

THE DAILY BEE. COUNCIL BLUFFS

OFFICE, NO. 12, PEARL STREET. Delivered by carrier in any part of the city at twenty cents per week.

MINOR MENTION. N. Y. Plumbing Co. New spring goods at Reiter's, tailor.

A meeting of the city council will be held this evening. Frank Coleman is in jail for being drunk yesterday morning.

It is reported that another gambling house is about to be opened. The popular resort is the Manhattan, 418 Broadway, Bufile & Yenshine.

C. H. Lott is in jail for being drunk on the streets at 2 o'clock yesterday morning.

E. B. Leonard will appear before the police judge at 10 o'clock this morning to answer to the charge of drunkenness, having been arrested at 4 o'clock yesterday morning.

The young ladies bible class of the Congregational Sunday school give an entertainment with Mrs. P. J. Montgomery at the latter's residence on Fourth street, Friday night.

A large number visited the county court house yesterday, but could not inspect the work on the interior. The painting is fresh on the floors, and the doors were consequently well light.

The trustees of the Congregational church are having plans drawn for the new parsonage to be built next to the church, sufficient money having been secured already to warrant proceeding with the building.

The livery business is opening up in good shape. Yesterday all the livery rigs were engaged. Before the lake Manawa craze opens a number of new livery turnouts will be purchased and possibly a new livery stable or so will spring up.

The Northwestern railway bridge between Loveland and Missouri Valley caught on fire on Saturday night. The fire was discovered by the incoming fast freight train and extinguished.

Men of the bridge were sent to repair it yesterday morning. Molly Scott, a Rotten Row fairy, was placed in jail yesterday charged with disturbing the peace.

It is claimed that she broke in the door of the home of a colored man named George Carter, who resides there with a white wife. It is said that she pounded up the palaface pretty badly.

It seems to be pretty well settled that there will be a cable line of street cars run over the new Union Pacific bridge. When this is completed it will facilitate transportation between the two cities.

It does not seem likely that there will be much chance for driving across the bridge, as none but very steady horses could be driven over so near passing trains, and with nothing but open partitions.

Death of Captain Frainey. On Saturday evening J. J. Frainey received a telegram from Shreveport, La., informing him that his father was seriously ill. He telegraphed back for further particulars and yesterday morning came the sad news that he was dead.

Mr. Frainey left on last evening's train. He had learned no particulars, but the conjecture is that heart disease must have caused the death. Captain Frainey was well known here, and resided here at different periods in his life. He was a man of wonderful physical endurance and development.

In his younger years he fought in the ring several of the hardest battles on record, and was known in sporting circles on both sides of the water. Although advanced in years he preserved his physical appearance wonderfully and few would have by sight guessed his age to be half of what it really was.

He was a brother to the late James Frainey, who was for so long in the merchant tailoring business here.

Personal Paragraphs. D. Bridges left last evening for Chicago. A. Blanch, of Spokane Falls, W. T. was at the Ogden yesterday.

Jesse Eiseaman, of Sioux City, was in the city yesterday visiting his uncles. Reserved seats at Bushnell's for the concert next Thursday, May 12.

A citizen of Sumnerville, Wis., set out an acre of strawberry plants two years ago, and from the crop alone has supported his family in comfort, and spent six months of the year in the north.

See amusement column for the programme of the concert by the Ladies' Musical Society.

Over five thousand soldiers deserted from the British army during the past few years.

A large party from Omaha are coming over to attend the concert at the Presbyterian church, given by the Ladies' Musical Society.

A town in Calhoun county, Alabama, has been named Lincoln in honor of the war president.

Lime, cement, plaster, hair, coal, etc. Council Bluffs Fuel company, No. 339 Broadway, telephone 136.

The defalcation of Hoboken's (N. J.) water registrar, Michael H. Murphy, it is said will reach \$100,000.

Drs. Hanchett & Smith, office No. 13 Pearl st. Residence, 120 Fourth st. Telephone No. 10.

In the case against the New England firm charged with importing velvet works under contract a witness, in describing the nature of the work, incidentally said that for every 100 yards of velvet a woman cuts and finishes, she walks, by actual measurement, 119 miles.

