CALLAWAY AND THE WABASH.

The Union Pacific Vice President Offered the Receivership.

HE WILL ACCEPT IF POSSIBLE.

Contemplated Condemnation of City Property For the Nebraska Central Railway Bridge Terminus-Elkhorn Right of Way.

Will He Accept?

A telegram was received last evening from Chicago, stating that it was reported there that S. R. Callaway, vicepresident of the Union Pacific, had been offered the receivership of the Wabash railroad system, to succeed Judge Cooley who has recently been appointed interstate railway commissioner.

Mr. Callaway was visited at his residence and was found in bed. He is convalescing from an illness of over a week. He stated that it was true that he had been tendered the receivership of the Wabash. As yet he had not replied, and he should not do so before to morrow. Neither had he resigned the vice-presi-dency of the Union Pacific. He was not in a position last night to say what his answer to the telegram offering him the receivership would be.

From the manner in which Mr. Callaway spoke, it is surmised that he will

The appointment as receiver for the Wabash railway lines east of the Mississippi river, to succeed Judge Cooley, was to-day offered to S. R. Callaway, general manager of the Union Pacific railway. General Wager Swayne, Messrs, Williams and Thompson, General George W. Smith and W. G. Beale had held a lengthy consultation and reported to Judge Gresham that all the parties in interest had agreed upon Callaway as eminently fitted for the position. Judge Gresham at once consented to make the appointment, and Mr. Callaway was telegraphed to at Omaha. He replied signifying his willingness to accept, but that he was afraid he could not do so at once. As Judge Cooley has to be in Washingtou on Monday on the inter-state commerce commission it is on the inter-state commerce commission it is necessary that the new receivor should qualify without delay. MOVING TOWARD BUSINESS.

The Nebraska Central Asks for the Condemnation of Property.

The Nebraska Central railway company, the reorganization of which the BEE reported yesterday, filed a petition In county court yesterday, before Judge McCulloch, for the appointment of appraisers upon the value of property in Omaha which the company desires to condemn for depot, side track and terminal bridge grounds. The realty which the company has designated as necessary for its purposes is as follows:

Blocks, 6, 26, 27, 28, 37, 38, 39, 62, 70, 94, and block D. This property is between Dodge and Webster streets, north and, south, and has something of a triangular shape with the base on California street, and block 6 tied on the outside. Fourteenth street will be the western boundary of the area, on block 26. The area is nearly eleven whole blocks.

In response to the request Judge Mc-Culloch immediately appointed the appraisers, who are John L. McCague, R. Kitchen, S. A. Orchard, C. H. Dewey, N. Shelton and S. A. Orchard. These gentlemen will qualify for their work on

As is understood, the land which is wanted by the reorganized Nebraska Central company, is for the purpose of affording territory enough to construct depot, round house and tracks which would naturally be needed at the termi-nal point of a bridge which will proba-bly be constructed from the Iowa side to a point just south of the smelting works, or between Dodge street and Capitol av-enue. This bridge, it is well understood, as well as the whole additional railroad improvements will become when com pleted the property of the Chicago, Mil-waukee & St. Paul. The western outlet of the road will be on Webster street, and thence west through the city into Nebraska about 150 miles.

No more satisfactory evidence of the probility of an early construction of the bridge could be given than these con demnation proceedings. The subsidy which will be asked by the Nebraska Central is stated to be \$150,000. The county commissioners are expected to issue a proclamation soon calling for an expression of the people, either at the general election or at a special election, upon the granting of this subsidy.
THE ELKHORN WANTS A RIGHT OF WAY.

Almost at the same time of the filing of the application of the Nebraska Cen-tral for appraisers to condemn the property that that company wants, the Fro-mont, Elkhorn & Missouri Valley company filed a like petition before Judge McCulloch for appraisement of a right of way into the city for its extension from Arlington. The route of the railroad is to be through blocks 3 and 5 of Brighton idition, west of Fort Omaha; thence to the southeast corner of the military res grounds; thence turning to the south and along the side of the bluff to the bottoms, where it will strike the right of way of the Chicago, St. Paul, Minneapolis & Omaha, which is a part of the same system, the North-western. When the Eikhorn Valley company first proposed to build to Omaha, there was a \$75,000 subsidy in connection with the proposal. Not recelving the encouragement in that direction which was desired, the company decided to build anyway. In the language of one of the officials: "If Omaha doesn't want to do anything for us, we will not bite off our nose to spite our face, but we shall go into the city unhampered by any obligations, and that is something."
The work of construction of the Elk

