### The Inquest.

The inquest on the body of Jacob Richardson, who was shot by Officer William White early Sunday morning, was commenced yesterday morning at 10 o'clock in the council chamber. W. A. Redick appeared for the state. The jury was composed of J. M. Rogers, J. M. Tanner, Richard Smith, Chas. Dunham, J. A. Eyler and Nat Brown.

Dr. Wilcox, the first witness, testified that the course of the bullet was nearly straight, and that it had gone through the lung eavity and the abdominal cavity, lodging below the left nipple. The wound caused was a valve-like one, such as would cause no external hemorrhage. The bullet inclined upward at an angle of 25 degrees. [Here the witness drew a diagram illustrating the course of the bullet.] He thought such a wound would prove fatal, notwithstanding the amount of care that might be exercised in dressing it. There were no powder marks on the dead man's body, showing that the shooter had fired at some distance. The course of the bullet might have been caused by the injured man having bent over in running, or the man who fired being lower than the person fired at, or by the pistol being held in a slanting

position.

David McAvoy testified to his being with Richardson on the fatal Saturday night, in Kopald's saloon, in company with Counsman, Lowrey and Gardener. Afterwards witness and the others went down to the northwest corner of Sixteenth and Burt. They carried the bar-oer pole down the street a distance of a few feet. White stepped out and ordered them to take the sign back. They were not making any unusual noise. They took the pole back at once. White then arrested them, but did not say what for. Lowry and Counsman were ahead, and on Sixteenth and Webster they ran up Witness then told White that he would go no further unless the other two were arrested. The policeman then tried to strike him with a billy, and witness shoved him down and ran away. Did not strike him and did not see the others strike him after he was down. Ran up the atley, and as he ran heard two shots fired from the direction of Officer White Did not notice Richardson or the direc tion in which herran. Did not know that he was shot. Witness then went home. White made no effort to arrest the two men who ran up Webster street. Richardson was not very drunk. None of them were making much noise.

Dr. Leisenring was the next witness. He was called about 7 o'clock to attend a man who was reported to be very sick from the effects of a spree. Went there in less than half an hour and found him dead. Witness did not think that the death could have been caused from the effects of a drunken spree, and thought that the deceased must have swallowed some poison. Made no examination of the wounds. Did not even know that

Richardson had been shot.

W. G. Counsman, one of the men who
was with Richardson that night was sworn. His testimony did not differ ma-terially from that of McAvoy. Witness and Lowry, after being placed under arrest, ran ahead and turned up Webster street, When they had gone about a block, heard two shots fired east of them Do not know who fired them. Witness did not see Richardson after they separated. None of the party were very

John Lowrey, another of the party, tes-tified as Counsman did. He did not see Richardson after they separated, and though he heard shots fired, did not know any one was hit. No one in the party was intoxicated. To a question from Officer White, Lowrey stated that he did not hear him (the officer) tell them to halt, as he and Coupsman were running

Deputy Marshal McDonald testified to having taken White's revolver from his coat that morning. It had five loads in it, being in exactly the same condition as when White brought it in with him yesterday afternoon. (Here the revolver was produced in court and the bullet taken from Richardson's body was found to correspond with those in the weapon, which was of 38-calibre.) McDonald then testified to the story which White had told him of the arrest and how he had been knocked down and kicked by one of the two men whom he had with him under arrest. White told him that the assault was made by the bigger man of

J. W. Gardenier, the fifth man of the party, testified, but threw no new light upon the tragedy.

This closed the testimony for the morning. In the afternoon the inquest was resumed. C. A. Baldwin appeared as attorney for Officer White.

White was the first witness "About 12:30 that morning," he said, "I met four men whose faces I could not recognize going down Sixteenth street, They were carrying a barber ey were carrying a barber e. I told them that they must it back where they found They did so, and then I told them that they must consider themselves under arrest. Two of the men I took hold of and the other two walked ahead of me pretty rapidly. I started with them to jail."