J. W. & E. L. Squire make beautiful abstracts of title, and deserve the success they are enjoying.

Mr. Mackay frequently sends his wife from America a dozen or more cans of terrapin, with which she delights her guests in Paris and London.

Cheap storage in either small or car-load lots at Nos. 22, 24 and 26 Pearl street, J. R. Snyder.

The duke of Beira, infant prince of Portugal, has seven cradles, which he occupies in daily rotation by instruction of the court physician.

J. W. & E. L. Squire make beautiful abstracts of title, and deserve the success they are enjoying.

Lieutenant Jenphon, author of the popular novel, "The Girl I Left Behind Me," is among the Englishmen in H. M. Stanley's exploring expedition.

Latest improved gasoline stoves at No. 504 Main street, W. A. Wood.

See the Quick Meal gasoline stove. Don't fail to call and see how it up. It costs nothing to get posted, whether you buy or not. Cole & Cole, No. 41 Main st.

PREPARING THE PLUNGE.

The Bathing Suits Being Made and Manawa Improvements Under Way.

TWO LITTLE BURGLARIES. The Traveling Men From a Base Ball Club—Death of Capt. Frainey—An Anxious Husband Finds His Runaway Wife.

The Manawa Season. Now that the mercury is on the rise, those who took advantage of the sports at Lake Manawa last season very naturally begin to look forward in anticipation of the enjoyments to be afforded them there again this year.

Yesterday morning several persons visited Manhattan beach and indulged in a bath and in the afternoon the roads leading to the lake were crowded with vehicles.

In a short time from now the last year's bathing suits will be seen in numbers hanging out to air, the buttons will be secured more firmly, and missing ones will be replaced.

Already this early many are thinking of novelties in bathing suits and it is thought that a larger variety of the finer suits will be seen on the beach than ever.

"I'm remodeling my bathing suit and expect to have a perfect beauty when I get it completed. Then I want you to see it and express your opinion before I wear it. It's going to be a stunner, I tell you," was the remark made by a young lady yesterday morning to her lady friend as they were about to enter one of the churches. Many ladies are thinking of doing likewise, but whether there is to be a change in the style of the cut of last season remains to be seen.

It is stated that many ladies who wore the short skirt attachment last year, propose to do away with it this season and appear in simply the blouse and trousers, as the skirt interferes with swimming and is too heavy for comfort.

In many instances it has been worn for propriety, and then has been so long that one could not attempt to swim. It is not a necessary appendage, and can be discarded if the ladies so desire.

At the famous resorts in the east it is seldom seen unless the wearer is a person who has no inclination to learn to swim, but those who are at all anxious to become swimmers invariably discard the skirt attachment.

Mr. Graves expects soon to be able to begin operations on the building of the Lake Manawa railway and to have the same completed in time for the rush to the lake.

The new hotel, it is authoritatively stated, will be up, and from what a BEE man was informed yesterday, only a few days will elapse before an important announcement will be made in regard to the same.

One of the gentlemen who propose to erect this building at the foot of the hotel, and who yesterday showed the hotel plans to a representative of this paper, and stated that he expects to be in a position by to-night, after completing all the plans, to have the building ready for the same. It is proposed to have a veranda twenty feet wide around the entire hotel, except at the end next to the dining room and the restaurant, where a landing platform, a continuation of the veranda, will be 40x50 feet.

Numerous fine trees have already been set out and several fountains will be put in, as a four-inch pipe is to be connected with the city water and run south to the hotel.

The road leading to Marks' landing is to be put in repair. "Humpback" bridge is to be replaced with a fine substantial bridge by the city, and the approach on either side will be widened. Of all the improvements this is one of the most essential, as heretofore the vicinity of "Railroad slough" has been considered dangerous. This title was given this slough as it was the first slough near Council Bluffs ever bridged by a railroad.

The land south of "Railroad slough" will be surveyed so as to make an approach to the entire width of the road.

The club house of the Council Bluffs rowing association at Marks' landing is about completed, and several of the shell boats are now to be seen daily skipping along on the water. As soon as the private sculls begin to arrive practice in "singles" will then begin.

The foundations of several summer cottages are going up, and before the season is fairly open it is not doubted some six or eight others will begin.