horn line to this city is being rapidly pushed. Three hundred men and teams are busy constructing grade and laying track about five miles from the city Trains direct from the Black Hills, Central Wyoming, and the great northwestern part of the state will soon be pulling into the Northwestern depot. Judge McCulloch appointed as ap-praisers of the land to be thus condemned for right of way, W. V. Morse, John Rush, Joseph Redman, J. E. Riley and A. R. Dufrene. THE U. P. ENGINEERS.

The committee of Union Pacific engi neers who have been in Omaha for the past five or six weeks left last night for their homes. Chairman Vrooman, of North Platte, will remain behind for a day or two.

MODJESKA IN FROU-FROU. If Modjeska was charming as Viola she was superb as Gilberte in Frou-Frou last night. In no other part could her genius be more effectually demonstrated or the qualities that make hes success be brought into stronger relief. As the young and frivolous wife, in whom there is manifested the undeveloped germ of a more exalted womanhood, Modjeska was simply delicious. Her half childish, half petulant and altogether bewitching moods made her seem a creature far more loyable than wayward. In the mock rehearsal with Barrymore, both were decidedly clever, and Modjeska displayed an unsuspected vein of comedy. In the scene with Louise, where her deeper emotions submerge the frivolous side of her nature, she was magnificent, Her acting at all times suggested an under current of suppressed emotion that served to intensify the effect of the climax. Chairman Smith of the American cup committee, got a letter from General Paine yesterday, saying that the Mayflower would go over to England to sail against Chamberlayne's Arrow for the queen's cup, if Chamberlayne's terms are reasonably fair to the giant center boarder. But if she goes she will return in ample time to enter the trial contests here.

Another Incandescent Light Co. G. W. Coster, of New York, agent for the Edison Incandescent Light company, has been in the city several days, endeavoring to secure the organization of a company for an incandescent electric light plant in Omaha, to cost \$250,000. He stated yesterday that he had reasons to believe that his efforts would be successful. As yet he was unable to give more information, but hoped that he would be able in three or four days to announce the filing of articles of incorporation, as well as to disclose the location of the works.

The real obstacle and, in fact, the only one of gravity, to the immediate organization of a company was that the gentle-men interested desired to see a practical illustration of the Edison light and to feel that popular appreciation of it would be

assured.

This movement is the outgrowth of the establishment of an incandescent plant in the Paxton hotel, which has been proceeding quietly under the supervision of Philip Suebel, superintendent of the Edison company, for several days. The hotel is all wired and the engine arrived yes-

FOUGHT FOR BLOOD.

A Rattling Mill Between Local Light Weights-Sporting Notes.

Omaha lovers of the art tistiana were treated to a rattling display of muscle and science in a private room in this city last night. The event was a fight between two local light weights, Jimmy Lindsay and Tommy Rooney. It was announced by the referee as a twelveround match with four-ounce gloves. Rooney proved to be about fifteen pounds lighter than Lindsay. Timekeeper and a referee were chosen and the fight proceeded.

In the first round Lindsay displayed good rushing tactics and at the first break knocked Rooney into a corner. Rooney recovered and rushed at his opponent, who dealt him a series of rattling uppercut blows. Rooney got the worst of these and came out with one eye battered up. He slashed in one or two straight arm blows which Lindsay

two straight arm blows which Lindsay took good naturedly. The round closed with everything in Lindsay's favor.

The second round was very much like the first. Rooney succeeded in landing a stomach blow or two but was promptly met by Lindsay with a sting-

ing upper cut slash every time.
Rooney was bleeding quite freely when time for the third round was called. Lindsay kept up his uppercutting tactics and battered up Rooney's face terribly so much so that it was literally recking with gore. Rooney, however, stood up to him in good shape and worked in several good straight arm blows. He won the admiration of every one by the game manner in which he took his punishment. At the close of the round he was blowing so freely that he could hardly see or breath. The fourth and fifth rounds were a mere repetition of the first two. Lindsay battered his man about just as he pleased, uppercutting him so viciously at times that Rooney was al-most lifted from his feet. At the end of the lifth round Rooney announced his willingness to quit, and the referee gave the fight to Lindsay.

