Pauperism in London. The reply just made by the local government board of London to a letter of the social democratic federation calling attention to the alleged great increase in the number of indigent and idle people in London, will have the effect of correcting the very general belief, supposed to be based upon unquestionable facts, that pauperism and idleness in the English metropolis have had an enormous and unprecedented growth in the last few years.

A little while ago Lord Derby made a speech in Liverpool in which he pictured the bright side of England's industrial condition and held out the promise of a prosperous future. Admitting that of late trade in a general way had not been good and that profits were small, he maintained that the general condition of the country was not so bad as it had been represented to be.

Mr. Carlisle promises to meet his dear friend Sam Randall on the congressional Rialto next month. Mr. William Morrison will also sing his swan song about the same time, amid the usual democratic harmony.

A POLICE SURGEON on hourly duty is one of the needs of this city which should be provided for as soon as possible. A bureau of vital statistics does not fill the bill. That is practically the position which the city physician now occupies.

REAL ESTATE values are still stiffening in spite of the approach of winter. Bank clearings continue to pile up an increase over last year's business. Jobbing houses report a rustling fall trade and cheerful winter prospects.

MORE miles of railroad will be constructed in Nebraska next year than in any of her history. Every system operating in the state is preparing to push extensions. Competition for territory is urging on the work in some sections more than any present prospect of profitable traffic.

THE INSPIRING MOTIVE. According to the monopoly leaders the democrat who hesitates to shoot off blank cartridges in the coming senatorial contest is lost. If this is the case a search expedition should be organized in advance.

THE SUNDAY BEE. To-day's issue of the Sunday Bee will be found as usual filled to overflowing with crisp, clear, fresh and readable information.

There are hundreds of cases in Omaha to-day where a kindly charity could find full employment for its zeal. There are poor to be clothed and hungry stomachs to be fed and wretched souls to be supplied to cold and cheerless hovels within sound of church bells calling their calls to missionary work in Bombay, Shanghai and the South Sea Islands.

The Postoffice. Three additional carriers have been allowed the Omaha postoffice. This is something to be sure, but what is even more needed is a doubling of the clerical force inside the building.

Assaulting Titles. With increasing property values there is a noticeable increase in the number of suits brought to assail the validity of titles. Scarcely a month passes in which some property owner who has purchased a good faith is not called upon to pay "blood money" or face a law suit.

Increasing Our Judiciary. A few days ago comment was made in these columns upon the proposals of the State Bar Association for facilitating the dispatch of legal business in Douglas county and throughout the state.

Booth and the McCullough Monument. A few days ago a New York paper printed an item saying that the friends of the late John McCullough had given up the project of obtaining funds by popular subscription to erect a monument to the memory of the dead actor.

The American Humane Association. The tenth annual meeting of the American Humane Association will be held in Cincinnati on Wednesday, Thursday and Friday of this week.

Statue of Liberty Literature. HERETOFORE no one has suspected any special affinity between John Greenleaf Whittier and Ella Wheeler Wilcox, but now it must be acknowledged that they possess "two souls but a single thought."

SEE AIN'T BUILT THAT WAY. THE winds may be all over Bedloe, And Liberty down in the bay; But the atmospheric frisker Can't blow through her whiskers, Because she ain't built that way.

THE GODDESS IN A STORM. A drizzling shower fell pellucid dappled And softened her hair's curls down And it seemed that her eyes looked half-abashed At her state-embalming torch; And maybe her hand reposed there; She took in a chilly way.

WHILE the churches are reporting generous collections for foreign missions and earnest work on behalf of the benighted heathen in distant lands, benevolent and charitable people should not overlook the need for their labor and money in relieving the suffering and combating the sin which lies in full view at their very doors.

POLITICAL POINTS.

Bascom Herald: Mr. Morrison is horizontally laid out. Nevertheless, the war tax must go.

New York Tribune: Mr. Cleveland starts out for '87 trying to draw his wagon with a broken trace.

Minnesota Tribune: One thing is pretty certain, and that is the Fifteenth congress cannot be any possibility be worse than the Forty-ninth.

Philadelphia Press: This would be about as good a time as any for Mr. Garland to go. He can retreat in safety before the smoke lifts from the field.

Albany Journal: In this contest, as in every contest which the prohibitionists have taken part as a third party, the latter have played directly into the hands of the saloon-keepers.

Baltimore American: That Mr. Hewitt's name has already been brought forward as a very promising candidate for the nomination in 1888 can hardly be pleasant to the administration.

Chicago Herald: Ames, of Minnesota, has made such a run for governor of the state that he will probably become a great national political leader.

Indianapolis Journal: There is talk of raising the president's salary to \$100,000 a year, more than the salary of any other official in the world.

Chicago Herald: Ames, of Minnesota, has made such a run for governor of the state that he will probably become a great national political leader.

SUNDAY GOSSIP.

"WHAT'S new in the time of books?" asked a representative of The Bee of Mr. Caulfield. "There's something new all the time," said he, "but it is not the literary work that will for a time attract the most attention."

New York Tribune: Mr. Cleveland starts out for '87 trying to draw his wagon with a broken trace.

whether there is any truth in that rumor. The work on the freight depot is slow and progressive and the large quantity of material purchased during the last two years by the Union Pacific adjacent to its present position seem to us to determine the location of the new passenger depot.
