

THE SUNDAY BEE. COUNCIL BLUFFS

OFFICE, NO. 12, PEARL STREET. Delivered by carrier in any part of the city at twenty cents per week. H. W. TILTON, Manager. TELEPHONES: BUSINESS OFFICE, No. 44. NIGHT EDITOR, No. 25.

MINOR MENTION.

N. Y. Plumbing Co. New spring goods at Reiter's, tailor. The city council meets to-morrow evening. Additional Council Bluffs news on the seventh page. The popular resort is the Manhattan, 418 Broadway, Rudio & Yeanine. Judge Carson yesterday granted Mrs. C. H. Smedes matrimonial freedom from Abraham Smedes. There will be no 1:40 o'clock "dummy" to-day. The trains leave at 12:40 and 2:40 o'clock as usual. The eighteen-year-old son of A. C. Snyder, of Persia, was drowned yesterday. This is the third son whom he has lost by accident. Joe Sargent, who was arrested for running a striking machine, is again behind the bars in the city jail. He has just got out of jail in Omaha, where he served forty-seven days. The district court had another interesting case to-day, involving an interesting case. The grand and petit juries will be at work this week, and criminal cases will be tried. A man named Burt, from Omaha, was here yesterday looking after a missing wife. Whether she had wandered off or gone with a handsome man, he could not tell. He had traced her as far as this city, and thought she must be somewhere here yet. Messrs. I. M. Treynor and S. C. Noble will assist the Misses Merkel in rendering "I Waited for the Lord," by Handel, at the Presbyterian church this morning. Mr. Treynor will also sing that beautiful solo, "Sing Ye Praise," by Mendelssohn. Isaac Weil, of St. Joe, and J. Kahn, of Chicago, yesterday leased the building No. 506 Broadway, for a clothing house. Mr. Weil is an ex-resident of this city, having erected the building now occupied by Rudio & Yeanine, and occupied the same from 1856 to 1869 as a clothing house. The new firm will be I. Weil & Co. The three young men who were fined \$10 each for disturbing the Salvation Army, have been committed to jail instead of paying cash. Yesterday the brother of one of them arrived in this city on a visit, having just served term in the penitentiary. He was quite surprised to find that his brother was behind the bars. If the meetings at Harmony Mission chapel continue to increase, the society will have to enlarge their building, but at present the ladies are busy raising means to pay for their lot. They will give another one of their pleasant socials at the chapel to-morrow evening. Music, recitations and refreshments for only 15 cents; children, 10 cents. All cordially invited. The report that Jesse McMahon had succeeded in Canada, seems to have no foundation beyond the imagination of some gossip. Charles Baughan, who recently returned from Kansas City, is said to have met McMahon several times, so that the report of his being in Canada, or of having made it with himself, can hardly be true. Justice Barnett yesterday officiated at the marriage of George S. Watkins, of this city, and Kate Cotton, of Defiance. The happy bridegroom wore a tuxedo in the conventional black, but in a blue shirt and his every day pantaloons, and bothered not with coat or vest. He will probably be just as happy and live as long. On Friday a painter who, from appearances, had evidently attended the policeman's ball the previous night, went to sleep on top of a step ladder on the porch of a Willow avenue residence. It was about 12:30 o'clock when suddenly a crash was heard and painter, step ladder and pot of paint landed in a pile on the porch. When the painter arose it was most impossible to distinguish his face from the back of his head, as he was covered entirely by the paint. It was a master stroke of crazy work.

Masonic. Regular communication of Excelsior Lodge No. 259, A. F. & A. M., Monday evening, May 9th. Installation of officers. Visiting brethren cordially invited. By order of the W. M. Lime, cement, plaster, hair, coal, etc. Council Bluffs Fuel company, No. 539 Broadway, telephone 136. Drs. Hanchett & Smith, office No. 12 Pearl st. Residence, 120 Fourth st. Telephone No. 10. Reserved seats at Bushnell's for the concert next Thursday, May 12. See amusement column for the programme of the concert by the Ladies' Musical Society.

The Building Association. For the convenience of the members of the Savings, Loan and Building association, I will be in my office hereafter from 8 to 9 a. m., from 1 to 3 p. m. and on the first Tuesday of each month during the entire day. D. W. Orris, Secy.

Cheap storage in either small or car-load lots at No. 24, 24 and 26 Pearl street, J. R. Snyder. Office of Mulholland & Co., removed to in under the Citizens' bank. Telephone No. 162. Leave your orders for ice.

A large party from Omaha are coming over to attend the concert at the Presbyterian church, given by the Ladies' Musical Society. J. G. Tipton has good houses to rent. Telephone 246. J. G. Tipton has a number of bargains in real estate property, and if you contemplate selecting a lot to build on, or a residence all ready to move into, you should not sleep away your chances, but call upon him at once before property advances.

