CHANGES FROM MAY TO JUNE.

Enormous Quantities of Wheat Changed Over Into the Latter Month.

THE DEAL THOUGHT TO BE OVER.

The Clique Said to Be Unable to Take Cash Wheat-Activity in Corn -A Sharp Rally in Provisions.

CHICAGO PRODUCE MARKET.

CHICAGO, April 29 .- | Special Telegram to the BEE.]-The difference between May and June wheat widened to 134@2c to-day and enormous quantities of grain were changed over, 136 being the basis upon which the most changing was done. There are men yet remaining who contend that the clique is only playing cunning in letting go its assortment of birds in the hand in order that it may gather in a bigger crop of June shorts. But the bankers make no secret of the fact that they would not accommodate the partles claiming to represent the "man in the air" with anything like the amount of money applied for, and that up to the hour of writing no vast amounts from outside points had been received. This is accepted by the generality of people as an open evidence of weakness and the "man in the air" will enter the new month with a total loss of prestige, or the signs are at fault. The changing over of May wheat into June was the principal occupation of brokers in the wheat pit today and private arrangements to the same end were entered into between principals outside the pit. The Orr-Hutchinson Joliet wheat (1,000,000 bushels) was changed over on a basis of 136c, and other country lines were similarly handled. A large business was done in Ma June and July, and several times during the morning local operators attempted without success to raid the market by attacking June. The opening range of prices was 801/c for May and 82%c for June and July. May easied off to 80%c, Chicago, April 29.—Following quotamarket turned up and thereafter values ruled

CHICAGO LIVE STOCK.

CHICAGO, April 29.--|Special Telegram to the BEE.]-CATTLE-To-day's supply was moderate. The receipts of the week were about 5,500 heavier than last and the propor-tion of good native beeves has been larger, as there was no such run of Texas stock as we had last week. The market to-day was somewhat uneven, but prices were 5@10c higher on the average, the advance being principally on light and medium weights of good quality. Business was active and the supply was well cleared, the market closing strong. Hoos—Business was active and values a shade stronger, in some instances a good nickel higher. FINANCIAL

NEW YORK, April 29.—[Special Telegram to the Bre.!—Stocks.—The stock market was only moderately active to-day, but prices on the whole showed an advancing tendency. Northwestern led the list early in the day with an advance of about 1 per cent. The talk in regard to it was that westerners were buying on the expectation of a very favorable statement at the end of the fiscal year. Director Fairbanks was quoted as saying that the road would show a surplus for the year of \$200,000. Cottonseed oil gained 2 per cent on the dissolution of the injunction recently obtained at New Orleans against the company. Gould and Sage were said to be inclined to advise the purchases of all good stocks for at least a 5 point raise during

May. Arbitrage people, it was claimed, showed little disposition to market their holdings on any raid, and while it was conceded that the conditions of the railroads were not so prosperous as some enthusiasts were inclined to believe, it was thought that the ill effects of the inter-state law would not be felt after a very short time, "Fancies' attracted more than the usual amount of attention. Colorado coal gained 1% per cent, advancing to 49. About noon a bull interview with Jay Gould was published, in which he stated that the Missouri Pacific's earnings since January 1 had increased \$3,000,000. The effect of Gould's utterances No. Av. Pr. was to entirely change the character of the market. Gould stocks moved up and were 37...1407 4.15 36...1447 4.20 quickly followed by a sharp advance in some of the fancy stocks. Fort Worth & Denver gained 3 per cent, and Colorado coal 2 per cent. The trunk lines and grangers were especially active and higher, closing at the top prices for the day. The total sales were about 200,000 shares. GOVERNMENTS-Government bonds were
