

OMAHA'S POLICE COMMISSION.

Governor Thayer Names the Four Members of the Board.

SOME SENSIBLE SUGGESTIONS.

Smith and Gilbert Appointed For Two and Bennett and Hartman For Four Years—News From Nebraska.

The Lucky Four.

LINCOLN, Neb., May 8.—Special to the BEE.—Governor Thayer has made the following appointments of fire and police commissioners for Omaha, Neb.: To serve two years, Howard B. Smith and George L. Gilbert; to serve four years, L. M. Bennett and Christian Hartman.

To Messrs. Howard B. Smith, George L. Gilbert, L. M. Bennett and Christian Hartman, Omaha, Nebraska.—My Dear Sirs: The following are the names of the four commissioners appointed to the board of fire and police commissioners for the city of Omaha, Neb., on the 8th inst. creating the Omaha police commission.

Section 145. In each city of the metropolitan class there shall be a board of fire and police commissioners, to be appointed by the governor, to consist of four members, not more than two of whom shall be of the same political party, and two of them, of different political faiths and denominations, to be named in their appointments, to serve for two years, and the other two, also of different political party faith, shall be designated to serve for four years, and each period of two years, the governor shall appoint two members of each board, to be designated by the governor may remove any of said commissioners; and all vacancies in said board, by death, resignation or removal shall be filled by the governor, from among the persons who are qualified to hold the office, and all vacancies from whatever cause shall be filled; that no more than two members of the board shall be of the same political party, or so related, all powers and duties connected with, and incident to, the appointment, removal, government and supervision of the officers and members of the fire and police department of the city under such rules and regulations as may be prescribed, and the board shall be vested in and exercised by the board.

Under the authority thus granted you have been appointed fire and police commissioners for the city of Omaha, Neb. In conjunction with the mayor, will constitute the board.

The power and duties of the commissioners, taken in connection with the sworn duty of the governor, to see that the laws be faithfully executed, plainly implies that his duty should not cease with the selection of the commissioners. At least, I so interpret it, that you should be permitted to present your views and suggestions which, without doubt, commend themselves to your judgment.

It is generally admitted that there is a pressing necessity for a complete and most thorough renovation and reorganization of the police department of this city, and the working out of this purpose it now becomes your duty to devote yourselves.

Recently I passed five days in Omaha looking over the city, and in reference to appointments and police affairs, making observations and suggestions, and in the light of what I could bear on the subject, I traversed various streets, road around the suburbs on two evenings, and from Thursday evening till Monday forenoon I saw and talked with many of the police, and one policeman, and he did not seem to be on duty. Inquiring of various persons, "Where are the police?" they all pointed to the street looking for a policeman without finding any till he entered a saloon and there found one. The papers have reported frequently that the police are on duty, and returning from business to their homes in the early evening, and of burglars entering and robbing their homes.

In my walks around the city towards evening I observed gatherings of persons upon certain street corners, which I should designate as loafing, and in some instances could elbow their way only with much difficulty. I saw one lady take her little girl into the street to go around the crowd and in doing so a team came along in close proximity to the child, and the lady saved it from harm by quickly turning it aside.

I looked around for a policeman, but none was in sight. All these outrages and evils, and no one to be seen, is a disgraceful condition. The inhabitants of the city are taxed to support a police, and the police must be what is designed to be—a protection to the people. They have a right to demand it.

The plain intent and meaning of the law is that there shall be a non-partisan police, to be composed of the best material of the city, and in my consultations with you, and the members of the board, I have endeavored to secure a police that shall be made an officer or member of the police force as a reward for political service, or to any other interest. The only points that should be considered should be the integrity, the ability, the intelligence and the fitness of the one proposed. No one should be appointed unless he is entirely above reproach. No man who has been accustomed to hang around saloons and gambling places or low dives, and who is not of a sober and temperate disposition, should be placed upon the force.

The city will, of course, be laid off into regular beats, and rules and regulations will be adopted by the board, and the police force should be thoroughly informed and instructed as to their duties. They should be held to a high standard of discipline as if they belonged to the United States army. They should inform themselves as rapidly as possible of the names of the places of business, so that they can impart information to all who may seek it. They should answer all questions in a courteous, respectful and polite manner, and should be such at all times that every person will instinctively feel that the policeman are gentlemen and the respectability of the city should be exercised with firmness, but never in a brutal or inhuman manner. If any officer or member of the force neglects his duty, or is off his beat, enters a saloon while on duty, except in the performance of an official duty, should be immediately discharged.

Gentlemen, there must be a thoroughly organized, a thoroughly efficient, and a thoroughly controlled police department in Omaha, and the only way to secure it is by the appointment of a police force of the highest quality, and the most reliable of citizens to walk the streets at any hour of the night if duty so requires. And the responsibility of this purpose now devolves upon you. I think I know the good people of your city well enough to justify me in saying that I know the names of the men who are capable of support of all in this work. And you will know also that, at all times, you will have all the power and influence of the state executive to sustain you. Very respectfully,

JOHN M. THAYER, Governor.

Bad Fire at Ainsworth.