"When I got to the corner of Sixteenth and Webster I saw the two men running about the corner. I called them to halt; they did not not stop; then I was knocked down, by whom I don't know; I drew my hack and revolver, while I was on my back, and fired at random, in the dark, just as policemen do to stop escaping prisoners; there was only one lamp on the corner and in the dark I could not see any one; I could not see any of the men when I fired, I shot at nothing in par-ticular, and did not aim at any one. Bloom and the block watchman came up to me after the shots were fired, and we made search for the men who escaped, but could not find them.

"I had gone about a block and a half with the prisoners before I was knocked down. I was present when Richardson was found about an hour afterward, and helped to take him to the pairol wagon. We led him about a half block. He mur-mured something on the way about being sick or cold. I don't remember distinctly what he did say. Examined by Mr. Redick, White re-

asserted that he had fired at no one in

particular.
"I was lying on the sidewalk," he testified, "when I fired, with my head to the northeast. I can't tell how or in what direction I fired as I was much excited and it was dark. The man who what direction I fired as I was much excited and it was dark. The man who struck me hit me, I think, in the neck. My pants were torn in the struggle, where I was kicked, I think. I carried a billy but could not use it because I did not have time to. When I was walking up with the men I had my cith in my hand. Just as soon had my club in my hand. Just as soon as I feli I drew my revolver and tired. No, the tuen did not pile up on top of me, and beat me. I fired more to signal for help than to stop the men, but I do tot know why I fired as I did."

Questioned by a juror Officer White

testified that he fired both shots when in a lying or a semi-recumbent position. August Erickson, who has a room over Roeder's drug store, testified that one of White's bullets came crashing through

his window and lodged over his bed.

Al. Sigwart, night jailer, testified to Richardson's having been brought in about 2 o'clock Sunday morning. It was supposed that the man was intoxicated, and a charge was booked against him accordingly. Witness searched him, accordingly. Witness searched him, but found no marks of injury. "Richardson," he said, "had nothing to say and did not mention the fact of his being wounded. He merely asked me where his hat was. About 6 o'clock in the morning I heard him moaning and asked him what the trouble was. He said asked him what the trouble was. He said his feet were cold. I looked at him and noticed that he looked bad, and his hands were very cold. I then sent for the city physician. White did not come in with Rienardson. He was brought in by Crawford, who drives the patrol wagon.

Jacob Kopaid, the saloon-keeper, in whose place the men were that night, testified that they had left about 12 o'clock, or a little after. They did not appear to be very much intoxicated.

Officer Bloom testified to having found Richardson on Cuming street about 1 o'clock. Witness thought that he was intoxicated. Noticed that he was lump and beavy, but did not suspect that he was Dave McAvoy was recalled, but noth-

ing of additional importance was gained from him. The jury then retired to consider the case. After more than three hours delibera-

tion, the jury brought in a VERDICT.
In it the jurors state: "We find that the deceased came to his death by a bul-let wound and although the evidence is purely circumstantial this jury believes that the shot was fired from a pistol held in the hand of Policeman William White while in the discharge of his official duties. BRICKLAYERS TAKE ACTION. A meeting of the Omaha Bricklayers union was held last night and the follow-ing notice was decided upon:

Attention, Bricklavers.

All members of the Omaha Bricklayers union are requested to meet at their hall, corner Fourteenth and Douglas streets, at 12:30 o clock p. m., to-day, for the purpose of attending the funeral of our late brother J. Richardson. All other labor organizations are respectfully invited to O. P. Shrum, Secretary.

