list of the commonplace and quotations with which articles may best be begun and ended. 6. If an editor has been condemned twenty-five times for "offenses against Prince Bismarck," may he celebrate the jubilee of his convictions, or would such a thing be considered a disgrace? 7. Explain.

A NEW LEASE OF LIFE.

When one has been suffering the agonies of a severe attack of rheumatism, neuralgia or sciatica, and relief comes, it seems as if a new lease of life had been granted. Such have indeed been the feelings of thousands who, after trying physicians and numerous remedies, have used Athlaphora and found to their great joy, that its medicine really did cure these diseases.

At Dubuque, Iowa, the druggists say Athlaphora beats them all. We thought it would be like many other rheumatic medicines, such have indeed been the feelings of thousands who, after trying physicians and numerous remedies, have used Athlaphora and found to their great joy, that its medicine really did cure these diseases.
