Charles Catelin, charged with clubbing Robert Durner, is to have a hearing before Justice Schurz to-morrow. Plainview addition, best and cheapest; one-fifth cash, balance \$10 per month. The trustees of the institution for the

deaf and dumb are holding one of their regular sessions, and will finish their business to day. The charge made against Jeff Green and Tom Britton for cutting slightly one of the drivers of a mail wagon, was

dropped yesterday. L. R. Mayne, who purchased the property on Broadway and Seventh streets on Saturday of N. P. Dodge, for \$10,000, has sold it of M. F. Sears, the real estate man, for \$15,000.

The district court has adjourned until Wednesday. To-day being Washington's birthday and yesterday being wash-day, it was decided that it would be best not to commence business until to-morrow. Plainview addition, largest lots and

easiest terms; one-lifth cash, balance \$10 per month. To-night the G. A. R. masquerade will draw a crowd, the promise being made of one of the most enjoyable social events of the season. The relief fund should get a liberal amount from the

Enlarging the Rope Mills.

Coker & Baxter, of the Council Bluffs Paper company, are making a success of the paper mills. During last week there was shipped fifty tons of excellent paper, and there are still a goodly num-ber of orders to fill. Some new machinery is here, and more is on the way. With the new machinery in place the daily capacity of the mill will be increased to five tons of paper a day.

General Dodge's Opinion. In a private letter from General G. M. Dodge, written to parties in this city, he

says regarding the proposed levee: This I consider the most important step which has been taken by the city of Council Bluffs. This levee, once com-pleted, there will never be any more trouble with water."

General Dodge is so widely known as a civil engineer of great experience and wonderful ability that his opinion of the proposed levee is weighty.

Ten Thoroughbred Horses Burned, With a Loss of \$30,000.

ENLARGING THE PAPER MILLS.

The New Fire Alarm Now Ready For Use-A Move For a Normal College and a New School Building.

Stewart's Stables Burned. About 10:15 o'clock Sunday night the training stables of "The Maples" stud of Messrs, John T. Stewart & Son, located in the southeast corner of the driving park, were discovered to be on fire, as stated in the BEE yesterday.

It seems that some of the employes had a short time previous passed through the stables and retired for the night, while two of them remained up writing letters. Noticing smoke in the room they opened the door, only to find the building all ablaze. Their first move was to awaken those who had retired who a moment later would have been burned to death. It was with difficulty that two of the valuable horses were released, but the other eleven were burned, together with the entire stables, in which were eleven fine targe box stalls, sleeping and reading rooms for the employes, and the library and books used in the night school which had been established by these gentlemen for the benefit of their employes. All of the clothing of the help, which included nine men and boys, as well as saddles, blankets,

whips, spurs, etc., and other stable furni-ture of every description, was consumed. As soon as the telephone message from the Northwestern depot was received, a hook and ladder with four men responded, as it was useless for the other apparatus to turn out, there being no possibility of obtaining water, no hy-

drants being located in that section.

Mr. Stewart was notified by telephone by one of the BEE men and notified immediately repaired to the scene, but nothing could be done but to let the fire complete its work.

Eleven of the horses were in training

for the coming races having been entered at Chicago, Louisville, Jerome Park, Brooklyn Jockey Club, Coney Island, Saratoga, and Monmouth Park in over a hundred stakes in which the declaration fees amount to over \$1,000. Messrs. Stewart & Son anticipated much from this stable of horses and have been working their thoroughbreds since January 1, being far in advance of the other stables in other parts of the country. It was with-out doubt the finest stable of thoroughbreds ever in any western state with the possible exception of the Corrigan stables at Kansas City.

The following horses were in the stable at the time of the tire and all were consumed except Serenader, who was slightly singed, and Gypsy Baron:
Four-year-old bay filley Everallen by Ben C. Miller, son of Red Eye.
Three-year-old chestnut colt Gypsy

Baron by Harry O'Fallon, son of imported Australian and imported Sunny South, by Irish Birdcatcher, dam Jennie Flood by imported Billet. Three year-old chestnut filly Staceto.

sister to Prima Donna, by Plenipo (son of imported Bonnie Scotland and Dora by imported Australian), dam Annie C. by Foster (son of Lexington). Three-year-old grey filiy Bastinada by Bill Bass, dam Rebecca Rowett by Uncle

Vic.

