Ordinance.**

All the Grand Army posts in the city have received a request from a committee, consisting of E. P. Rogozon, E. S. Dudley, and H. A. Babcock, to have their members use their influence with the local members of the house and senate to secure the passage of a soldier registry law, recommended at the last state encampment, held in Red Cloud, February 17th and 18th, 1886. The bill provides that every proficient soldier shall furnish his county clerk, at the time he makes his assessment returns in 1887, and every two years thereafter, a corrected list of all persons who served in the United States Army, navy, or marine corps during the war of 1812, the Mexican war, and the war of the rebellion. He shall also designate the rank, company, regiment, battery or vessel in which they served, together with their place of residence and postoffice address. These lists shall be certified to by the county clerk, who shall forward them to the secretary of state. The secretary will arrange them in an alphabetical manner by regiments and states, and publish 2,000 copies of the same. Three copies of these shall be furnished each post of the G. A. R., 100 copies to be given to the State Library, fifty copies to the commissioner of pensions, and the remaining to be retained by the secretary for distribution.

**CAPTAIN CRAWFORD'S GRAVE.**

An effort to be made to have it marked and enclosed. The following circular, concerning a monument for the lamented Captain Crawford, was received at army headquarters yesterday:

"The grave of the late Captain Crawford, Third Cavalry, is neither marked by a headstone nor suitably enclosed. Several officers have written to me expressing a desire to be permitted to contribute towards the expense of a headstone or monument, and some money has been sent me uncollected for that purpose. I have been willing to contribute money, time or labor, or all, and have intended to see the matter attended to even without aid, but I have had some delay in constituting myself manager or custodian of funds for the undertaking. The responsibility has been placed upon me and I will cheerfully exercise my best ability to have the matter well accomplished, but cannot proceed understandingly until I know pretty well about the probable amount of funds available.

"I think it eminently fitting that a headstone should be erected by his comrades and friends, and my ideas are that it should be a substantial one, of polished granite, of pleasing design, in harmony with its surroundings and his character, to cost, with suitable imperishable fencing, between \$300 and \$400.

"Captain Crawford held the deed to the lot, so the entire fund can be devoted to the monument and fence, and I will endeavor to secure assistance in transportation and probably some aid from the citizens of Kearney, Neb., who paid him such marked respect at the funeral.

"I trust that this will not be considered begging, but what it really is—a simple notification to the friends of Captain Crawford that they now have an opportunity to participate in paying a tribute to his pure and noble character and friendship.

"Any assistance anyone can give in spreading this information I am sure will be appreciated by all interested."

**ARMY NOTES.**

**A New Knapsack—Major Burt's Arrival.**  
Colonel Merriam, of Fort Laramie, is in the city on a leave of absence. He called at army headquarters yesterday and was cordially received by his old friends.  
Colonel Merriam is the inventor of a new knapsack which has been patented and is now being tested by the army authorities. He says that every report made concerning it has been favorable, and he thinks that it is only a question of a short time before it is adopted throughout the army. It is so arranged that the weight of the knapsack is carried entirely on the hips, instead of on the back in the case of the old fashioned knapsack.  
Major Burt, of Fort Robinson is in the city.

**WANIS A RACE.**

Schock is challenged by Edward Bullock. Ed Bullock is desirous of meeting Albert Schock, the long distance rider, and has issued a challenge to that effect. He desires a race of from one to 100 miles and his friends think that he could win or lead the other rider a hard race. The following is his challenge:  
"OMAHA, Neb., Jan. 26.—To the Editor of the BEE: During the six days' race in the exposition building several weeks ago Albert Schock, the forty-eight hour bicycle man, was profuse in his comments on the 'green rider' and said he did not like to ride with 'green hands.' These comments were directed at me. Since that race I have taken in the careful training and have just purchased a new racing wheel. I would like to meet Schock in a race of any kind from one mile to fifty, even up, no favors asked for any amount of money he may name. I think the 'green rider' has enough mettle to beat Schock, if that gentleman will accept the challenge.

Yours truly,  
EDWARD BULLOCK.

**CHALLENGE FROM TUPELLO.**

OMAHA, Jan. 27.—To the Editor of the BEE:—Having that John Hourihan be satisfied with the result of our race last summer, I will make the following proposition: I will run Mr. Hourihan twenty-five miles accepting the same terms I had last summer (two miles) and will run a two mile before Mr. Hourihan commences to run, for not less than \$250 a side. Money ready at any time.

HARRY TUPELLO.

**THE SOLDIER'S RE-UNION.**

An attempt will be made to secure it for Omaha. In an informal talk indulged by the members of the council and a number of private citizens last night, it became evident that there was a strong desire to endeavor to secure the location of the next soldiers' reunion of this state in Omaha. It was held that any amount of money required by the department for the location of the reunion here should be raised and would, beyond the possibility of a doubt, be an excellent investment. In some of the smaller cities, the attendance on certain days has reached as high as three or 40,000 people. That number, it was held, could easily be exceeded here, and every one com-

in the city. Members of the council said they would bring the matter up and discuss it, and they had no doubt that a committee from their body could be appointed who would join a G. A. R. committee, and a third committee of citizens to secure the necessary guarantee, which is to be presented to the state encampment, which is to be held in this city on the 16th and 17th of March.

