

THE DAILY BEE. PUBLISHED EVERY MORNING.

TERMS OF SUBSCRIPTION: Daily (Monday Edition) including Sunday... For 12 Months \$10.00... For 6 Months \$5.00... For 3 Months \$2.50...

The Old and the New.

The departed year contributed liberally to the pages of history in all departments of human affairs. It is not a period of exceptionally grave and momentous events, its course was still marked by occurrences of very serious concern in the present, and of possible consequences in the future, the effect of which the wisest may not be able to foresee.

Needless Alarm.

Omaha business men have no cause for alarm when they view the prospects of inter-state commerce regulation on the lines of the Cullom bill. The men who fear that the interests of the west will be unfavorably affected by the long-haul proviso are men who have not read the provision referred to. That proviso is flexible enough to meet every necessity.

Prague was recently the scene of a great German demonstration in honor of the sixtieth birthday of Dr. Schmeikal, leader of the moderate German party in Bohemia for the past twenty-five years.

Prague was recently the scene of a great German demonstration in honor of the sixtieth birthday of Dr. Schmeikal, leader of the moderate German party in Bohemia for the past twenty-five years. An address bearing 100,000 signatures and representing over 1,500 political corporations was presented, and congratulations came from all parts of German Austria and the German empire.

GATHERING OF THE GLANS

Lincoln, Neb., Dec. 31.—[Special Correspondence of the Bee.]—The Glans are gathering. The city-like appearance of Lincoln, presented once in two years, and continuing some forty odd days, is again manifest. Even the street cars are patronized in a day or two.

THE SON OF A SLAVE.

A Chicago special to the St. Louis Globe-Democrat says: When the extensive landowner and banker, J. E. McCullister, died at Henderson, Mo., last August, he left an estate valued variously at from \$120,000 to \$200,000, the income of one-third of which was bequeathed to his widow during her lifetime.

READ THIS

NEW YEARS PRESENT FOR ALL! Colner & Archer's addition to South Omaha, consisting of 104 of the finest lots ever laid out. Every lot is a beauty.

THE DAILY BEE.

Table with 2 columns: Day, Circulation. Rows include Saturday, Dec. 18 (13,220), Sunday, Dec. 19 (13,150), Monday, Dec. 20 (13,075), Tuesday, Dec. 21 (13,000), Wednesday, Dec. 22 (13,115), Thursday, Dec. 23 (13,000), Friday, Dec. 24 (13,110).

Sworn Statement of Circulation.

Geo. B. Tzschuck, secretary of The Bee Publishing Company, does solemnly swear that the actual circulation of the Daily Bee for the week ending Dec. 31st, 1886, was as follows: Saturday, Dec. 18, 13,220; Sunday, Dec. 19, 13,150; Monday, Dec. 20, 13,075; Tuesday, Dec. 21, 13,000; Wednesday, Dec. 22, 13,115; Thursday, Dec. 23, 13,000; Friday, Dec. 24, 13,110.

Sworn to and subscribed before me this 31st day of December, A. D., 1886, N. P. Felt, Notary Public.

THE RAILROADS ARE PREPARING TO UNBLANKET THEIR DARK HORSE WITH THE OPENING OF THE LEGISLATIVE SESSION.

It is needless to remark that his other name is not Charles H. Van Wyck. The county commissioners are now busy with bridge plans, while the plans for the new county hospital still lie undeposited upon their table.

Why should railroad corporations be exempted from city taxation on their real estate lying within the city limits?

While every other corporation and citizen is forced to divide the burden which the railroads shirk? "JIM CEMMINGS" success as a letter writer was his ruin as a thief.

RUSSIA, it is said, has called out her reserve troops.

This looks decidedly like war, and especially so since the czar has not declared in favor of peace. The only way in which Europe may have a long continued peace is to give Russia a good thrashing so that she will get thrashed.

The year closes with no attempt made by congress to reduce the burden of national taxation.

A few more years of such neglect will work a political revolution among intelligent and honest voters. The obstructionists of tariff reform wherever found will be held responsible for the result of their work.

It will take twelve tons of paper to print the Bee's annual review, but there will be twelve tons of valuable and absolutely correct and unflinching statistics printed.

The growth of Omaha up to the last day of 1886 will be clearly and concisely, and fully presented to a half a million readers of the resource and prospects of this thriving metropolis. The Bee's annual review will be worth its weight in gold, twelve tons down weight and even sixteen ounces to the pound.

The new year opens brightly for Nebraska and her leading city.

The year just closed has been the most prosperous in our history. In the state at large a heavy immigration has been steadily pouring into the frontier counties and settling up regions which two years ago were given over to the raucous and prairie dogs. Railroad construction has been pushed, in every direction.

JUDGE WARELAW'S decision that under the law the railroads in Nebraska are not subject to municipal taxation on the same basis as other corporations, renders prompt action by the legislature imperative.

The revenue law which was juggled through at Lincoln with a pretentious view of benefitting interior counties by giving them a large proportion of railroad taxes, was so drafted and passed as to exempt the corporations from all municipal taxation on nine-tenths of their property.

The City Attorney and the Mayor.

Mayor Boyd's organ has been placed between two fires by the action of City Attorney Council. It is a stab under the fifth rib of the paving contractors whose mouth-piece the Herald has been for months. At the same time it endorses in official form the private opinion of the mayor regarding the illegality of the proposed contract for which Creighton, Murray & Co. have been working the council for weeks past.

It is quite superfluous on the part of the Journal de St. Petersburg to state that Russia's refusal to accept the candidacy of Prince Ferdinand of Saxe-Coburg-Gotha for the Bulgarian throne is not due to personal objections.

And every action which the Bulgarian may take will be disapproved by Russia—or rather by the czar, for it is the extreme of absurdity to speak of Russia doing anything, there is no Russia except in the czar's sole person. Their present adherence to Alexander, their election of Waldemar of Denmark, their refusal of the Mingrelia puppet, is an act asserting self-government. How long the other powers will allow the czar to carry on his dog-in-the-manger policy is the question. They would do well to stop the nonsense by adopting the nomination of Ferdinand, which is by far the most promising prospect taken.

Sounds and Echoes.

As the ear cannot distinguish between two sounds occurring at an interval of less than one-sixteenth of a second, at that time necessarily elapse between the utterance of a sound and its return to form an echo. An echo is simply a sound reflected from a hard, smooth body, which must be thirty-five feet away from the cause of the sound.

Richard Mausfield, E. D. Price and Miss B. Cameron, of the Prince Karl company, are at the Millard.

Other Lands Than Ours.

The cabinet crisis in England has been one topic of foreign news which has awakened widespread discussion during the week past. Lord Randolph Churchill's resignation has left a vacancy in the cabinet which is still unfilled.

Longevity of the Dominant Type of English Statesmen.

The longevity of famous statesmen is remarkable. Imagine Lord Palmerston acting vigorously as prime minister of England when over eighty, governing the vast British empire with steady hand, making speeches three hours long in the house of commons, and rising next day fresh as a man 40 years of age.

Prohibition in Iowa.

Chicago Mail: Prohibition works wonderfully in Des Moines. A man who has just returned from that city says that he has felt a little grander every day and concluded that he would like a nip of something calculated to warm the heart and promote a healthy action of the liver.

Where They Use Still.

It is in the large plains called "Llan-dees" in southwest France, that people use stilts as a matter of course. These plains are generally flooded, though not to a sufficient depth to enable people to get about in boats.

AL FAIRBROTHER.

Richard Mausfield, E. D. Price and Miss B. Cameron, of the Prince Karl company, are at the Millard.
