

LIFE INSURANCE STATISTICS

Figures Showing the Business Transacted By the Various Companies.

THE CO-OPERATIVE ASSESSMENT

A Statement Going to Show That People Have Some Object in Dying - A Loan Company Incorporated.

FROM THE BEE'S LINCOLN BUREAU.

The auditor of state has the figures all compiled for publication showing the business of life insurance companies for the year 1886. Judging from the cash invested by Nebraskans in deals after death, there are a great many who are laying by for rainy days and to make money by death if they fail in life.

From the reports of the co-operative companies and those working on the assessment plan the following figures are exhibited: Benevolent Union of Hastings, Neb.—Policies issued, 907; amount written, \$1,718,000; income, \$17,481.80; losses incurred, \$4,000.

Following direct in this line of companies comes the Beatrice Bonquet, with the following showing of business transacted and business discontinued during the year 1886. This is the Western Mutual Benevolent Association of Beatrice: Number of policies written in 1886, 2,496; number of policies discontinued in same time, 2,225; a net gain in policies of only 269, and this report was made before the Lincoln advisory board gave the concern a black eye and went back on it.

ARTICLES OF INCORPORATION of the Central Nebraska Loan and Trust company of North Platte, Neb., have been filed with the secretary, the purpose of the company being to transact a general loan business on real estate security.

ABOUT THE CITY. The barber who has been running the shop in the Capital hotel has taken his departure rather suddenly, and left his wife and adopted child in this city.

The regular weekly dance at the Metropolitan rink Thursday evening was as usual largely attended, but all was not peace and harmony according to reports, as the number of disturbances vary in count.

The State university has just graduated four new doctors to turn loose upon the public. The medical department of this school may be a grand thing, but it would be good for the people if the standards upon which physicians are manufactured, especially in the western country, was raised to something commensurate with the works required in colleges with in-

structors and alumni of more than local reputation. In the district court yesterday little business was transacted. Some testimony was taken in the case against Mrs. Shellenberger, the testimony being of a kind to help establish her good character previous to the time of her residence in Nebraska. This important case, however, will not be heard at the present term of court.

The board of regents have been holding an adjourned session, Messrs. Holmes and Hunt of the board being absent. Nothing of importance was transacted beyond the expulsion of a student in the medical school, which case occasions little regret.

The police court session yesterday was short and confined to the hearing of complaints against three intoxicated persons. The usual fines and costs were assessed.

Patti and the Jeweler.

Chicago Journal: An expert jeweler of this city tells me a characteristic story of Patti, who in the dynamic crank of San Francisco has tried to blow up. He says: I never had met Adelina Patti, and was surprised one morning a few years ago to receive a nice little billet doux from her asking me to call on her at the Palmer house. It was just after one of her most brilliant seasons of opera in New York, and I was not much surprised on being ushered into her presence to have her say that she had sent for me to look at her newest jewels. She had loads of them—lovely diamonds in all kinds of rich and unique settings—which had been presented her by these New York fellows in their desire to be known to her as admirers.

The Old and the New.

The old-style pill! Who does not know what agony they caused—what woe? You walked the floor, you groaned, you sighed. And felt such awful pain inside, and the next day you felt so weak you didn't want to move or speak.

California's Wine Hopes.

San Francisco Alta: The bouquet of our wines is simply unsurpassed. To get a fair idea of the wine industry of this county you must understand that it is really only a few years old. Santa Clara county was badly muddled with the old Mission grape, which continues to be an incubus on the wine industry of the state, and it was only after Napa and Sonoma counties had achieved such an astonishing success with choice varieties of foreign wine grapes that Santa Clara growers daily began to appreciate the possibilities of their own county.

To enrich and quicken the circulation of the blood, and to reform the irregularities of the system, use Dr. J. H. McLean's Strengthening Cordial and Blood Purifier.

The Capital's Clerical Venus.

Philadelphia Times: Of the 4,000 women who hold positions in the employ of the government at Washington, only one could be superlatively beautiful, and the honor of being that one belongs to a copyist in the navy department. It is said that she lives in the capital with her family, that she is the niece of the United States minister to England and that she receives a salary of \$900 per year.

The revenue collections yesterday amounted to \$3,135.40.
