FROM LIFE TO DEATH

is but a moment if rheumatism or neuralgia strikes the heart. These diseases are the most painful and the most dangerous of any with which our kind is liable. They fly from one part to another without a moment's warning, and liniments and other applications are in themselves dangerous because they are liable to drive the disease to some vital organ and cause instant death.

George Schneider, employed at the sash factory of Hittig Bros. Manufacturing Co., Muscatine, Iowa, says: "About a year ago my wife was afflicted with both rheumatism and neuralgia. She had used numerous remedies with no apparent relief. Having learned of some of the cures for these diseases, I bought some for her. I think it was four or five bottles she used, since which time she has been entirely free of both rheumatism and neuralgia. It was a very great relief. I consider Athlophors a very efficient remedy in curing such a case."

W. C. McClain, clerk for Smith & Donestee, Druggists, Atlantic, Iowa, says: "I have tried everything I knew of for my rheumatism, but nothing did me any good until I used Athlophors. It was in July, 1884. I was confined to the house for over a month, and was obliged to use crutches. I suffered with this rheumatism for about a year. Finally I decided to give Athlophors a trial, thinking it would be no better than the medicines I had used. I felt a change after I had used a few bottles, and in using it, I have not had any rheumatism since. Athlophors and Athlophors Pills, but where they cannot be bought of the druggist the Athlophors Co., 132 1/2 St. St. New York, will send you a carriage receipt of regular price, which is \$1 per bottle for Athlophors and 50c for the Pills."

For liver and kidney diseases, dyspepsia, indigestion, weakness, nervous debility, diabetes, of women, constipation, headache, impure blood, etc., Athlophors Pills are unequalled.
