THE LOCAL NEWS GRIST.

A Husband Turns Detective and Traces His Wife to Omaha.

SECRETARY CONOYER SPEAKS.

He Talks of the Wine Colored-Book The Union Club-Mr. Griffith's Appointment-Police News -Other Local.

Wants His Wife, Joseph Bell is the name of a very much distressed young man from Grand Island, who is in Omana looking for his wife, Mrs. Jane Bell. That lady ran away from her home about three months ago, with her two children, in company with a man named Henry Venker. By a really creditable piece of detective work, Bell succeeded in tracing his wife to Toreka, Leavenworth, Kansas City, Atchison and thence to Omaha, where he found the woman living with her paramour. Speaking of the case to a repor-ter to-day, Bell said: "I love the very ground that woman walks on, and will do anything to reclaim her. She left me three months ago, and went down to Kansas with the children, but I did not have the slightest idea that she intended to desert me. I supposed the was going to "work out." She wrote me two or three letters from different points in Kansas, and then ceased writing altogether. I became alarmed and determined to look her up. I traced her through different towns in Kansas and finally found out from the post-master at Atchison that she had ordered her mail to be sent to Mrs. Jane Bell at Omaha. I came here at once, writing beforehand to my wife to meet me at the depot. She did not do so, and as soon as I arrived here, I started out to find her. For a day or two I was unsuccessful. Finally I mailed a letter to her and told the postmaster to instruct the delivery clerk, when it should be called for, to find out the exact address of Mrs. Bell. Yester-day a man called for it at the post office and asked for Mrs. Bell's mail. The delivery clerk insisted on knowing my wife's exact address and the man, who was Venker himself, finally gave it as Thirty-second and Cuming street. I went to that address last night and looking through the window saw my wife and Venker sitting together. They refused to let me in even to see the children. I shall have them prosecuted if they persist in living together.

Bell yesterday morning procured warrants in the police court for the arrest of his wife and her paramour. At a late hour, however, the guilty pair had not been arrested. The husband, in the meantime, is almost distracted with grief. Venker, it is said, has a wife and nine children living in Grand Island. He is the same man who was arrested some time ago for impersonating a policeman.

HUMAN FORM DIVINE.

Mr. Conoyer Thinks That it Ought

Not to Be Too Promiscuous. A reporter for the BEE called upon Mr. Conoyer yesterday morning to ascertain what he had to say with regard to the episode at the meeting of the board of education Monday evening, when Mrs. Mc-Intyre one of the public school teachers wanted Mr. Conoyer to tell her who it was that had spoken indignantly about her

text book on anatomy.

He said: "I was going home on the 16th of last month when I met a man who had just come from a newspaper seen a wine covered book on Mrs. McIn-'s table in her class room, which she had opened and read and found to con-tain objectionable pictures. The man was indignant. That night I spoke to my boy about the book, and he told me that he had seen and read it, and knew all about men and women. My boy about 14 years of age. The next day I spoke to Mr. Lewis and told him to tell Mrs. McIntyre that she ought to keep that book in her desk or where children couldn't get hold of it. The name of the book is "Quane's Anatomy," and if you don't know what it is, Dr. Leisenring will tell you that it is not a fit book to have within the reach of children. Mrs. McIntyre has been demanding that I give her the name of the parent who was indignant over having the work read by his daughter, and I have refused to give it, because I don't think it material. The book has been within the reach of children, has been read by them, and even medical men have propounced that the work is such as should be placed beyond the reach of children. I have said that I shall go before the com-mittee and make affidavit to my asser-tion, and that is all there is in the mat-

COCHRAN'S HASTE.

A Paper in Chicago Thinks His Hospital Plans Bave Been Accepted.

There is a paper published in Chicago, called Pilner's Building Record. It is supplied by architects with items concerning the work they have on hand. Its last edition shows the effect of interested parties, by the publication of the

following paragraph:
"Hospital, Douglas county, Omaha,
Neb., J. C. Cochran, 78 Ashland block, Chicago, architect; contracts not let; cost \$250,000, two stories; stone and pressed brick, architectural and ornamental iron work, plate and stained glass, steam heating, slate roof, sky lights, terra cotta, kitchen outfit."

