A GIGANTIC BUSINESS.

The "Mutual Reserve" of New York is the wonder and marvel of the insurance world, its system is scientifically correct, and the insurance it affords is eagerly sought after by business public.

It has written a larger business in the United States during the past two years than any other company, reaching the enormous sum of \$7,047,000.00 during 1886.

The western department, under the able management of B. H. Robinson, general agent, has kept pace with the general results.

The annual statement just filed with the state auditor shows a grand record of \$2,313,500.00 written in Nebraska during the past year, or more than the combined business of the Old Line companies in the state.

The "Mutual Reserve" has about \$5,000,000.00 in force in Nebraska, and is rapidly increasing the amount upon the lives of our best citizens.

Mr. Robinson has lately been promoted as superintendent of agencies for the entire west, and agents of ability and experience will do well to consult him in reference to district and general agencies.

This company is now writing a large business in Iowa and the adjoining territory, and furnishes insurance at half of the Old Line rates.

Certificate of Publication. OFFICE, AUDITOR OF PUBLIC ACCOUNTS, STATE OF NEBRASKA.

LINCOLN, February 1st, 1887. It is hereby certified that the Mutual Reserve Fund Life Insurance Company of New York, in the State of New York, has complied with the insurance law of this state, and is authorized to transact this business of life insurance in this state for the current year.

Witness my hand and the seal of the Auditor of Public Accounts the day of February, A. D. 1887.

Is the sincerest flattery. Therefore, dealer who are now telling their customers that they have a gasoline stove just like the "Perfection," and an oven like the "Perfection," are simply advertising the "Perfection" stove. When the purchaser examines the "Perfection" they easily see its superiority over all competitors. The genuine "Perfection" stove and "Perfection" Asbestos-Lined Ovens are sold only by

The Several Advantages Of the American Gasoline Stove over its competitors are the simplicity of its burners and the compact form in which it is put together. The burner and all its parts are so constructed that leaks are impossible. The stove is provided with a patent safety lock which prevents any accident from carelessness or children.

The stove is entirely composed of steel. This stove is sold by A. M. McCargar, 410 N. 16th. He also handles the Favorite Coal Range, which is acknowledged to be one of the finest on the market. Cooks in stock a good line of Coal Cooks of the best manufacture. Remember, the place to buy Gasoline Stoves is at McCARGAR'S, 411 N. 16th.

HO! FOR SOUTH OMAHA!

Title Guaranteed by Midland Guarantee and Trust Co.

B. AND M. PARK ADDITION. \$75, \$50, \$50, \$50, \$50, \$50, \$75, \$75, \$50, \$50, \$50, \$50, \$57, \$75, \$50, \$50, \$50, \$75.

Something Surprising. The leading dailies of Omaha for the past week gave notice that certain property in South Omaha would shortly be placed on the market at prices that were heretofore unheard of.

We are now ready to state just what and where it is. This new addition lies just south and east of Albright's choice and is situated on the corner of Omaha Exchange building and packing house. Every foot of this land lies high, dry and level and is covered with a heavy growth of timber which would cut from 20 to 30 cords of cordwood to the acre. The main line of the B. & M. Railroad company runs in front of this land and a connection with the South Omaha branch has already been surveyed to their main branch, forming a junction close to the Park.

The owners of this property have decided to sell only a LIMITED number of these lots at \$50 each, \$75 for corners. This price is for the first day only, after which the prices will be \$100 and \$125 each. Terms are spot cash and for each purchase a warranty deed will be given. The land is free of encumbrance and the title has been guaranteed by the Midland Guarantee and Trust Co. and each purchaser can obtain a separate guarantee for their lots for the full amount paid by them. The prices at which these lots will be sold are less than adjoining property can be bought proportionately by the acre, and are fully as valuable as many lots that have been sold in South Omaha for in some instances ten times the amount asked for the same property.

In order to convince the public that these lots are no wild cat speculation, or other undesirable property, we propose to run a train of coaches to the Park and thus enable each one to see for themselves just what they are going to buy. We will give due notice of date and time at which we will start. The lots are full size, 50x125, with 16 foot streets and 10 foot alleys, and are all on these lots are offered in such a manner that those whose business interests are located in South Omaha and the packing houses to own their own homes at a trifling cost. And each first day purchaser will double his money, for, as before stated, prices will be advanced after first day's sales without fail. For plats and particulars apply to

Medical Books and Papers Free. Dr. McMenamy of the Omaha Medical and Surgical Institute has published a valuable set of books and papers upon chronic and surgical diseases and deformities, and the methods of cure, which have given him the reputation of being the most skillful and successful specialist in the west and made the Institute so celebrated that medicines are sent to and patients received from every state in the Union. Among the books are one upon diseases of women; one upon nervous, special and private diseases of the sexual and urinary organs; varicose veins cured by surgical operations, and their latest invented compress suspensory for the relief and cure of varicose, nervous exhaustion and sexual debility, new restorative treatment. Papers upon surgical braces, piles, cancers, paralysis, fits, electricity and the new magnetic battery for home use; catarrh and inhalation, etc. Unlike most books issued by doctors free, they do not consist of testimonials with fictitious names and initials, or rubbish of that kind, but are plain descriptions of diseases, symptoms, new discoveries in medicine, surgery and electricity, and are well worth the perusal, and can be obtained free by addressing the Omaha Medical and Surgical Institute, 13th street and Capitol avenue, Omaha, Neb.

Work on the Benson street railway was commenced yesterday. The engine in charge says he will have it ready for the cars in 30 days. It is understood that the Baldwin noisless motor will be used on this line. These motors are said to be as rapid and as easily controlled as a cable car. They are expensive, but from the manner in which Mr. Benson is pushing this and other improvements he is evidently not figuring very closely on expense, but looking to the permanent improvement of his property. Parties that have made purchases in Benson with a prospect of horse car line to it by next fall, will be agreeably surprised to see a noisless motor pulling cars to it by May 1.

N. B. FALCONER. 'A New Ticker Office. It will be a matter of general interest to the public to know that about the middle of this week the Missouri Pacific will open its own ticket office in this city, at 218 South 13th street.

In charge of Mr. Thomas F. Godfrey, well known as the former popular north-western traveling agent of the Missouri Pacific road. His assistant will be Mr. P. L. Gray, a traveling agent of the Missouri Pacific road, and well known to the Omaha public as a clever and courteous gentleman.

The Missouri Pacific is the best equipped of any of the western roads, and caters to its patrons in a manner that might be worthy the emulation of other roads. It has trains and close connections constitute its watchwords. Not content with putting on a fast train between Omaha and Kansas City, it has also contributed to the comfort of their patrons by running chair cars to the great pleasure of all travelers. At Atchison a buffet is attached and the tourist can eat his supper on route, and in place to the city at the Kaw's mouth. Omaha people know of the benefits to be derived from the Missouri Pacific. They recognize it as one of the most liberal corporations of the country, and they are inclined to patronize it. In this connection it will be generally known that the Missouri Pacific railroad has the contract for carrying the mails between Kansas City and Omaha, and that it has the contract for carrying the mails between Omaha and St. Louis. However, that which concerns us most is the new office at 218 South Thirteenth street, and the additional facilities afforded for patronizing the road between Omaha and Kansas City. All are to be congratulated on the new departure.
