#### LINCOLN MUNICIPAL MATTERS

Statement of Business Transacted at the Last Council Meeting.

LEVYING AN OCCUPATION TAX.

Lieutenant Dudley to Be Retained at the University-Points From the Penitentiary-State Capital Happenings.

IFROM THE BEE'S LINCOLN BUREAU.! There was a large amount of business transacted at the meeting of the city council Monday evening, much of which is of direct interest to the taxpayers. The financial exhibit for the year ending April 1 was made, which showed that the city had received \$139,773.03 and dis-Dursed all but the sum of \$14,354.07. This is exclusive of the school fund, which showed in itself a total receipt of \$69,-DS4.69, of which there remains an unexpended balance of \$3,876.62. Over onethird of this fund was secured by licenses, the receipts under this head being \$29,279, and the fines from police court added the neat sum of \$4,149 to the total amount. A step that has been contemplated to increase the revenues for the city for general purposes, through the levying of an occupation tax, was brought to the front in the shape of an occupation fax ordinance which is levied against sa-Ioon keepers and druggists, providing that each and all such shall pay an anmual tax of \$500 into the city treasury as an occupation tax. A good deal of opposition is manifesting itself against this and it will undoubtedly awaken a lively discussion among those directly in-terested. There are those also who doubt the oropriety of levying a tax of that amount upon a druggist, which, in the view of many, will drive them into a hidden prescription case trade to even up the tax. An ordinance passed making streets in additions conform to streets in the city will meet with general approval, as will also the steps taken for a special election on water bonds and the granting of a cable street railway fran-

ADDITIONAL STATE PRINTING.

The state board of printing were busy yesterday figuring on the results of spir-ted bidding for the printing of revenue books, blanks, record books, stationery, etc., required by the state. The State Journal was the successful competitor, getting work for \$6,000 that cost the state a year ago some twenty-two thousand.
There was blood in the contest but none med, and the defeated competitors seemed pleased that they were left, considering the prices that the work went for. It is another cheap lob for the

now stated that the lecture will be at the
opera house on the evening of May 7

The Baptist university project is continuing to attract a great deal of attention among public spirited citizens and

work to that end.

A New Enterprise.

FRANKLIN, Neb., April 22. -[Corre spondence of the BEE.]-The move of the academy at Franklin in founding a conservatory of music is hailed with delight here. Prof. J. M. Blose, who has been called to its directory, is the wellknown author of the popular "Twenty-Third Psalm," published by North & Co., of Philadelphia, and used in leading con ventions of the east. He is a superb master of the violin, and has come to be regarded as a musical genius on all kinds of wind and string instruments. For four years Prof. Blose has been director of the Waynesburg conservatory of music, and his exhibitions are said to have equaled the finest cathedral music of the cities. The work of Prof. Blose has met the approbation of the Cincinnati school of music, the Oberlin conservatory and of the musical public throughout the country. His methods of teaching are his

own, and do away with many mysteries connected with older metnods. Such enterprises are welcomed here in the west, where the busy cares of settlement have prevented the cultivation of the higher, sesthetic arts. There is no reason why Nebraska should not nourish musical talent as well as any state in the union. Genius in any line will find good soil in Nebraska,

Matters at McCook.

McCook, Neb., April 22 .- [Correspondence of the BEE. ]-The B. & M. is making an addition to the roundhouse here and also to side tracks.

A great deal of satisfaction is expressed here among the citizens in general and the lawyers in particular, at the appointment of Mr. Cochran as judge of the Eleventh district. Mr. Cochran is one of McCook's old settlers, and one of the finest lawers in southwestern Nebraska, Judge Cochran will hold court at the usual time in this district.

The members of the McCook Gun Club are making preparations to entertain the members of the Western Nebraska the Western Nebraska Sportsmans association on June 7 to 11 inclusive, when there will be five days in which "black birds" will suffer. There will be 5,000 live birds, and purses will range from \$75 to \$500. A hearty welcome will be extended to all visiting sportsmen.

