fifteen men instead of twelve, as hereto-fore, and the office of chief is created, who has all charge of the department except in restrictions held by the mayor

and council. A new ordinance was pre-

sented in the council last evening which prescribes the duties, salaries and rules

under the new charter and to conform

to its provisions. The ordinance, in the

way of salaries, provides an increase which undoubtedly is a move in the right

direction and will secure services of com-

ordinance provides a salary of \$1,300 per year for the chief, \$75 per month for the assistant chief, \$65 per month for cap-tains, and \$60 per month for the men. Considering the duties and dangers in

the work these figures are not regarded as at all high in securing good members. The rules adopted for the government of the department are voluminous, making the boys keep en-

tirely out of politics and holding them strictly to business. One rule provides that any member injured at fires while on

duty shall draw twelve months pay thereafter if the injuries unfit him for duty. A good deal of discussion has been had over the rule insisted upon by Mayor Sawyer in regard to total abstinence, and the rule has been adopted and the boys are agreeing to it with the rest without division. The rule is as follows:

No member of the department shall enforce

No member of the department shall enter any gambling house, house of ill-fame or saloon or lotter or remain about any place where intoxicating liquors are kept. All members shall abstain from the use of intoxicating liquors in the city of Lincoln while a member of the department.

East Lincoln people are very anxious that the fire department be increased

sufficient to give them a chemical engine, and such recommendation will be incor-

porated in the report of Chief Newburry that will be presented to the councils at

were arrayed before the judge awaiting a hearing. Ten of these parties were tramps who had been rounded in the day before, and their cases were speedily disposed of with a fine of \$25 and costs each, all of them being committed to work their fines upon the street. Two plain drunks received \$10 each and costs

and the remainder of the morning hour was occupied in the cases of some juve-nile offenders who were candidates for

some attention. There were three of these lads and from their stories they

were only a portion of a crowd of six

or eight boys who are organized for petty thieving. Some of the lads showed

a hardihood over their unpleasant situa-tion that would make the oldest offender

jealous of the show of indifference. After hearing their explanations, the judge made out the necessary documents turn

ing the offenders over to the county court as proper candidates for the re-form school.

A SUIT FOR DAMAGES.

Martin O'Connor, a laboring man, has sued the Neoraska stock yards company

for \$10,000 damages, sustained by receiving a broken leg and other injuries by the caving in of a ditch at the yards last winter. The papers in the case were filed yesterday in the district court and the case will be on for hearing at the coming term-

Books. "It is not difficult to find ample evidence

of a wonderful immigration to Omaha,"

remarked a new-comer yesterday. The fact that house building is going on in every quarter of the city and yet to

secure a house is almost an impossibility, is one of the proofs. I have answered

several notices of houses to rent and in

every instance but one, all had been taken previous to my arrival. I do not know but what this is a good thing for both Omaha and the people

who come here. The difficulty in secur-ing a house will prompt the new comer

to buy a lot and build on one of his own, an end I notice not difficult to accomplish

nere, as the energetic young man with a

imited purse can easily secure a home

SOLID MEN BACK THE SCHEME

A New Branch of the B. & M .- The Western Salt Association Organized-New Notaries Commissioned-Lincoln News.

FROM THE BEE'S LINCOLN BUREAU.

Yesterday a new boom struck the capital city in the way of a cable line street railway that is backed, as shown by the papers incorporating it, by Thomas Sewell, John H. Ames, A. D. Kitchen, J. H. McMurtry, W. H. Wilson, John Zering and John J. Gillilan as incorporators. There has been but very little talk of a cable line at the present time, or year, in Lincoln, and as a consequence the initiative steps are regarded with a good deal of surprise and with a great many prophesies as to whether, in reality, a cable line was a certainty for the capital city, or whether it was to rest entirely on paper. One of the incorporators, in speaking of the matter, said that the line would be built; that the parties interested had been considering the feasibility of or-ganizing for some time, and had done so, only after giving the entire subject a careful study in all its practical phases. The articles, as seems to be customary, recite a very large territory to cover and a franchise for the new company will be a step taken immediately. In the articles incorporating it is stated that "the termini of said lines and the streets over and upon which the line will be con structed, shall be fixed at the several rail wily depots, the intersection of Tenth and P, at Tenth and N, at Tweifth and N, at West Lincoln, the Nebraska association grounds, at the Weslyean university, at Wyuka cemetery, the state penitentiary, the hospital for the insane. Other term inal points are mentioned as discretionary and power is asked to construct lines

on all the streets of the city."

This cable line incorporates with a capital stock of \$500,000 and the company makes a proviso that when \$150,000 is subscribed that the company may be regarded as complete for the commencement of business. To proceed to business at once, the articles specify that the first three named of the incorporators are constitutional commissioners to open the books for subscription and the names of Messrs. Sewell, Ames and Kitchen are a certainty that the books will be opened A NEW RAILROAD.

Articles incorporating the Republican Valley & Wyoming railroad were filed at the secretary of state's office yesterday. This is a new branch of the B. & M. railroad that has its initial point at the town of Culbertson, Hitchcock county. The road is to run in a northwesterly direction from that point through the counties of Hitchcock, Hayes and Chase to the Colorado line. It is presumable that this is the new line to Cheyenne and that articles incorporating in Colorado and Wyoming will be filed in conjunction with these. The principal place of business of this new line is located at Culbertson, Hitchcock county, subject to change by the directors to any other point in the state if they desire. The capital stock is state if they desire. The capital stock is fixed at \$1,400,000, in shares of \$100 each. The company is to commence business when \$140,000 of the stock is subscribed. The following board of seven directors have their signatures affixed to the articles: G. W. Holdrege, C. D. Dorman, C. J. Greene, J. G. Taylor, P. S. Eustis, Thomas Miller and William A. Higgins, The WESTERN SALT ASSOCIATION.

AN EXCELLENT JUDGE

Of clothing remarked last week that our prices were too low. Maybe they are. The cheapness of some of our goods make buyers suspect the qualities. The secret s our stock is all new, bought very low, and we can sell cheaper than others, besides we want to build up a large trade, and are therefore offering extra inducements. A glance atour show window will give you an idea how we sell goods. Step into the store and examine quality and make of the garments; you will not be urged to buy. Prices are marked plain on the goods and there is only one unalterable price for all--no deviation--the poor est judge can buy as safe as the best. If you can find other garments better made or cheaper elsewhere, bring ours back and the money will be refunded to you.

Our Furnishing department is well stocked and prices throughout equally low. We mention today, particularly, our line of medium and light weight Underwear in all colors and all grades.

We will present, this week to each customer, in our Boys' and Childrens' department, with a handsome set of dominos.