Three-year-old bay gelding Loch Lin

Three-year-old bay gelding Loch Lin

Repuis Scotland), dam by Lochiel (son of Bonnie Scotland), dam Lady Elizabeth by Red Eye. Two-year-old brown colt Damascus by imported Dalnacardoch (son of Rataplan and Mayonase by Tedington), dam Semitone (sister to Leonatus) by imported Buckden, 2d dam Semper Felix by imported Phaeton, 3d dam Cruciiix by Lex-

ington. Two-year-old chestnut filly Lady Teazle by Macduff (son of imported Macaroon), dam Lenore by Pat Malloy, second dam Lilla by imported Yorkshire.

Two-year-old bay filly Miss Montrose
by Duke of Montrose, dam Gwendolin

by Jack Malone.

Two-year-old bay colt Serenader, by Leonatus, dam Serenade, by imported Saunterer.

Two-year-old chestnut colt Drift, by Spendthrift, dam Lucille Kendrick by Eugene, son of Revenue.

Two-year-old bay colt Pound Sterling by imported Rapture, dam Piastre by imported Strachino.

There were also a saddle horse and a thoroughbred yearing. The Inea by imported Pizarro, dam Ilia by imported Mortemer, both of which were burned.

There was an insurance on the horses which will probably cover their first cost but the entire loss is hard to estimate but Mr. Stewart thinks the amount will

not fall short of \$30,000. The building, upon which there was no insurance, was owned by the driving park association, but had been entirely remodeled by the Messrs. Stewart, who had finished it in the best possible manner for their stables including a fine covered and enclosed working track of

about 500 feet around. In the stable were three horses, none of which would have changed ownerships had the Stewarts been offered \$5,900 each in cold cash.

As to the origin of the fire no one seems to know. The proprietors have great faith in their employes, and state that they believe not one of their help smoke, and can give no conjecture having any known facts to support it.

The New Fire Alarm. The Richmond fire and police alarm is now completed and ready for actual use. Superintendent McCulloch, who has been personally superintending the work, was obliged to leave the city this week to attend to other business, and he desired to have a public test before he left. There was some uncertainty as to the date which the council would fix upon, and doubts as to whether Mr. McCulloch could be here the latter part of this week. In view of these uncertainties he made a proposition to the city, which has been accepted. He proposes to turn over the keys and the system as it is, and allow the city to use it, and have the protection given by the system, until such time as a formal test can be made at such time within the next thirty days as shall be agreeable to both parties. In the meantime the city can proceed to try the system in any way that it sees fit, thus given the city can be compared to ing the city a chance to thoroughly in-spect and test the system before the date for a formal test. The fear having been expressed that the city might become liable by thus taking the keys, the Richmond company through Mr. McCulloch signed a written agreement to the effect

that this informal test and the acceptance of the keys and the use of the system would not in any way invalidate or affect the contract. Besides this written agree-NOTICE. ment the city is protected by the contract by which the Richmond company is to guarantee the works for two years. Be-fore a dollar is paid the company it is to file indemnifying bonds, is to have the system tested, and formally accepted. then the company receives \$500. In six months it receives another payment, and the balance is not to be paid for a year. The city is thus given a chance to pretty thoroughly test the works before paying for them, and in addition have bonds for their successful working for at least two WANTS.

A Farewell Benefit, To-night the "Naind Queen" is to be presented for the last time. That the house will be filled there is no doubt. The entertainment being tendered as a complimentary benefit to Prof. Milleur, gives a double claim to public patronage. There has been such enthusiasm over this fairy opera that the public needs no further words concerning it. Prof. Milleur has worked zealously and successfully, and it seems very befitting that a substantial recognition should be given of such services as have caused delight to such large audiences night after night.

The First Alarm.

The first alarm over the new Richmond system was sent in last night. It was a false one. The chief had distributed keys during the day. One was left at Wise Payne's house in Streetsville. Mr. Payne was away from home, and the key was left with his wife, who was informed that the system would be all ready to send in alarms after 6 o'clock last night. She misunderstood, and thought that the chief wanted her husband to turn in an alarm after 6 o'clock, in order to try The alarm came in all right.

Kate Castleton was greeted by an enthusiastic audience at the opera house last evening, but not by so large a one as she merited. The amusement-goers have been crowding the opera house night after night for a week past, and they naturally lessened in numbers. The entertainment was all that was promised. Miss Castleton is one of those sprightly, charming artists, who seems to enjoy her her part so well and takes it so easy that she hits the popular heart right in the center. The play is well named. It is a potpourt of merry bits, with just enough of a plot to keep them from scattering greatly. The company is an excellent one, and the entertainment merits praise