AINS WORTH, Neb., May 8.—[Special Telegram to the BEE.]—The Burns house caught fire this morning at 1:30 o'clock and burned to the ground, losing \$2,000; insurance, \$4,000. The fire is supposed to have been started by incendiaries. \$11,000 worth of stock was lost. The market and Lelpasa bottling works were also burned.

Another Account.

AINS WORTH, Neb., May 8.—[Special Telegram to the BEE.]—About 1:30 this morning Ainsworth had the first fire since the foundation of the town. The Burns house, an unknown source, in all probability incendiary. So quickly did the large two-story structure burn that the fire had scarcely been extinguished generally when the hotel was a mass

of ruins. A strong wind had blown all night, and at the time of the fire it was blowing southward, but changed to northwest while the fire was burning. The inmates of the Burns house barely escaped with their lives, and such articles as they could carry in their arms. The fire spread so rapidly that the employees lost all their effects, in many cases escaping but half clothed. A brigade was formed and the buildings near protected. A marked delinquent in the street, the street was burned with the fixtures. It was a very close call for the town.

While the fire was in progress another started in the west end of town in the bottling works of T. R. Lelpasa, the fire almost cutting off his escape from the building in which he was sleeping. The works were very complete and are a great loss to the town. The Burns house was owned by J. P. Beahm of the Congregational church, and the furniture owned by J. M. Brackett, the landlord, and valued at about \$6,000. The insurance on the building was \$2,500; on the furniture, \$1,000. The building was insured at \$1,000; insured for \$750. The spring term of the district court begins here tomorrow. The wind was blowing from the north and it was soon discovered that all the buildings in the block must go. The buildings burned were a dwelling, Einsel's building, where the fire originated; W. O. Smith's music emporium, Moore Bros.' tailor shop, McWing's merchant tailor establishment, Shenberger's & Wagner's hardware store, and the Commercial state bank block, belonging to Einsel Bros., was damaged to the extent of \$10,000. The plate glass was broken by the heat and the cornice melted away. The fire is supposed to be the work of an incendiary.

Holdrede Badly Scorchd.

HOLDREGE, Neb., May 8.—[Special Telegram to the BEE.]—A fire broke out this morning about 7 o'clock in Einsel's building on West avenue, formerly occupied by N. J. Chesline as an implement house. The fire was not discovered until it had so far consumed the building that it could not be saved. From this point it spread to other buildings. The wind was blowing from the north and it was soon discovered that all the buildings in the block must go. The buildings burned were a dwelling, Einsel's building, where the fire originated; W. O. Smith's music emporium, Moore Bros.' tailor shop, McWing's merchant tailor establishment, Shenberger's & Wagner's hardware store, and the Commercial state bank block, belonging to Einsel Bros., was damaged to the extent of \$10,000. The plate glass was broken by the heat and the cornice melted away. The fire is supposed to be the work of an incendiary.

An Educational Appeal.

COLUMBUS, Neb., May 8.—[Special Telegram to the BEE.]—President Perry, of Doane college, made two masterly efforts on behalf of the Congregational organization, whose interest he is an able champion. The services, both morning and evening, were largely attended. His appeal, vigor of thought and close analysis of the life of Abraham and his journey from the land of the idol to the land of the living God, were the most impressive features of the service. He called attention to the moral and mental culture, infusing heroic impulses into the young men who were present. He is ready to ask you to take up the response for such a noble institution as the Doane college.

An Ainsworth Wedding.

AINS WORTH, Neb., May 8.—[Special Telegram to the BEE.]—J. G. Ackerman, of the firm of Munson & Ackerman, general merchants, and Miss Nellie Murphy were married at 5 o'clock this morning and went east by the 6 o'clock train for a wedding trip in the east.

THE CLEARANCE RECORD.

Omaha in Line With Another Big Increase.

BOSTON, May 8.—[Special Telegram to the BEE.]—Following table compiled from the report of the Boston customs, showing the leading clearing houses in the United States show gross exchanges for the week ending May 7, with percentage increase and decrease from corresponding week last year:

Table with columns: CITY, CLEARINGS, Increase, Decrease. Lists cities like New York, Boston, Chicago, Philadelphia, San Francisco, Baltimore, Pittsburgh, Kansas City, New Orleans, St. Paul, Milwaukee, Providence, Detroit, Cleveland, Omaha, Duluth, Denver, Columbus, Indianapolis, Memphis, Hartford, New Haven, Peoria, Springfield, Worcester, Portland, Galveston, St. Louis, Syracuse, Norfolk, Lowell, and San Francisco.

A BIG CATTLE DEAL.

A Combination Formed to Control the Country's Beef Industry.

