CAREFULLY consider distances of property that you can buy in acres, look it up on the map or ride to the ground itself and you will find Brighton is the hearest acre property that can be bought, and air investigation of the ground itself will convince you that the situation is desirable in all respects. Brighton iots are selling at \$600 each. while land in their neighborhood fetches a larger price than this in large bodies. Acre property about Omaha is not only a safe investment, but especially desirable at this time. Railroads centering in Omaha will add largely to values, and the lots selling in Brighton at \$600 now will fetch much larger prices in six months' time.