A Rare Chance. During the latter part of January and the first part of February we sold 56 acre lots in Solomon's addition. This cleans them all up and Mr. Solomon now wishes to sell his home, consisting of 60 acres of land, the very finest part of the whole tract, for \$60,000, including his two-story brick residence and barns. The improvements cost over \$30,000. This is a bargain. A man can easily get \$75,000 to \$100,000 out of the land by platting into lots and have all the improvements and a beautiful plat of ground left. Will sell for small cash payment and the balance on ten years' time at 7 per cent. C. E. MAYNE REAL ESTATE & TRUST CO.,

The funeral of Mr. John Richardson will take place from the residence of his parents this afternoon, February 22d, at 2 o'clock, SIGNAL FLAGS.

The Changes to be Made in Them on March 1.

Signal Officer Hagen of this city has been officially notified that the change in signal flags agreed upon for the service will take place on March 1. The flags adopted are four in number and of the form and dimensions indicated below: No. 1, white flag, six feet square, indicates clear or fair weather. No. 2, blue flag, six feet square, indicates rain or snow. No. 3, black, triangular flag, four feet at the base and six feet in length, always refers to temperature. When placed above numbers 1 or 2 it indicates warmer weather; when placed below numbers 1 or 2 it indicates colder weather; when not displayed, the indications are that the temperature will remain stationary, or that the change in temperature will not vary five degrees from the temperature of the same hour of the preceding day. No. 4, white flag, six feet square, with black square in center, indicates the approach of a sudden and decided fall in temperature. This signal is usually ordered at least twenty-four hours in advance of in advance of the cold wave. It is not displayed unless a temperature of forty-live degrees or lower, is expected. When number four is displayed, number three is omitted.

The white square, with the black triangle, underneath it will mean fair weather, colder, and when the triangle is placed above it will mean fair weather and warmer. It will be easy to remem ber the temperature signal as it will go up and down with the mercury, indicat-ing warmth when placed above and cold when below. The triangle placed above the blue square will read "warmer, rain or snow," and when the positions are reversed it will be the same only colder. With these flags combinations of three can be made, such as the triangle followed by the white and blue square. Such a com-bination would read, "warmer, fair weather; followed by rain or snow," and so on through all the combinations possible with the four flags.

Corner Lots

Are good, and the corners of 23rd and Cuming streets are very good. We will sell the N. W. corner, 66x88 feet, with two stores and two houses, for \$15,000. and the S. E. corner, 66x132, for \$20,000. Sixty days hence, when these prices are advanced 25 per cent, somebody will wish they had bought. C. E. Mayne Real Estate & Trust Co., 15th and Harney.

A SENSATIONAL STORY

Started By Jealous Gamblers to In-

jure a Rival. Yesterday morning the Herald pub lished a sensational story to the effect that Frank Wilson and Joplin Joe, on Thursday night won \$2,400 at Soderstrom, Brucker & Donnelly's Farnam street club rooms, and compelled the dealer to 'turn over the box," owing to a deficiency of \$500, won by the two men on one turn, and that furthermore the proprietors of the house confessed themselves broke and had to skirmish around to scrape up sufficient personal property to pledge as security for the \$500. Another statement was that the house had lost \$10,000 during the past week. A reporter of the BEE vesterday met Mr. Soderstrom and asked him how the little of the situation of being broke. He he liked the situation of being broke. He smiled and replied: "Our firm is far smiled and replied: "Our firm is far from being broke. That Herald state-ment is a tissue of falsehoods. It is true that Wilson and Joplin Joe won \$2,400 They got their money in fifteen minutes after the play was over, the \$500 being after the play was over, the \$500 being obtained from our branch house on Douglas street, in the safe of which was plenty of money. The box was not turned over. I simply closed at the end of a deal, saying they were too lucky. Instead of losing \$10,000 during the week the house lost only \$1,350, as two winnings had been made, one for \$500 and one for \$350, while the Douglas street house quit winner on the week. I am prepared at any time to represent a am prepared at any time to represent a \$10,000 bank roll, if necessary. That story is undoubtedly the work of jealous rivals in the same business, as this Farnam street house had been doing as much business during the week as all the others combined.".