DROPPED FROM THE CLOUDS. A Constable Finds a Gar Fish at His Feet.

George Karl, the weli-known constable of this city, had a queer experience Monday afternoon. As he relates it himself, he was standing near the corner of Tenth and Howard, talking with two or three friends, when a large fish came whizzing past his face and dropped on his toes. When he recovered from his astonishment sufficiently, he picked it up and found it to be of the gar species, and about ten inches in length. It was badly bruised and dead of course. Mr. Karl declares that it was dropped to him from the clouds for the purpose of furnishing

him one more good meal at least.

Certain sceptical persons are inclined to cast doubt upon this little adventure of Mr. Karl's and say that the fish was a species of the "snakes." Mr. K. regards with scorn any such insinuations. As two other gentlemen were present when the affair occurred, and can vouch for it, the story is to be given all credit.

A HORRIBLE DEATH.

Another Victim of the Elevator at N. K. Fairbank's Yesterday Afternoon. Yesterday afternoon at 2:30 o'clock a young man named George Burnell, the ten der of the elevator at N. K. Fairbank's lard refinery, near Boyd's packing house, met with a horrible death. He lay upon the floor of the elevator and reached forward into the space between the floor of the third story of the building and an elevator landing about three feet above. While in this position the ele-vator started upward and the young man was caught between the floor of the latter and the landing above. He was crushed into a space of about three inches. When the elevator was stopped, blood oozed from the mouth and ears of the un-fortunate. He was taken out of his po-sition unconscious, with his face black as

an African's. Dr. Darrow was called and found the pulse beating feebly. He administered several hypodermic injections, but before he had concluded death, had taken place. The ribs and breast bone were broken and pressed in upon the lungs, causing internal hemorrhage. Burnell lived on Cherry street near the refinery. He was the last of six children who have died in thefamily, and the mother who was tke building, though not permitted to see her boy, was wild with grief. The father is a teamster.

Training for Laurels.

The Omaha Turn verein has begun practice for the next annual turn-fest, which is to take place in Topeka on the 7th and 8th of next June. The success which attended the verein in the fest at St. Joe last year, in which they carried off nearly all the laurels, has stimulated the society to systematic and well-directed effort to repeat the business at Topeka. Omaha was the leading city among all those represented, and many of the leading Germans are disposed to see that she is so this year. To help defray the expenses of the verein, the members will give a grand athletic entertainment in Boyd's on May 8.

Sick Headache, and a sensation of oppression and dullness in the head, are very commonly produced by indigestion: morbid despondency, irritability and over sensitiveness of the nerves may, in a majority of cases, be traced to the same cause. Dr. J. H. McLeans Liver and Kidney Balm and Pillets will positively cure.

Adolph Rosenthal, a gentleman well known in Omaha, the brother of Mr. Abe Mandelburg, is now in Hong Kong, China. He went to that city to study the Chinese language. Mr. Rosenthal, who has been practicing law in San Francisco, has a large practice among the Chinese there, and in order to better attend to this practice he has determined to master, as far as possible, the Mongolian tongue.

## AN EXCELLENT JUDGE

Of clothing remarked last week that our prices were too low. Maybe they are. The cheapness of some of our goods make buyers suspect the qualities. The secret is our stock is all new, bought very low, and we can sell cheaper than others, besides we want to build up a large trade, and are therefore offering extra inducements. A glance atour show window will give you an idea how we sell goods. Step into the store and examine quality and make of the garments: you will not be urged to buy. Prices are marked plain on the goods and there is only one unalterable price for all-no deviation-the poor est judge can buy as safe as the best. If you can find other garments better made or cheaper elsewhere, bring ours back and the money will be refunded to you.

Our Furnishing department is well stocked and prices throughout equally low. We mention today, particularly, our line of medium and light weight Underwear in all colors and all grades.

We will present, this week to each customer, in our Boys' and Childrens' department, with a handsome set of dominos.

All goods marked in plain figures and at one price.