Lindsay has improved much since his

CARTER CATERS TO SOCIALISM.

Sarsaparilla, is having a tremendous sale this season. Nearly everybody takes it. Try it yourself. General Demoralization Pervades the Democratic Ranks-The Labor Men Jubilant-What Joe Gruenhut Has to Say.

The Complication Increasing.

CHICAGO, April L.- Special Telegram to the BEE. - Harrison has turned traiter to the best interests of Chicago by declaring himself openly for socialism. The best element of his own party is disgusted. Citizens who care nothing for politics are dismayed. The committee of fifty has served its purpose. Mr. Hoffman took care that it contained very good men, too good to join with the rabble at the last hour in the hopeless scramble. But it also contained a few wily socialist politicians who, as predicted in these dispatches, dictated the final action. The members of the city central committee are averse to doing anything which may in the slightest way indicate an indersement of the labor ticket. They are alive to the disastrous effects of such action, and, tired of the long drawn out farce of trying to find candidates for the leading municipal offices, wish to wheel into line for Roche and

terior department and was this morning sent lionest goverement. Alderman Colvin, who has worked early and late to the commission. An examination of the letters led to the discovery that the most of them were applications for office under the to secure a democrat successor to the present board and that every state in the mayor, favors a declaration by the city cenunion had within its borders one or more persons desirous of official positions under the commission. A number of proposals from persons desiring to furnish the commission with permanent quarters were submitted and part of the day was spent in house hunting with a view of securing a permanent home for the board, the two rooms tral committee to that effect. He wants no compromise with the communistic elements of the city. A prominent employe at the city hall said to-day that two-thirds of the present employes will vote for the republican candidate if a decent democrat ticket is not secured, and shortly after this statement was made the last drop of gall was added to Harrison's overflowing cup by the appearance of a letter from City Collector Onahan, who was to be nominated for treasurer, declaring that he had made up his mind to vote for Mr. Roche sooner than see the city delivered over to the commune. permanent home for the board, the two rooms temporarily assigned to them being entirely insufficient. M. H. Smith, president of the Louisville & Nashville railroad, and James R. Ogden, commissioner of the southern as-sociated roads, presented a paper setting forth in substance that the lines north of the Ohio and west of the Mississippi rivers refuse after the inter-state commerce law goes

for Mr. Roche sooner than see the city de-livered over to the commune.

The socialists were in high glee all day on account of Harrison's outbreak and claim that now they have 40,000 votes pledged. Jos Gruenhut, one of their most influential workers, was particularly elated. To a reporter he said: "History is being made very fast just now. You see Chicago is a European colony. The masses are day laborers who do not own their business. Three hundred firms employ 150,000 workmen within ten miles of the city hall. It is distinctly a capitalistic city. Here the fight is to be made between labor and capital. They are now face to face and the time has come. Harrison is playing a peculiar part. nto effect to continue the contract joint rates with the lines south of the Ohio as they ex-isted prior to the enactment of the law, and asking that, in view of the competition which the southern roads have to meet with water transportation companies, that the long and short haul glause of the law be suslong and short haul clause of the law be suspended as far as it effects the roads they represent. It is claimed that if this be not done rates will have to be increased to the great injury of the railroads' industrial interests and the people of the south. The commission agreed to hear what Messrs. Smith and Ogden might have to say on the subject to-morrow and to hear any persons taking the opposite view on Tuesday next. At the same time it gave notice that the commission had no authority to hear and determine is to be made between labor and capital. They are now face to face and the time has come. Harrison is playing a peculiar part. He was never elected by the democrats. The socialists made him. He has been honest enough to at last acknowledge it. The tables have changed; the socialists have their own ticket. The democrats are asked to get out of the way. The mayor is in a place to help them and it has been done. The democrats will now return compliments by voting the socialistic ticket. This is the understanding and the present holders of appointive offices will not be disturbed. On Tuesday next all the wheel horses of the democracy will vote our ticket, knowing they will share the benefits. The campaign will cost them nething, and their old enemies, the republicans, will go down before the fusion ticket. Talk about the Irish. I tell you that the coercion bill is making Irishmen into wild socialists every day. We will carry every Irish ward in Chicago. By next Sunday the people may become desperate for fear of the socialists. Citizens may rise up in a day and compel all party lines to be dropped and demand a union of all citizens to defeat the socialists. If they become alarmed at the commune they may do it. This is a contest between the American commune and capital. It is irresistible."