**FOURTEEN YEARS OF AGE.**

**How the Turnverein Celebrated Its Fourteenth Anniversary.**  
There was a merry gathering of Germans in Germania hall last night and the gathering did not break up until a very early hour this morning. The festivity was in commemoration of the organization of the Omaha turnverein, the fourteenth anniversary of which had arrived. An excellent programme of dances was indulged in, the orchestra being seated upon the stage having a profit of dancing plants. Model exhibitions of turning were given by the following well known athletes: William Bieler, K. Rosenzweig, Albert Heintze, G. Grief, C. Rehs, E. F. Eissner, C. Newman and G. Blatter. This feature was greatly admired by all the spectators. The event of the evening, however, was the address by the president, Louis Heilmann. It was a carefully worked effort and evoked the greatest interest and enthusiasm among the members and visitors, every one of whom received it with appreciation.

The Verein was established in 1873 with fifteen members, and now has a membership of 167. Two of the original members, Charles Buermeister and Aaron Cahn are still members of the Verein and grace the occasion with their presence.

**He Takes In a Sheaf of Cattle Thief From Dakota.**  
A successful piece of detective work was accomplished yesterday morning by ex-Policeman Nightingale, in the arrest of a man named Thomas Hiett. He had stolen several head of cattle near Cana, Dak., and sold them to a butcher named Hull at that place. Hull suspected that the cattle had been stolen, and that Hiett had left town following, overtaken and brought him back to Cana. He kept him there several days, and finally Hiett left without receiving his money. In a short time Hull became suspicious that the cattle were stolen, and the owner, a man also named Hull, determined to catch the thief. Hiett was tracked to Omaha, a couple of decoy letters sent him, one of which told him to come to the value of the cows would be sent on a certain day. Nightingale watched at the general delivery of the postoffice, and yesterday morning Hiett appeared and was promptly arrested. He will be taken to Dakota.

A man named W. Griffin, of Lincoln, who registered at the Millard, was last night found in his room under the influence of morphine. His heavy breathing attracted the attention of the porter who was passing along the hall, and a medical aid was summoned with fortunate results. Mr. Griffin will not explain the circumstances under which he took his dangerous dose. Yesterday afternoon at three o'clock Drs. Hyde and Shaw were suddenly summoned to attend Griffin, as it was thought he was dying. He had fallen into a faint, and relief was given him, but he at last accounts was in a critical condition. It is thought that Griffin had been accustomed to taking morphine, otherwise the dose of ten grains which he must have taken would have killed him. Detective Night of Lincoln was in the city yesterday looking for Griffin, who is wanted at Lincoln to answer to the charge of embezzlement of funds from a fruit tree firm in which he had been employed.

**IT WAS A BEASS WATCH.**

R. L. Howard, a negro, was arraigned before Judge Stenberg yesterday charged with being a suspicious character. The policeman who arrested him had done so because Howard was trying to dispose of a watch in a saloon Wednesday night for \$12. It looked like a gold watch, and the officer hastily jumped to the conclusion that it had stolen it. Howard proved that it was the watch which he had Wednesday morning purchased for \$4. He was released. Pat Lynch and Ralph Van Ness, two bad boys, who had been caught wandering about the streets last Wednesday night, were discharged with a severe reprimand. Two drinks were released.

"If the first ordinance had gone through the council Wednesday night," said Captain Marsh, "we would now be laying track on the Eleventh street viaduct. We did not want exclusive right to the viaduct, but we did not want to waive rights which we claim under our charter."

"Do I understand you to mean," asked the reporter, "that if you should build across the viaduct now that other lines may run their cars there also, you would waive the rights you speak of?"

"I do not say that. That is a matter we have not considered. We leave that to our attorney. When Mr. Clark returns, we may talk the matter over."

**A CATTLEMAN'S SPREE.**

**It Costs a Coat, Fifty Dollars and a Big Check.**  
Yesterday morning, about 1 o'clock, a man named John Kelley, full of beer, ramble into the police station under the delusion that it was a depot. He sat down to wait for the train but Jauber Sigwart thought the wait would be too long and advised him to look for a hotel. He was shown the Canfield house and there he told of his adventures. He had come from Ceresco in this state in the morning with twenty-two head of cattle, had sold them at the stockyards to McCoy brothers for \$1,044.48. The net proceeds of the sale amounted to \$652.22. Fifty dollars of this amount he received in cash, the rest was in a check on a bank in Valparaiso. After his sale he took in the city with another shipper also named Kelley from Lincoln. Before midnight the pair became separated and the man mentioned was discovered yesterday morning he could not tell what had become of his \$500 horse overcoat which contained his \$800 check. When he got up yesterday morning he tried to discover where he had been during the early hours of the night but without success. The payment of the check will be stopped by telegram.

**A Land of Liberty Indeed.**

New York Mercury: The mayor of Paris in a single day recently favored 350 couples. It was done by lightning process. The mayor smiled on each lady as she came up, congratulated her as she finished her deposition, and wished her better luck next time as he handed her the papers of her freedom. Even Chicago might have learned a lesson in communal incompatibility in the Champs Elysees that day. If Paris will give this out as an additional attraction to foreigners, the American colony in that city will be quadrupled in less than two years. France alone, for oppressed wives and husbands, is the land of liberty.