It has been suggested that some one put up a boat house in which to store the row boats of private parties who are not members of the boat club and wish to keep their boats in a safe place during their absence. Many skills and heavy boats would thus be stored.

Messrs. Lott & Metzger have secured the beach restaurant privilege for the season at Manhattan beach.

The beach is now owned and to be run exclusively by A. B. Walker and Odell Bros. & Co. during the season.

Work on the dam has begun and it is expected will be completed in a few days.

Short Hauls. Some time early yesterday morning the store of Charles Liebold was entered by burglars. They effected an entrance by cutting off the putty and breaking out a window light, thereby giving them access to a nail that was placed above the window sash to secure the same. In order to reach the place where they operated they had to crawl between two buildings a distance of about twenty feet, which space was only fourteen inches wide.

They stole two revolvers, an ivory handled thirty-two and a Colt's thirty-eight, besides a couple of dollars change which remained in the drawer.

HAINES' PLACE ROBBERED. They also went through Ed. Haines' place next to the Everette house, in the same manner. They cut the putty off and pulled out a nail which gave them access. After taking about \$2 in change which was in the money drawer they departed.

Tourists' Base Ball. The traveling men have organized a base ball club, consisting of C. D. Boyd, Billy Kintz, J. J. Stork, Earl Gleason, R. H. Nichols, Harry Bowman, J. N. Baldwin, George Brown and John Oliver. Frank Jensen is the manager. The club is to meet at the Manhattan next Saturday evening to complete the preliminary arrangements.

Office of Mitholland & Co., removed to under the Citizens' bank. Telephone No. 162. Leave your orders for ice.

He Found His Wife. The man who claimed to be from Omaha and looking after his wife as stated in the BEE yesterday, has found her. He reported his name as Burt and that he did not know if she had run away with another man or had gone simply to shake him.

The facts of the case are that the wife ran away from Iowa City leaving her husband and two children. She came direct to this city where she has since remained. She had no hesitancy in telling her whole history to her companions. She gave no reason for deserting her home, but simply wanted to sport.

Yesterday shortly after noon the husband wandered into the place where

FARM LANDS CHEAP

ELECTRICITY!

DR. RICHARD'S Electric Bath Rooms and Office No. 607 Mynster St., Council Bluffs. One Square North of the P. O. Building.

Treatment and Baths Given Ladies by Mrs. Dr. Richards on Tuesday, Thursday & Saturday.

Electricity is a remarkable natural agent which has long been known and utilized as a remedy for disease and continued experience has enlarged its sphere of usefulness and improved its appliances by which it is employed until its utility a no virtue has become second to no other known remedy, in the treatment of certain forms of disease. This agent is employed here in all its most serviceable forms by the aid of large batteries, static machines, electric cabinet baths, electric water baths, the electric chair and electrodes for treating all parts of the body. We are prepared to do all that can be done with these great remedies. In cases of Rheumatism, Neuralgia, Paralysis, Spinal Irritation, Rectal Diseases, Nervous Diseases in females arising from Uterine disorders and many other chronic and subacute troubles, it stands at the head of all known remedies or methods cure. A thorough study of it for years and the successful treatment of hundreds of cases, after all other remedies had failed, is sufficient evidence of its great worth and perfectly satisfies us with its good effects on the diseased body. In the great hospitals and sanitariums of America and Europe, electricity is leading all other methods of treatment. In all leading colleges the professors are teaching electricity as one of the potent remedies and a special chair is appointed in many of them. Many of the ablest physicians of all schools are making a specialty of electricity to the exclusion of almost everything else. This great remedy has often fallen into disrepute by being recommended and used by persons, and physicians, perfectly ignorant of its properties and powers, who would as often advise and use the wrong current as the right one or depend upon it in diseases for which it is not adopted. We are sure that when the people become educated in the use of electricity for many diseases with which the body is afflicted and find the great good therein, the medicines and patent righted nostrums upon which they now rely will grow old and dusty on the shelves. Electricity is nature's great remedy and to fully understand and skillfully apply it is our effort and aim in life.

For further information call at the office or send for descriptive and illustrated pamphlet on Electricity and Electro Therapeutic Baths, by DR. RICHARDS, 607 Mynster Street, Council Bluffs, Ia.