In view of the fact that the plan for the hospital has not yet been selected, it is somewhat strange that Cochran, several days ago, should have allowed the paragraph mentioned to be published, especially in view of the fact that he had been given to understand that there was but little probability of his plan being selected. It is noticed, also, that the figures in the record are \$250,000 instead of \$213,000, which Cochran first said his building could be erected for. The former figures, however, are now nearer Cochran's estimate because he has lately concluded that \$213,000 will not erect his

GROVER'S THANKS,

How He Appreciates Mrs. Reeves' Gift

of a Crazy Quilt. Readers of the BEE may remember that an aged lady of Omaha, Mrs. Elizabeth Reeves, sent to President Cleveland a silk sofa quilt. As early as October 6 the president acknowledged the receipt of the present, but because of a misunder standing the lady did not receive the message. Another attempt was made, and accordingly yesterday, Mrs. Reeves received the valued recognition, which consisted of the following letter, a poem

consisted of the following letter, a poem dedicated to Miss Folsom and photographs of both the president and his wife.

The letter is as follows:

EXECUTIVE MANSION,

WASHINGTON, D. C., Oct. 6, 1886.

My Dear Mrs. Reeves: I have received by the hand of Mr. Ryley the beautiful present winch you asked me to accept with your kind wishes aud earnest prayers for my welfare, and success in my personal and official life. I desire to express my sincere thanks for this gift, valuable for its usefulness and beauty, but much more prized because it is the handiwork of an aged and patriotic lady whose esteem and confidence is thus expressed. I am much impressed by your statement that the labor expended upon this present is, in your belief, the last that your age and infirmities will permit you to perform. I hope this may not be so, but I must express the sense of obliga-

tion to a faithful performance of duty which in view of surrounding circumstances your message of God speed fastens upon me. My wife joins me in admiration of your gift and appreciation of your sincere good wisnes. We have thought you might be pleased to receive our photographs as tokens of our remembrance of you on the occasion of your eighty-seventh birthday, which occurs on the 11th inst. I therefore enclose them with our best wishes and congratulations. Yours sincerely, Grover Cleveland.

Mrs. Elizabeth Reeves, Omaha, Neb.

THE HEBREW CLUB.

A Pleasant Entertainment Monday

Night at Germania Hall. The first entertainment and ball of the Young Men's Hebrew Club was held Monday night at Germania hall. The 200 couples present enjoyed a pleasant evening of music and dancing. The literary programme was opened with an address by Dr. Benson, preceded by an overture by the orchestra. William Wolf sang a solo to a piano accompaniment by Miss M. Rothschild. Other features of the programme were a recitation by Miss Bachr, and a vocal solo by S. J. Rice. President Meyer then delivered an address. In referring to the Hebrew race he said:

"It is useless for me to state that this race has been remarkable in the history of the earth ever since its existence From time immemorial the Jews have occupied positions of honor and trust in all nations wherein they have found homes. In this connec-tion let me state, that with but few exceptions, crimes among the Jews are almost unknown. You may seek in vain through the penitentiaries and prisons of the various countries of the world for Jews who are there in conse-quence of crimes which they have com-mitted. The statistics of the world show that there are less of our race, than any other race, perhaps, on the face of the globe, arrested and punished for crime. It has been a principle of the Jewish race to abide by the laws in the country wherein they reside. By reason of this they have always become formidable competitors in the affairs pertaining to human activity in all countries where-in they reside. Intellectually they have produced some of the most remarkable men, who either as counsellors, or prime ministers, or financiers have controlled and molded the channels of these various departments. It is the boast and proud distinction of the Jews that they produced one of the greatest prime ministers that the age has beheld. That a man with all of the prejudice characteristic among nations against his race should have risen to the position which Reseauchfield occupied in England has Beaconsfield occupied in England, has astonished many of the philosophers of the earth, and among them the very peo-ple with whom he lived."

In referring to the objects of the club speaker said: "We hope that by this social intercourse we can become better acquainted and develope our moral natures in this busy life to such a standard, that some day in our midst we may have the opportunities of which the Jews of other countries are possessed. The aims and objects of this club, in view of these advantages, will not have been carried out in vain. We should among ourselves learn charity, good-will, and fellowship. We should treat each other as members enlisted in a common cause, and when in old age we are called to our final resting place, we will be able to look back with satisfaction and gratification to the good deeds which we have done towards one another since this organization has been

in existence. The dances were twenty in number. The following were the committees in charge of the affair. Executive—Julius Meyer, president; Milton Sloman, vice-president; Fred S. Seligsohn, secretary; I. Kahn, treasurer. Board of directors—Dr. E. E. Sloman, M. Kahn, J. Danbaum, H. Heyn, E. Ganz, Arrangements—Dr. Heyn, E. Ganz, Arrangements-Dr. E. E. Sloman, A. Anspacher, William Wolf, M. Kahn, M. J. Harris, Floor managers—M. J. Harris, A. Lewis, L. Block, A. Rindskoff, S. J. Rice. Reception com-mittee—S. Oberfelder, S. J. Fisher, I. Schiff, A. Anspacher, E. Ganz.

