The business men's club met last evening at the Ogden house and adjourned to meet Tuesday night to perfect organization.

Annie Christanson, the unfortunate girl from Dakota, of whom mention was made a few days ago, has gone to Omaha. There was no place here for her, where she could be cared for during her coming trouble and illness.

The Evening Herald has presented another picture, showing Council Bluffs, with fine buildings but no people on the streets. It has accepted kindly the Bee's criticism, and says that hereafter its pictures will show Council Bluffs as it is.

With people plenty on the sidewalks, and numerous teams on the streets, the artist promises a reform in this respect.

At 1:30 o'clock this afternoon Rev. Dr. Frederick William Dahmann, of the Evangelical church of Germany, will preach at the Emanuel church on Nineteenth and Cass streets. The doctor will take his text from Luke 19th, v. 1-11. There is no organized Evangelical church in this city, and it is the purpose of Dr. Dahmann to congregate the many of that faith in Omaha into one body and erect a commodious church.

Mrs. Katherine Guinea died at the Emmet house Friday night. She was taken with a congestive chill on Tuesday last and sank rapidly. She was aged twenty-eight years and leaves a husband and two children. Mr. Guinea is a switchman of the Union Pacific, and has the tenderest sympathy of his fellow employees. The remains will be taken to New London to-day for interment there.

The ladies musical society of this city and Omaha will give a concert in the Presbyterian church on May 12th. A fine programme is being arranged. The ladies choral society, with Naham Franko as director will make their first public appearance. Among those who are to assist are the Misses Merkel and Pusey, Messrs. Hingham, Wilkins, DeNormandie, of Omaha, T. Myron, of this city and Hypes, of Chicago.

The girl Annie Christenson, who is in such a delicate condition, and who has come to this city from Dakota, not being able to find a place to stay during her expected illness and having been refused admission to either the Cottage hospital or Home of the Friendless, yesterday went over to Omaha. But being unable to find a place there to stay returned to this city last night and applied at the house of Officer Unthank, who brought her to the city jail, where she will remain until some more suitable place can be found.

The city council will to-morrow night probably decide something about the fire alarm, and perhaps fix on a date for a formal test. The other night the circuit was suddenly and mysteriously broken, and when the boys hunted for the break the next morning, it was not found, and the circuit was all right. There are numerous little pranks in which the system seems to be indulging, but yet without any of the boxes are tried by the officials, they seem to come in all right. The city will be thoroughly satisfied before the alarm is accepted and paid for.

The rector of Saint Paul's church has marked out a busy week for himself and his congregation. On Monday evening at 8 p. m. (to-morrow) he will give an "instruction" in the church on "The Distinctive Features of the Church," Wednesday evening the Rev. W. O. Pearson of Omaha will preach. Thursday evening the Rev. Louis Zahner, rector of All Saints Church, Omaha, will preach, and Friday evening the bishop of the diocese will preach and confirm a most interesting class now in preparation for this apostolic rite. These services are free to all who may desire to attend.

Search was being made here yesterday for a foolish young woman, who has been living a life of shame. A young man who says he is desperately in love with her is the anxious searcher. He has written some very earnest letters, urging her to reform, as he has himself, and promising her that if she will do so he will take her to some city where she is not known and make her his bride. Some of his letters contain very good advice, and the young man is apparently in earnest. The girl does not seem to enthuse over the opportunity to thus change her mode of living, and has finally disappeared from the scenes which once knew her. The search here has not revealed her whereabouts, and the young man will have to look elsewhere.

Miss Mollie Coreoran, dressmaker, 714 Mynter street, between Seventh and Eighth.

Office of Mulholland & Co., removed to in under the Citizens' bank. Telephone No. 162. Leave your orders for ice.

A Close Game. Quite an interesting game of ball was played yesterday afternoon at the driving park, the contesting nines being the Kiplinger & Kiplinger club and that of the Deaf and Dumb institution. The game resulted in a victory for the Moore & Kiplinger club, the score being 20 to 21. There were many good plays made, and also many errors. W. Stephenson, of the M. & K. nine, and Pringle, of the D. & D. boys, doing exceptionally well.

The following list shows the players and their positions.

Table with 4 columns: Name, Position, Club, and other details.

Take a ride over the Lake Manawa railway line, then go to F. J. Day's office and buy an acre or a lot along or near the line. It will make you money.

THE NEWS FROM THE BLUFFS.

The New Hotel Project Moving Along With Flattering Prospects.

THE DISTRICT COURT.

The City's Expenses Running Low—Where and How to Worship To-day—A Young Man With too Many Pantalons—Personals.

The New Hotel.

