IFROM THE BEE'S LINCOLN BUREAU. The tide of emigration is setting into the state at an unprecedented rate the present spring and the B. & M. depot daily on the arrival of trains from the east is a veritable sea of surging people who, at this point of distribution, seek the different lines for localities in all sec-tions of the state. Trainmen on the different lines of railway declare that the impetus of spring travel has never before been one-half so large at this season of the year as the present time, and it is fairly phenomenal the rush of home seekers that are invading Nebraska. Prominent and old-time settlers of Lincoln state that never before have they seen the number of strangers and home seekers in the capital city as there are now, and it is an open secret with real estate men that more eastern cash and capital has reached Lincoln seeking investment the past thirty days than in the entire year previous. And yet the tide of emigration that annually sets in toward Nebraska has not commenced to run yet. When settled spring arrives thousands will come where hundreds came before. came before.

TRIED FOR ADULTERY.

Yesterday in the district court the trial of the case against Alonzo Bacon for adultery occupied the morning hour. The complaint against Bacon was made by his wife, Lizzie Bacon, who claimed her other half had deserted her in the fading

other half had deserted her in the fading days of the old year in December, and went to board at the two-room boarding house of one Minerva Brown, located on Y street. While a boarder at this place the wife of Bacon claims that he was un-duly intimate with a girl named Josie Sweeney. The evidence in the case was circumstantial but concise.

THE SMITH CASE.

As recited in yesterday's BEE, the young man named Smith, held by the authorities for grand larceny committed in Dakota, had a hearing in Judge Parker's court and was held without bail Yesterday his case came up in the dis-trict court in the shape of habeas corpus proceedings, and was given a hearing in the afternoon. Meanwhile Sheriff God-dard, of Fall River county, Dak., where the larceny was committed, has arrived in the city and is waiting requisition papers that are now making the tortuous papers that are now making the tortuous journey to Bismarck and return. The young man in custody is named C. B. Smith, and before coming here he lived some twenty miles from Buffalo Gap, Dak. The crime that he is charged with is, in connection with others, killing cattle on the range and converting the carcasses into food supply for their use. The hides and refuse of the cattle killed were found in an abandoned well on the place where Smith was stopping, and as he where Smith was stopping, and as he left that place between two days the sus-picion is strongly against him. The owner of the cattle destroyed is Harry Olrichs, who is stopping at the Paxton hotel, Omaha.

A SUIT FOR DAMAGES.

Among the recent suits filed in the district court is one brought by John M. Gillespie by his next friend, Valeria F. Gillespie, against the Lincoln street railway. The case is one for damages, the petition reciting that the said John M. Gillespie is a six-year-old child; that on the R street car line, in the vicinity of Seventeenth to Nineteenth street, he has been at divers times and occasions encouraged by the employes of the company to ride on the front platform of the cars, and that on one occasion, in the autumn of 1886, the child occasion, in the autumn of 1886, the child boarded a car as it was going down the decline and that the child was urged so to do by the company's employes. This time, however, the lad failed to catch the front platform but fell, and in falling the car wheels passed over one of his hands crushing it in such a manner as to crip-ple and disable and cause the lad serious trouble through life. The petition asks for \$5,000 damages and such other relief

as the court may adjudge correct. The case will undoubtedly be closely contested when it reaches trial.

Queer Method of Settling a Dispute, Houston, Texas, Post: A man by the name of Gibson, who lives in Falis county, went to Merlin and got full. He was arrested for drunkenness and the usual fine imposed by Mayor William Shelton. The man told the mayor that he had only a few dollars, and his family needed it very badly. He wanted to know if he could not submit to a whipping and be allowed to keep his money. The mayor told Mr. Gibson that his cost was \$3.70, and he would take that amount "out of his hide." "How many times will you strike me?" said Mr. Gibson. The mayor said ten. This was agreed upon, but Gibson refused to strip. His honor took a board, and bending Gibson over a chair, proceeded to take out his over a chair, proceeded to take out his costs. The city marshal then offered to take out his costs the same way, but Mr. Gibson said no, and paid up and went

Monkeys Working in the Hemp Fields, Richmond (Ky.) Special to the New York Times: J. B. Parkes, a substantial farmer living near Kingston, Madison county, has successful trained a force of seven large monkeys to work in his hemp fields, and to break and prepare the hemp for market. They do the work more quickly and better than negroes he formerly employed, and at about one-fourth the cost. It required about four months of patient work to train the animals, but they do their task with rare intelligence. The monkeys were sent to Mr. Parkes by a brother, who is in the business in Cape Town, South Africa, and who had seen the animals put to similar uses there. Mr. Parkes has sent for ten more of the useful imitators of human workmen, six of them to be used. human workmen, six of them to be used by John G. SUFFERED BY PREJUDICE.

Few persons realize how thoroughly they are controlled by prejudice even to their own disadvantage. For many years the treatment for rheumatism, neuralgia, sciatica and headach has been by some outward application, and therefore, without stop-ping to think that the origin of these trouples must, from necessity, be internal, the weary sufferer continues to rub, rub and find no relief. Athlophoros is taken inter-nally, and as a proof that this is the correct principle, it cures surely and quickly. The statement of those who have been cured ought to convince the incredulous.

Palmyra, Neb, August 3d, 1836.

I believe I have been greatly benefitted by Athlophoros. I keep it in the house all time, and if I feel a twinge of theumatism I take a dose. I have not had to take any for months, and hope I am permanently cured. I have not hesitated on recommending it largely and have helped others with it.

Mrs Geo Hoffman, Cedar Falls, Iowa, says: "My husband was cured of rheumatism by the use of Athlophoros. Three bottles of that medicine cured him entirely so that he has not had an ache from rheuma-

Doctors nor medicine could drive the disease away. With the sciatic rheumatism in his right side the doctors said he would always have it and they did not think there was any curc. He was suffering very much from a severe attack when Athlophoros took hold of the disease at once, and by the time he had taken three bottles he was entirely well and went to work at once

and consequently incurable. It is impossible to describe her sufferings. Her body from the crown of her head to the soles of her feet was a mass of decay, masses of flesh rotting off and leaving great cavities. Her fingers festered and three or four nails dropped off at one time. Her limbs contracted by the fearful ulceration, and for several years she did not leave her bed. Her weight was reduced from 125 to 60 lbs. Perhaps some faint idea of her condition can be gleased from the fact that three pounds of Cosmoline or ontiment were used per week in dressing her sores. Finally the physicians acknowledged their defeat by this Black Wolf, and commended the sufferer to her all-wise Creator.

Her husband hearing wonderful reports of the use of Swirr's Spacino (S. S. S.), prevailed on her to try it as a last resort. She began its use under protest, but soon found that her system was being relieved of the poison, as the sores assumed a red and healthy color, as though the blood was becoming pure and active. Mrs. Balley continued the S. S. until last February; every sore was healed; she discarded chair and crutches, and was for the first time in twelve years a well woman. Her husband, Mr. C. A.