A SECOND CALL.

The Southwest Presbyterians Ask

Second Time for Rev. D. R. Kerr. A meeting of the congregation of the Southwest Presbyterian church was held on Monday evening to take action upon the proposed coming of the Rev. D. R. Kerr, to act as pastor of the church mentioned. It will be remembered that shortly after the resignation of Rev. T. C. Hall pas tor, Mr. Kerr was called from Erie, Pa. where he had been one of the most popular of the local clergymen. The call was accepted, but it was later developed that the presbytery of the place refused to dis solve Mr. Kerr's pastoral relations. This information was conveyed to the members of the Southwest church, and in ac-cordance with it, the meeting referred to was held, and for the second time Mr. Kerr was called. It is expected that the Eric people will oppose no further objection and that Mr. Kerr will come here as soon as he may be able to close up his affairs in his old home, which will probably be about the 1st of March. In the meantime the Southwest pulpit will be filled by Rev. J. N. Boyd, editor of the Christian Hour.

THE UNION CLUB.

The Gutgrowth of the Canadian American Association.

Monday evening the second annual election of officers of the Canadian American club took place at the rooms. Fifteenth street opposite the opera house. George H Leslie was unanimously re-elected president, and the other places were filled as tollows: Will McBride and Dr. Van Camp first and second vice presidents respectively; Dr. Mattice, third vice president; E. T. Mullen, secretary, and A. W. Patterson, treasurer. These officers with the following constitute the board of directors; Messrs, Mackenzie, Moulton, Leavenworth, Hutchinson and Stephens. There is now a surplus in the treasury and the club has excellent prospects. Its name hereafter will be the Union club. It is now looking for a private house where it will be enabled to introduce all the features of a first-class club. The initiation fee will soon be raised from \$10 and the monthly dues from \$3 per month.

Electing Officers. A meeting of the directors of the Union Elevator company, elected at a session of stockholders Monday afternoon, was held yesterday for the purpose of electing officers. The result of both elections was as follows:

Directors—Chas. F. Adams, jr., Boston; Thos. L. Kimball, P. C. Himebaugh, N. Merriam. S. R. Callaway, Wm. Wallace, Geo. W. Hall, Omaha.

President, Chas. F. Adams, jr.; vice president, Thos. L. Kimball; secretary, Geo. W. Hall; treasurer, Wm. Wallace, A resolution was passed authorizing

A resolution was passed authorizing a renewal of the lease of the property of the company to the present lessees, Messrs. Himebaugh & Merriam, for a term of five years.

Traveling Men's Symposium.

The traveling men who have formed an association with headquarters in this erty, are all enthusiastic over the prospects of the affair. One of the members of one of the committees told a BEE reporter last evening that the proposition to open a set of rooms was most enthusiastically encouraged by the local jobbers. All the principal firms have guaranteed dona-

tions of money and several of the housefurnishing men have offered carpets and furniture to fit up the apartments. The location of the rooms has not yet been determined, but when they are opened and fixed up in elegant style, Omaha will have still stronger inducements to offer traveling men to come here and "Sun-

What the "Boys in Gray" Do. The report of Superintendent Evers of the work done by the letter carriers during the past month, is as follows: Number of carriers, twenty-four; daily trips, sixty-nine; daily collection trips, seventyone; registered letters delivered 1,478; mail letters delivered 437,425; mail postal cards delivered, 99,722; local letters de-livered, 84,752; local postal cards de-livered, 57,495; newspapers delivered 326,859; letters returned to the office, 762; letters collected 197,036; postal cards collected 69,907; newspapers collected

Tillie Swanson's Condition.