This man Gruenhut has been for several years drawing a salary of \$2,000 per annum as a "tenement inspector" for the city and it is notorious that his hardest work has been had no authority to hear and determine questions arising under the law prior to April 5. The commission have not selected any of its employes and say that great care and circumspection will be required in their selection because of the smallness of the appropriation for cierical hire. An effort was made by reputable demo-crats after the Haymarket riot to have him The managers of the united labor party have tried for several days past to convince people that they had no socialistic candidates on their ticket, although they could not deny that the bulk of their votes were expected from that party. Their efforts were all spoiled last night by the speech made by Mat Schmeidinger, their candidate for an impor-tant city office, who, in a campaign speech, allowed his enthusiasm to carry him away. allowed his enthusiasm to carry him away. He said: "When we have elected our men, then will come the tug of war. Then the old tyrants, our long-time masters, by any and every excuse and subterfuge, will keep us out of our rights. They will exhaust the technicalities of the law to prevent the seating of our men. I, in this place, tell them to beware. If they try to defraud us of the election, as they have for so many years past, we will arise in our might. We will carry fire, the bullet and the halter to the doors of the places erected by plunder. We will show them that we can use weapons of destruction to some pur-

plunder. We will show them that we can
use weapons of destruction to some purpose."

This was received with unbounded approval. The democrats, that is, the better
portion of them, are making desperate efforts
to save their party from utter disintegration.
Robert Nelson, the united labor candidate Robert Nelson, the united labor candidate for mayor, in a letter issued to-day says that he will, if elected, regard the office of mayor as a great and grave public trust. Efficiency will be his sole guide in making appointments to or removals from office, and property and the rights of the people will be protected and the laws enforced. "NEARLY CRAZED

with pain," is the sad cry of many a victim of rheumatism or neuraigia, and frequently other diseases, such as kidney and liver complaints, are directly traceable to rheu-matism or neuralgia. These diseases for some unexplainable reason, are rapidly increasing, and in many instances are the direct cause of much sickness which so hides its real origin as to be mistaken for other diseases. In curing rheumatism neuralgia, sick beadache, and in many cases of kidney and liver troubles, Athlophoros has wrought wonders. Those who have used it are best qualified to speak of its merits.

Rev. L. B. Senter, Morse, Kansas, says-'About two years ago, my daughter-in law was taken with a severe attack of rheumatism. She could not turn herself in bed. I sent her one bottle of Athlophoros, and by the time one half was used she was free from all pain, and has had no return of the trouble since. It has also been of Henry Martin, Muscatine, Iowa, says, "I did have rheumatism very badly until I used Athlophoros, which has completely cured me. For several years there would be

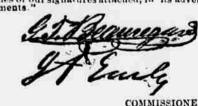

great benefit to my wife in neuralgia. certain times that I could invariably look for a severe attack of rheumatism, which would confine me ta the house for a week at a time. I was suffering from a vory severe attack in my arms and had been confined to the house for a week at the time I used Athlophoros. The first two doses seemed to go right to the seat of the pain; my relief was simply wonderful after I had taken two doses of the medicine. After had used one bottls my pain was all gone,I had free use of my arms so that I went back to work. I have not felt my rheuma-tism since and have not lost an hour's work

Every druggist should keep Athlophoros and Athlophoros Pills, but where they cannot be bought of the druggist the Athlophoros Co., 122 Wall st., New York, will send either, carriage paid, on receipt of regular price, which is \$1 per bottle for Athlophoros and 50c for the

Cancer of the Tongue. Cancer of the Tongue.

My wife, some three or four years ago, was frombled with an ulcer on the side of her tongue near the throat. The pain was incessant, causing loss of sleep and producing great nervous prostration. Accompanying that trouble was theumatism. It had passed from the shoulders and centered in the wrist of one hand, she almost losing the use of it. Between the suffering of the two, life had grown burdensome. By the use of a half dozen small-sized bottles of Swif's Specific, she was entirely relieved and restored to health. This was three years ago, and there has been no return of the discess.