Personal Paragraphs. O. J. King, of Corning is at the Pacific. C. H. Judson leaves to-night for a trip east. J. B. McGorisk, of Des Moines, is at the Pacific. Mrs. M. Barrett, of Dunlap, shopped here yesterday. Mayor George E. Cole, of Pacific Junction, visited the city yesterday. Benjamin & Askwith, of Avoca, have dissolved their law partnership. Ira Hendricks has gone in with E. C. Smith in the New York life insurance. Dr. H. A. Woodbury is home from Cedar Rapids, where he attended the meeting of the Dental association. Dr. Macrae is preparing a paper to present to the medical association, which meets in Sioux City on the 19th. He is chairman of the section on surgery. Sheriff Garrison, of Logan, was in the city yesterday. He reports that his jail is empty, not even one prisoner. This is the first time since he went into office that he had no boarders.

ALL ABOUT THE BLUFFS.

Another Move to Make Saloons Pay License So Long as They Run.

THE PUBLIC LIBRARY.

Steering Clear of Feverish Texas Cattle—Sermons and Services at the Churches—A Sensational Rumor About the Titles.

Must Pay License.

Although there are seventy-five saloons running in the city, holes in the wall, besides the well appointed bars, the city is getting no revenue from them, or has not been late. There are numerous gambling houses and houses of prostitution, but these have not of late been paying the usual revenue toward paying the expenses of the city. The mayor has evidently concluded that if these places are being allowed to do business, they should pay something into the city treasury. The police have of late been notifying the keepers of such places that they must pay or be closed up. There is no telling when the saloons now running will be closed, but so long as they do run they must pay, under the "pop" ordinance, the license being \$25 a month. In response to the notification a number of them have paid their license. It is understood that a move will be made by the city to close those who do not pay. An attempt is being made to force the gambling houses to pay. There is a "kick" from them. They say that if the saloons are closed their business is affected, and they cannot afford to pay as of old. They object to paying also on the ground that they do a like business, are not compelled to pay. They claim that it is just as much gambling to sell French pools and deal in combinations on base ball as to play faro. If such are not called on to pay \$25 or \$50 a month, then why should the saloons and pool tables be allowed to do so? There is also a little trouble in forcing payment, on account of the position taken by Judge Aylesworth. It is understood that he does not think the city has the right to collect the license or penalties from the gamblers under a city ordinance, so long as there is a state law which fixes the penalty for such offenses. The old way of procedure was for gamblers to put up money for their appearance at some future date, and this money was forfeited and went into the city treasury without any trial, and with no record made against the defendants. It is understood that Judge Aylesworth will not be a party any longer to this mode of securing a revenue. On the other hand it is claimed that the chief cause of this change in the judicial proceedings, is because the city insists on paying the judge in warrants instead of cash. He has it in his power to increase or diminish the cash receipts of the city to a great extent, and it seems that he does not propose to alter the circumstances, helping the city to increase its cash revenues by countenancing any such processes as have been heretofore in vogue. Some interesting questions will probably arise before the matter is settled. The city is limited in its power to levy a general fund tax, and the need of raising revenues from sources which cause additional expense to the city, seems urgent to the mayor and council. The date is drawing near when it is to be "put up or shut up," and if the city determines to close such places as do pay the required license, the move will be even quicker than that of private persons united in a prohibition club. With the prohibitionists and the city both at them it will be an up-hill task to continue business.

TEXAS CATTLE.

An Important Decision Rendered by Judge Shiras of the U. S. Court.