Miss Tillie Swanson, the young woman who was so severely injured by a mangle in the City Steam laundry Monday, is ying at her home on the corner of Ninth street and Capitol avenue, in a precari-ous condition. She is being attended by Drs. Rosewater and Dysart and, though resting as comfortably as may be expected, it is yet feared that her injuries and the shock to her nervous system may

Gen. O'Brien's Illness. Gen. O'Brien has made remarkable improvement towards recovery in the

past twenty-four hours, so much so that it was thought, yesterday morning he was out of danger. Yesterday afternoon, his oldest son George, well-known in this city, after a journey of seven days from Seattle, during which he suffered considerable from snow blockades, arrived, and will remain here until the result of his father's iliness may be determined.

The Weather.

At 7,0'clock yesterday morningthe thernometer in the signal service showed a temperature of 11 degrees above zero. From that time on the mercury began to fall and at noon stood at a point 6 degrees above zero. The indications are, however, that this vicinity will be dessed with a return of warmer weather. Reports from western and northern signal service stations show that comparatively moderate weather prevails.

Number Four's New Driver. Gus Williams, who has been in the

employ of Paxton & Gallagher for the past seven years has received the appointment of "driver" for engine house No. 4. This will be a great help to the present force which has heretofore consisted of only two men, who had more than they could do. The depart-ment could not have selected a better

Headlight Men.

The locomotive engine works of the country are well represented in the city yesterday by half a dozen agents each of whom has his professional headlights turned upon the Union Pacific headquarters where engine bids are now being considered. The following are at the Millard: R. G. Hughes, Paterson, N. J.; D. T. Evarts, Rome, N. Y.; Roman F. Tracey, New York, and W. W. Evans, Paterson, N. J.

Week of Prayer.

The week of prayer in Presbyterian churches commenced Sunday evening and will continue until next Saturday. In both the First and Southwest churches exercises will be held every night. In the Castellar street parish the prayer meetings will be held on four evening during the week in the residence of some member of the church. They will be conducted by the pastor, Rev. J. M. Wilson.

Deserved Promotion.

E. T. Horn, the popular and painstak ing conductor of the F. E. & M. V. railroad, received a practical Christmas present. It was a promotion to the superintendency of the eastern division of the road, with headquarters at Norfolk. He assumed his new duties January 1, and all who ever had the pleasure of meeting Conductor Horn will be rejoiced to be able to greet him now as Superintendent

Hung by the Jaw.

A man named Yerga, employed in the packing house of Harris & Fisher, beyond the city limits was dangerously injured yesterday by becoming suspended from a meat-hook in one of the departments of the house. The hook caught him under the left jaw and forced its way through the skin into his mouth. He suffered excrutating agony until Dr. Gal-braith was called and relieved him.

A New Office.

Auditor Erastus Young of the Union Pacific has issued a circular announcing the creation of a new office in his depart ment. It is that of auditor of disburse-ments and J. W. Griffith has been appointed to fill it. Mr. Griffith will have charge of all accounts and correspon-dence relating to the expenses of operation, maintenance and equipment of the

Mount, the Successor.

At 3 o'clock yesterday atternoon the county commissioners had not decided upon a hospital plan. It now appears that both Timme and Corliss favor Mendelssohn's, while O'Keefe favors Meyer's plans. Corliss goes out of of-fice to-day, and as Mount is satisfied with Mendelssohn's effort, it is likely that Corliss will favor leaving the voting to als successor.

Brownell Hall.

This beautiful new;structure which now occupies a most commanding position on the Tenth street hill, was thrown open yesterday morning for the first time, for the reception of students. There were tifty-three boarders on the rolls and the number of day scholars was considerably increased over that of last year. The students and faculty were greatly pleased with structure,

A Race Arranged.

Dan J. Ross, the sprinter, writes from Stromsburg, Neb., that he expects to run a five mile race on the 15th inst., with Hoffman, a foot-runner of Bellwood, for \$200 a side. He is to give Hoffman 200 yards start in the five miles. Ross says that he is in good condition and weighs 165 pounds. He is confident of winning

Sudden Death. The many friends of Mrs. Ed. O'Connor will learn with sincere sorrow of the death of their oldest child James Richard. Just as he was entering his second year death made its unwelcome visit. The funeral will take place from the parent's residence this morning at 11 o'clock.

For twenty years Henry F. Balcom, of Shirley, Mass., suffered with rheumatism. He found no relief till he took Hood's

Bishop Worthington III. Bishop Worthington has been confined to his room with a serious cold, and yesterday had not experienced very much relief. Owing to his iliness he was un-able to attend the opening of Brownell which took place yesterday.

