FINANCIER FOX'S FAILURE.

Recent Big Bank Closing in the Black Hills Country.

PECULIARITY OF PECULATION.

"Iron Hill's" Career and Present Status-General Sturgis Invests-Foreign Share Holders -"Wild Oats."

DEADWOOD, Dak., Feb. 28.-[Correspondence of the BEE. |-The question of absorbing interest now is, "Can the new Deadwood Mining Stock exchange bull the market more than the recent bank failures, and the manipulations of Casnier Fox can depress it?" A hopeful feature for shareholders is that that gentleman is out of the market. He certainly was no Mascott at any time. His dump of Iron hill stock last fall so demoralized everything that it was only a few days ago that stocks began to raily; and just as the new exchange opened hopefully, down went his bank with about \$200,000 of deposits.

But Fox is no longer a factor in speculation or business. It is said that he is as complete a wreck, physically, mentally and morally, as the Merchants' National is financially. He stands, or sits, a haggard watchman over the closed vaults, waiting for the bank examiner to come from Washington, waiting for his senior and relative, Stebbins, to come to the rescue. Stebbins has done nothing except to telegraph his willingness to put up \$50,000 to resume, if the public will put up enough more and guarantee continuous depositors enough and be real good to the banks, to insure solveney and restore lost confidence. But there is no business future for either Stebbins or Fox in the "Hills." The prime causes for the failures are speculation, incompetency and abuse of trusts. The precipitating cause, perhaps, was Fox's breaking the stock market, but the decline of the concerns began long before that. The truth now seems to be that FOR NEVER WAS MAN ENOUGH

for so extensive and perplexing respon-sibilities as managing a chain of banks in a mining country. Before Stebbins, his relative, took him up his financial experience, I am told, was such as he could acquire in peddling sewing machines Everybody—except Stebbins—sees it now; the sagacious and well informed saw it months ago. They saw it when Fox's manners drove away friends and customers; when large loans on made quate securities were made to favorities when he began to speculate in stocks when whispers of use of collaterals, a la Ferdinand Ward, and ugly disclosure of one or two suits at law to recover per sonal deposits were heard; and when i was said that Fox was stimulating stand the strain of so much responsibil-ity. One incident, of many that are now at last freely talked, may suffice for illustration: Last summer, when that gal-lant and simply-honest old soldier, GENERAL STURGIS WAS RETIRED

on half pay and left the Fort Meade com mand, he placed an order with Fox to purchase a thousand shares of Iron Hill the then price being \$6. Fox expressed doubts as to his ability to obtain the stock for that price, but promised to do his best. Weeks lapsed and Fox reported the order not filled in his letters to General Sturgis, who had left the "Hills." Meanwhile the price of Iron Hill was steadily declining. It ran along thus until General Sturgis returned to Deadwood to find Iron Hill down to near a dollar He countermanded his order and was told by Fox that the stock had been purchased for his account at \$6 and the 1,000 shares were tendered him. The date at which the \$6,000 was drawn from the secretary's account in Chicago showed that the sum would have bought two or three thousand shares, instead of one thousand, in open market; indeed, circumstances indicate that the transfer of stock was not made until the minute that General Sturgis appeared to

COUNTERMAND THE ORDER.

The matter seems more affecting because the money was a trust belonging to the grandchildren of the old soldier, a fact that I am told Fox was apprised of in advance. In another similar case, that of Mr. Holden, the cattle man, restnution was compelled from Fox; but the veteran was too sensitive and humiliated to go into court with the matter. It is generally believed now that Fox's break of the stock market was to stay the tottering banks, but the manner of his madness had little method of remedy in it. ness had little method of reinedy in it.
There was a great boom in minning
shares last spring. Iron Hill, the favorite, went above \$7 and the entire list
soared. Everybody went along. New
companies multiplied, some of them
based on a prospect hole and a stock certificate. Miners, merchants, washwomen navvies took hold; the very editors and printers who had struck off certificates at a cent apiece paid dollars for them-a stamp and signature being added. A lo-cal reporter told me that "he had a trunk full of souvenirs of the boom."