CINCINNATI, May 8.—[Special Telegram to the BEE.]—The Tribune says to-day that the celebrated American Cotton Oil "Trust" was being entirely overshadowed by a new investment "trust" in which no less than \$25,000,000 had been invested. The new combination is the "American Cattle Trust," which is to be formed by the consolidation of the large and the great cattle ranches of the west. Millionaire Nelson Morris is its conspicuous head, and the other members of the trust are, as Mr. Frank E. Vogel, president of the Fairbank Canning company, Chicago; ex-Governor Kutt, of Colorado; Thomas Hughes, president of the Cheyenne Cattle company, Cheyenne; Captain Lytle, of Texas, and H. H. Head, president of the American Ranch association. Associated with these are a large number of heavy eastern capitalists. The object of this great "trust" is to largely increase the number of the ranches, and handling of cattle, the slaughtering of them by first hands, and the placing of their products in the different markets of the world. The new venture is to be inaugurated upon an immense scale. The \$25,000,000, it is said, has been paid in. The projectors claim that it is not only to increase the number of the ranches, but to secure the mastery over the great cattle interests of the country, which, however, will be a benefit to all raisers of cattle and herdsmen of beef. It is not meant that all the killing and packing shall be done near the ranges. The trust has control of a large number of establishments which will run to the best advantage. The combination includes ranchmen from Texas to the Canadian border, and will be able to handle their cattle to much better advantage than has been the case of late, and that they will not be forced to put them on the market at a price which is not what they are worth. A meeting of the trust will be held in New York next week and it is probable that the trust will be organized and elected to the presidency. At that time more details of the scheme will doubtless be made public.

Glass Works Burned.

PITTSBURGH, Pa., May 8.—The Homestead glass works at Homestead, Pa., burned this morning. The loss is \$30,000, fully insured. One hundred men will be temporarily thrown out of work.

CANADIAN ANNEXATION TALK.

The Scheme Again Revived of Giving Us England's Costly Province.

A VERY USELESS APPENDAGE.

Commissioner Coleman Positive That He Did Not Use the Word "Caracasas"—A Foreign Official's Bad Butler.

No Thanks.

WASHINGTON, May 8.—[Special Telegram to the BEE.]—There is again some agitation of the question of annexing Canada to the United States. It is reported that influential and wealthy Canadians are favoring the proposition, while the great bulk of manufacturers, mechanics and laborers are working for annexation. An educated manufacturer at Ontario has written a letter here, in which he says: "We are all annexationists. We believe that our future properly depends on a speedy admission into the American union. The people in my trade across the border make nearly 10 per cent more than I do with the same number of employes. There are many other things. We are greatly dissatisfied with our present position as a British dependency. It is a great question whether we are to get into a war to-morrow. We would be greatly jeopardized, for our Atlantic and Pacific coasts are greatly exposed. We might be ruined by being involved in a quarrel we had nothing to do with making. Then there is another matter that causes the great discontentment. We have no representatives in the imperial parliament. As a part of the American empire, we are being treated as a colony of attack whenever England becomes involved in war. Besides our rights as a colony we would be part of a great nation with the right in its aid, and the right of annexation in this country, extending all over Canada, which is for the purpose of promoting the growth of the movement for annexation. The movement here includes nearly three-fifths of the leading men of this district and it has the same sentiment all over Ontario. It is especially influential in Manitoba and the northwestern provinces on the Pacific. It is a secret society, but the great object is not open to the general public. We intend to agitate the question till we succeed. Lord Lansdowne's course as governor, general is a great disgrace to the British empire. A class of our people have not forgotten Papineau and his associates for annexation to a man. They are the aristocracy, and those who call themselves the court circle. By the next general election in the states we want to be ready to ask you to take us into the American union."

Treasurer Jordan's Successor.

WASHINGTON, May 8.—[Special Telegram to the BEE.]—The new bank in New York with which Mr. C. F. Jordan, treasurer of the United States, is to be connected is to begin business on Tuesday. It is expected that the president will endeavor to accommodate Mr. Jordan by selecting him as president in time to allow Mr. Jordan time to assume his new duties this week. It is understood that the president has authorized him to select a proper man as his own successor, and that Mr. Jordan has chosen Mr. John M. Hyatt, the national bank examiner for Connecticut and Rhode Island. Mr. Jordan says today that he thought Mr. Hyatt would make an excellent treasurer if he could be induced to accept the place, but he does not seem at all inclined to do so. Mr. Hyatt arrived here last night and is quartered at the Arlington, where ex-Senator Barnum is also stopping. The ex-senator is understood to be in a hurry to get to his appointment and it is reported that he is trying to induce his protegee to accept. The office is in the building at 100 Broadway, and it is probably will be. Mr. Hyatt has the strongest kind of endorsements from the bankers and the business men of New York, and it is believed that he will be successful in his endeavor to induce him to accept. Mr. Jordan cannot leave his office until his successor is appointed, and it is responsible for the funds stored in the treasury building and their custody cannot be transferred to any official who is not bonded.

Coleman on Butterine.

WASHINGTON, May 8.—[Special Telegram to the BEE.]—Referring to the report of the recent interview with him respecting the components of oleomargarine, butterine, etc., and the investigation by the department of agriculture relating thereto, Commissioner Coleman to-day said: "I was misunderstood in regard to the word 'caracasas.' I said it was a domestic compound to which the following ingredients were added: butter, lard, and tallow. The investigation by the department of agriculture relating thereto, Commissioner Coleman to-day said: 'I was misunderstood in regard to the word 'caracasas.'