There was considerable excitement caused here two years ago, by the importation into Harrison county, of some Texas cattle, who were infected with the fever. Other cattle, natives, caught it. Many died. Two men, Ball and Finkham, were arrested, charged with having violated the section of the Iowa code, forbidding such importation. The question of the constitutionality of section 4058 was raised, and the men were discharged. Then civil suits were begun. P. C. Kimball sued them for \$5,000 damages. To the petition a demurrer was made, setting up the unconstitutionality of the section under which the suit was brought. Judge Shiras has just rendered a decision, overruling the demurrer, and in this Judge Love concurs. Flickinger Bros. are the attorneys for the plaintiff, and Sapp and Pusey for the defendants. The opinion is as follows: Sections 4058 and 4059 of the code of Iowa, in force in 1885, were as follows: Section 4058. "If any person bring into this state any Texas cattle, he shall be fined not exceeding \$1,000, or imprisoned in the county jail not exceeding thirty days, unless they have been wintered at least one winter north of the southern boundary of the state of Missouri or Kansas, provided that nothing herein contained shall be construed to prevent or make unlawful the transportation of such cattle through this state on railroads, or to prohibit the driving through any part of the state, or having in possession, of Texas cattle between the 1st day of November and the first day of April following." Section 4059. "If any person now or hereafter has in his possession, person or heretofore, such Texas cattle, he shall be liable for any penalties that may accrue from allowing said cattle to be driven through this state, or the disease among other cattle known as the Texas fever, and shall be punished as prescribed in the preceding chapter of the code. By an act of the legislature approved April 10, 1886, these sections were expressly repealed, and substitutes therefor were enacted. Defendants claim that the repeal of section 4058, without any saving clause, terminates the right to recover, the section being penal. Section 45 of the code provides that "the repeal of a statute does not affect any right which has accrued, any duty imposed, any penalty incurred, or any proceeding commenced, unless the contrary be expressly provided." Under the provisions of this section the rights of the parties are not affected by the repeal of section 4058. The argument of counsel for defendants in support of the demurrer is this: That the support of the proposition that sections 4058 and 4059 of the code are unconstitutional in that they are regulations of interstate commerce within the meaning given to that term in Railroad company vs. Huson, 15 U. S. 463. In that case, the supreme court had under consideration a statute of the state of Missouri, which absolutely prohibited the bringing into that state by any person, within the year any Texas, Mexican or Indian cattle with the proviso, that bringing such cattle into that state by the means of a steamship or by the means of a vessel not deemed a violation of the act, but that the transportation company should be liable for all damages caused by the communication of disease from such cattle. The supreme court held that "while they may pass sanitary laws, and may exercise the protection of life, liberty, health and property within its borders; while it may prevent persons and animals suffering under contagious or infectious diseases from entering the state, while for the purpose of self-protection it may establish quarantine and reasonable transportation laws, it may not interfere with transportation into or through the state, beyond what is absolutely necessary for its self-protection." The court held, that the restrictions and burdens placed by this act upon the transportation company was so onerous as to substantially prohibit interstate commerce in these cattle, and that therefore the act was void. That the restrictions of the Iowa statute in force in 1885, were less burdensome than

GARDEN HOSE, Steam, Gas and Water Pipe

NEW YORK PLUMBING COMPANY, No 552 Broadway. - Council Bluffs, Iowa

Mail Orders Shipped Promptly.

C. J. COLBY, Real Estate Broker and Dealer

House Cleaning is to be done by nearly all the ladies in the spring. Now is the right time to do this. For ladies, it is a disagreeable but unavoidable work, and we make the offer to do the most troublesome work of all, that is TO CLEAN THE CARPETS. We clean the carpets, velvets, moquettes, brussels, or any other kind of carpets, without taking them up. We guarantee THAT THE CARPET WILL BE PERFECTLY CLEAN, THAT THE COLORS ARE RESTORED, and that no dust will be left in the carpet. We guarantee our work and refer to prominent parties in this city. Send us a postal card and we will call upon you and explain in what way our cleaning takes place. G. A. FISHER, No. 623 Sixth Avenue, Council Bluffs.

ELECTRICITY!

DR. RICHARD'S Electric Bath Rooms and Office No. 607 Mynster St., Council Bluffs. One Square North of the P. O. Building.

Treatment and Baths Given Ladies by Mrs. Dr. Richards on Tuesday, Thursday & Saturday.

Electricity is a remarkable natural agent which has long been known and utilized as a remedy for disease and continued experience has enlarged its sphere of usefulness and improved its appliances by which it is employed until its utility and virtue has become second to no other known remedy, in the treatment of certain forms of disease. This agent is employed here in all its most serviceable forms, by the aid of large batteries, static machines, electric cabinet baths, electric water baths, the electric chair and electrodes for treating all parts of the body. We are prepared to do all that can be done with these great remedies. In cases of Rheumatism, Neuralgia, Paralysis, Spinal Irritation, Rectal Diseases, Nervous Diseases in females arising from Uterine disorders and many other chronic and subacute troubles, it stands at the head of all known remedies or methods of cure. A thorough study of it for years and the successful treatment of hundreds of cases, after all other remedies had failed, is sufficient evidence of its great worth and perfectly satisfies us with its good effects on the diseased body. In the great hospitals and sanitariums of America and Europe, electricity is leading all other methods of treatment. In all leading colleges the professors are teaching electricity as one of the potent remedies and a special chair is appointed in many of them. Many of the ablest physicians of all schools are making a specialty of electricity to the exclusion of almost everything else. This great remedy has often fallen into disrepute by being recommended and used by persons, and physicians, perfectly ignorant of its properties and powers, who would as often advise and use the wrong current as the right one or depend upon it in diseases for which it is not adapted. We are sure that when the people become educated in the use of electricity for many diseases with which the body is afflicted and find the great good therein, the medicines and patent right nostrums upon which they now rely will grow old and dusty on the shelves. Electricity is nature's great remedy and to fully understand and skillfully apply it is our effort and aim in life.

For further information call at the office or send for descriptive and illustrated pamphlet on Electricity and Electro-Therapeutic Baths, by DR. RICHARDS, 607 Mynster Street, Council Bluffs, Ia.