THEN CAME A REACTION.

Iron Hill went down slowly to \$5. Everyfron Hill went down slowly to \$5. Everybody tried to brace the market; to be a
bull then was as much a patriotic duty as
it was in '61 to stand by the Union. While
everybody else was whistling to keep his
courage up and urging everybody else not
to sell, Fox, treasurer of the Iron Hill
company, appeared on the steps of his
bank offering large blocks of the stock at
\$21. It was uselesse to boost when the \$21. It was uselessed to boost when the officers of the company were cutting the legs from under their own property. It was a meat-axe blow through a strained and inflated balloon. Everything went to the "demnition bow-wows." Iron Hill came down by the run to about fifty cents. Orders from outside stopped short as grandfather's clock; and as for home capitalists, they were loaded to the guards already with stocks—so there was no one to unload upon. Shares could not be hypothecated for loans. By common consent and common necessity forcible collections of debts were suspended; assessment for work on mining properties were discontinued and sales of stocks delinquent on assessments already levied were waived in the case of home delinquents.
WITH FOREIGN SHAREHOLDERS

t was sometimes different, however. know a case where an assessment was levied by the local directors on a stock largely held outside. When the outside stockholders had paid in advance of date of delinquency, another meeting of the resident directors was held and the as-sessment declared off; but no effort on the part of those who had paid could ever secure a return for their money. In one case the reputable officers of the company bleaded inability to return an as-sessment of \$6.25. Across the romantic canyon that is the portal to Deadwood might have been written, "The dollar that enters here leaves hope behind!" But these camps are filled with men who have considerable money and more "sand." The mines furnish a constant

source of wealth, and rally from misfor

as yet, and the transactions are small. Everbody is a bull. There is absolutely no short interest, and no dealing in futures at ail. All day and every day they try to boost each other's stocks, while the crowd of speculators, each fingering the little bundle of certificates next his heart, anxiously watches the black-board.
The size of the offering in each
case is carefully gauged by the
prices; one or two hundred shares of any stock worth over a dollar seems to be the limit of the game; while stocks that are rated at one or two cents are boldly flung out in thousand share blocks. The veteran broker of the Hills said to-day: There is so little money that we have to deal according to our pile, at present.'
All are unanimous in predicting anothe big stock boom inside of six weeks—with that optimism that is so characteristic of mining communities. Why shouldn't they predict and work for it? The influences against them are the undeveloped condition of most of the properties rep-resented by stock certificates and the scarcity of money. Already there is complaint of wild-cat stocks being listed by the exchange committee. And whence s the money to come to let all the holders unload at a profit. Twicehop. ers unload at a profit.

The Hotel Register is very loquacious and it has the matter to talk of. There is perhaps no stationary thing that hears more of the steady buzz of human conversation on all known subjects than the Hotel Register. The Register says: "I heard two gentlemen in conversation here last night and one of them was a lawyer. Perhaps the other was, too. The lawyer says: 'I had a case this morning; my client was rich; first time he was ever arrested, and he was furious with indignation and vowed he would spend hundreds of dollars. The charge was a technical violation of the sanitary law. He was guilty, however. In my argument I contended for his innocence. If this court does not do my client justice Humar there is another court that will. nature is not dead in a judge, and if my client were innocent, this defiance would cause his conviction. He was fined and we appealed. I got two cases, two fees, see, and the old man thinks I am a hero. Do you smoke? Come on."

Oh, What an Awful Breath! There is nothing more healthful than mions. The trouble is that persons are afraid to eat them because they make the breath unfragrant. But there is a less fragrant breath than that freighted with onions. We mean the breathe of a per-son with a foul stomach. Take him away! we inwardly cry when he whispers in our ear. Do see that your breath is pure, Take a few BRANDRETH'S PILLS and regulate your liver, stomach and bowels and your breath will be sweet.