The committee is meeting with much encouragement in the hotel project. There are many who do not realize that now is Council Bluffs' opportunity, but are willing to cheerfully contribute to the successful grasping of the opportunity. It is believed that there will be little difficulty in securing the needed money. As truthfully said at the meeting the other night, if Council Bluffs citizens continue to show their own faith in the city, outsiders will readily show their faith also by their works. To-morrow the committee will continue the work of solicitation. By a united and enthusiastic effort Council Bluffs will have its boom continue year in and year out. It remains for the citizens themselves to say whether this shall be so or not, and thus far they are responding enthusiastically in favor of the boom.

The Landlady's Grasp.

A young woman was yesterday seeking to get some relief from the grasp of a landlady's claim. She had some time ago leased rooms for six months, but after occupying them for three months and paying her rent promptly, she gave them up and went to Omaha. She stored her household goods here, and yesterday she came over to see about getting them. She found that the landlady had an attachment and was holding the goods for the three months rent, in accordance with the lease, although she had not occupied the rooms during the last two months. The woman was in a delicate condition, and it is necessary for her to get settled in some place at once. She used most of her spare money in paying the storage on the goods, and she found that the other lady had to be settled before she could get her things. Such was the outline of the story she was telling to the other lady who had to help her out of the dilemma. She thought it was hard to have to pay for the time when she was not using the rooms, and in her condition, financially and physically, it seems hard, but it appears to have been nominated in the bond.

Shall We Clean for You?

Those thinking of cleaning house would do well to give us a call or send us a postal card, upon receipt of which we will call and explain our method of cleaning carpets, no matter what kind, without removal from the floor. We guarantee to take out every particle of dust, also to take out all spots: whether caused by grease or otherwise, and restore the colors and raise the nap, giving the carpet its original appearance. All this is done without taking up the carpet, or whether it be Ingrain, body Brussels, velvet, moquette or Axminster, and we guarantee all work. This method is new in the West and we refer with pleasure to those in this city who have had work done by us. This method causes no dust to arise and does away with the trouble and expense attached to taking up carpets, as well as the wear and injury in beating them. It is cheaper than any other method and much more satisfactory. G. A. FISHER.

Dummy Changes.

Beginning with to-day an extra "dummy" train will be put on between this city and Omaha. Mr. Wilcox, who has been train agent of the Union Pacific for several years, will go on now as one of the conductors, while the three others will be Messrs. Mack, Inlow, and Durr. Two conductors will be on duty on the morning runs, while two will be on the evening runs. A general change of time-table takes place and the trains will run direct from the Broadway depot in Council Bluffs through to South Omaha, the transfer and Omaha depots being simply way stations. The trains leave the Broadway depot as follows, daily, including Sundays: 6:40, 7:40, 8:40, 9:40, 10:40, 11:40 a. m., 12:40, 1:40, 2:40, 3:40, 4:50, 5:25, 6:30, 7:25, 9:08, 10:25, 11:55 p. m. DR. RICHARD'S Electric Bath Rooms and Office No. 607 Mynter St., Council Bluffs. One Square North of the P. O. Building.

Treatment and Baths Given Ladies by Mrs. Dr Richards on Tuesday, Thursday & Saturday.

Electricity is a remarkable natural agent which has long been known and utilized as a remedy for disease, and continued experience has enlarged its sphere of usefulness and improved its appliances by which it is employed until its utility and virtue has become second to no other known remedy, in the treatment of certain forms of disease. This agent is employed here in all its most serviceable forms, by the aid of large batteries, static machines, electric cabinet baths, electric water baths, the electric chair and electrodes for treating all parts of the body. We are prepared to do all that can be done with these great remedies. In cases of Rheumatism, Neuralgia, Paralysis, Spinal Irritation, Rectal Disease, Nervous Disease in females arising from Uterine disorders and many other chronic and subacute troubles, it stands at the head of all known remedies or methods of cure. A thorough study of it for years and the successful treatment of hundreds of cases, after all other remedies had failed, is sufficient evidence of its great worth and perfectly satisfied us with its good effects on the diseased body. In the great hospitals and dispensaries of America and Europe, electricity is leading all other methods of treatment. In all leading colleges the professors are teaching electricity as one of the potent remedies and a special chair is appointed in many of them. Many of the ablest physicians of all schools are making a specialty of electricity to the exclusion of almost everything else. This great remedy has often fallen into disrepute by being recommended and used by persons and physicians perfectly ignorant of its properties and powers, who would as often advise and use the wrong current at the right time or depend upon it in diseases for which it is not adapted. We are sure that when the people become educated in the use of electricity for many diseases with which the body is afflicted and find that the great god thereof, the medicine and patent righted nostrums upon which they now rely will grow old and find dust on the shelves. Electricity is nature's great remedy and to fully understand and skillfully apply it is our effort and aim in life. For further information call at the office or send for descriptive and illustrated pamphlet on Electricity and Electro-Therapeutic Baths, by DR. RICHARDS, 607 Mynter Street, Council Bluffs, Ia.