A NEW VIEW OF CONSUMPTION And One Which Appeals to Common Sense, Many Curable Cases,

"Many persons die of Consumption who could easily be cured," says Dr. S. C. Clark, of Watertown, N. Y., "if they would go at it right. I have a new view of the disease. Consumption is not always of lung origin." "How so? What Islit then?" "Many cases of Consumption are secondary. The disease itself prevails everywhere, but the best tractitioners refuse to attribute it entirely to enheritance or the weather. If a person lives in the most favorable climate it entirely to enheritance or the weather. If a person lives in the most favorable climate in the world and has any tendency to lung weakness, if certain conditions exist in the system, that climate, however favorable, will not prevent development of the disease. The disorder in such cases is only a secondary symptom in the lungs of some other allment, and can never be cured until approached through its source."

"Yes, doctor; but what is the method of approach?"

"If you dip your finger in acid you burn it; do you not?"

"Yes."

"If you wash this burnt finger every second."

"Yes."
"If you wash this burnt finger overy second with acid, what is the result?"
"Why, constant inflammation, festering and eventual destruction of the finger.
"Precisely! Now then for my method, which commends itself to the reason and judgement of every skillful practitioner. You know certain acids are developed in the body, Well, if the system is all right these acids are neutralized or utilized and carried out. If the system is run down by excesses, anxiety, continual exposure, or overwork, these acids accumulate in the blood. If there is any natural weakness in the lung, this acid attacks it, having a natural affinity for it, and if the acid is not neutralized or passed out of the system, it burns, ulcerates and finally destroys the lung. Is this clear?"
"Perfectly! But how do you prevent the accumulation of these acids in the system."
"Irregularities of the liver and kidneys create this excess of acid and the supply can be cut off only by correcting the wrong action of these acids in the specular passed out of the system, alone should

"Irregularities of the liver and kidneys create this excess of acid and the supply can be cut off only by correcting the wrong action of these organs. The kidneys alone should carry out in quantity, in solution, enough of this acid daily, which, if left in the blood, would kill four men. When the stomach, the liver and the kidneys are all conspiring to increase the acid, the wonder is that weak lungs resist death as long as they do!"

"But you have not told us how you would treat such cases."

"No, but I will. The lungs are only diseased as an effect of this acid or kidney poison in the blood. After having exhauses all authorized remedies to correct this acid condition, I was compelled, in justice to my patients, to use Warner's safe cure: though a proprietary remedy, it is now recognized, I see, by leading physicians, by Presidents of State Boards of Health and by insurance physicians, as a scientific and the only specific for these great organs in which over ninety per cent. of diseases originate or are sustained."

"It is wonderfully so, and for that reason I am only too willing that you should announce it to the world of consumptives."

Note by the Publishers:—We have received

Note by the Publishers: - We have received

the above interview from H. H. Warner & Co., Rochester, N. Y., with the request that we publish it for the good of suffering people. In a foot note to their letter they say: "The experience of Dr. Clark is not strange "The experience of Dr.Clark is not strange to us. In our correspondence we have found that many thousands of people are suffering from what they think is Consumption, whereas the real difficulty is with the liver and kidneys, proven by the fact that when these organs are restored to health by the use of Warner's safe cure, the consumption disappears, and so does uremic or kidney poisoning, which causes so many symptoms of diseases that the human system is subject to. The same may be said of rheumatism, caused diseases that the human system is subject to. The same may be said of rheumatism, caused by an acideo ndition of the system. We insist upon what we always have claimed, if you remove the cause, the system will soon perfect the work already begun. Mrs. Rev. Dr. Theodore Wolf, of Gettysburg, Pa., wife of the editor of the Lutheran Quarterly, said her friends hought her 'far gone with consumption,' but after a thorough treatment with Warner's safe cure, she says: 'I am perfectly well.' We can cite thousands of such cases, but one is enough. If you publish the above article, kindly send us a marked copy."

[We gladly give place to the article, for it we can in any way stay the ravages of Consumption, which carries away so many milions yearly, it is our bounden duty so to do. -Pub.

Going to Humphrey.

Monday afternoon, Fredericka Hansen, daughter of Mr. and Mrs. Hansen, of 822 South Sixteenth street, was married to William Stieff, manager of the Chicago Lumber company's yards at Humphrey Neb. The groom was attended by his brother, John Stieff, and A. Hansen, and the bride by Miss Emma Alstadt and M. Hansen. There were thirty couples of friends in attendance and a delightful wedding feast was served before the couple left for their new home.