OMAHA WHOLESALE MARKETS General Produce.

Saturday, March 5. The following prices are for round lots of produce, as sold on the market to-any. The quotations on fruits represent the prices at which outside orders are filled.

BUTTER-The receipts of butter are heavy and at the same time the demand is light and stocks are accumulating. The proportion of the receipts that can be graded as choice is very small. The great bulk of the receipts is poor, and slow sale. As the warm weather is approaching, it will be necessary for shippers to give more attention to the manner in which they pack their butter for shipment. The retail grocers will only buy the best butter, and the appearance of the packages has much to do with selling it. An

packages has much to do with selling it. An occasional package of fancy butter sells at better prices than those quoted below. Choice country, 15@16c; fair to good, 12@14c; common, 5@10c.

EGGS—There has been a very noticeable decline in the egg market since last week. The receipts last week were light and the market firm, reaching 16c in some instances. This week the receipts have been very liberal, and the market accordingly lower, the bulk of the stock moving at 12@12\frac{1}{2}c. Notwithstanding the heavy receipts the market is well cleaned up and there is very little surplus stock on hand.

is well cleaned up and there is very little surplus stock on hand.

CHERSE—Full cream cheddars, single, 14c; full cream flats, twins, 14c; Young Americas, 1444@144c; fancy Swiss, 16@17c; Swiss imported, 25c; Limburger, 13c; brick, 15@16c.

Dhessed Poultry—The poultry market has been devoid of any especially new features this week, the condition of the market being very nearly the same as last week. The receipts of chickens are about equal to the demand and the market steady at 8c for good stock, with an occasional sale at 9c for good stock, with an occasional sale at \$\circ{c}\$ for very nice stock. The demand for turkeys continues light, but the receipts have not been very heavy during the past few days. The bulk of the stock is selling at \$\circ{a}{2}\text{9e}\$. Geese and ducks sell, in a small way, all the way from \$\circ{a}{2}\text{0} \text{0} \te

GAME—There has been no game in this week, it being too early in the season for ducks and geese, and too late for other kinds POTATOES—There have been a few home-

POTATOES—There have been a few homegrown in this week, which sold fairly well. The demand for good home-grown stock is good, but poor quality stock has to be worked off at lower figures. In a few instances choice stock has been sold as high as 70c, but it would not be safe to regard that as the market. There is still a liberal supply of Colorado stock on the market which is very choice and sells well. Home grown, from store, small lots, 60:665c; Colorado, Rose, per bu., \$1.05@1.10; Snowflake, per bu., \$1.05.

CABBAGE—The market continues to be well supplied with good California stock. A car of Colorado stock has been received and is selling at the same prices as the California. California white cabbage, per lb., 3c; California, red, per lb., 3b₂c; Colorado, per lb., 3c.

APPLES—The market on apples is very firm and the supply light. One small consignment of choice stock sold readily on arrival at \$5.00 per bbl. Fancy stock is held at \$5.50 per bbl.

Vegetables—Onions are not plenty and

VEGETABLES-Onions are not plenty and vegetables—Omions are not plenty and prices are strong. The demand as usual is not heavy, but mostly for small lots. There are a few beets, carrots, parsnips and turnips on the market which are selling at \$1.75 at 2.00 per bbl. Onions, choice stock, per bbl. \$4.00a4.50. Beets, carrots, turnips, etc., per bbl. \$1.75a2.00.

S4.00@4.50. Beets, carrots, turnips, etc., per bbl. \$1.75@2.00.

Green Vegetables—The season for handling green vegetables has not fairly opened and there has been very little in this week, not enough, in fact, to hardly justify quotations being given. Top onions, per dozen bunches, 20@25c; celery, per dozen, 40 @55c; California celery, per dozen, \$1.00; cauliflower, per dozen, \$2.00; radishes, per dozen bunches, 40@45c.
