

LEAVE PICKS AND BRUSHES.

The Peaceful Labor Strike Uncompromised.

BRICK MOULDING MACHINES.

They Are Ordered and On the Way—Alleged Attempt to Get the Cable Line Laborers Boozed.

Revolutionizing the Brick Business.

While the striking brick moulders are holding their meetings and discussing their grievances, the proprietors of the different yards are preparing to execute a flank movement which will entirely revolutionize the brick making industry in this city.

employers, that Contractor Lillis has not paid them for fractional hours; and they have so far failed to discover a single man who has not been deprived of fractional hour wages.

In regard to the claim of Mr. Lillis that no shovellers in the city were paid more than \$1.75 per day, and that he was paying more than other contractors, the committee states that the following are paying shovellers \$3.00 per day in this city: City of Omaha, City Waterworks, Brennan & Whalen, Sewer Contractor Fox, and Contractor Mulcahey.

Relating to the above the following was received at this office to-day: To the Editor of the Bee: Dear Sir—We would like if you would put this in the columns of your paper.

It is said that the clerks of a certain thriving dry goods man in this city, who advertises heavily, threatened to leave him if he inserted more than one half page advertisement in the Bee a week during this hot spell.

The scarcity of houses to rent in this city is becoming simply appalling, notwithstanding that hundreds of new houses are being built every month.

"I'm beginning to feel like a stranger," said a merchant this morning. "I remain in my store all day. When I go home in the evening, I notice that some old land mark has disappeared.

Just prior to the shovellers strike yesterday, the cable strikers were approached by a stranger, who greeted them heartily and said:

"Boys, I'm from Kansas City and I want you all to drink with me. It shan't cost you a cent." He took them into Barney McGinnis' saloon on Fourteenth and Dodge streets and bought three kegs of beer for "the boys" with the remark—

"If that ain't enough for you, you can have ten kegs. Some of them were in favor of occupying the street. Better counsel prevailed, however, and the man from Kansas City was informed that his beer was not wanted.

On one house situated on a main thoroughfare and which is conspicuously empty, is posted this warning sign: "This house is empty, but it is not for rent. Don't bother yourself about it."

The Knights of Labor of this city have taken the initiative in celebrating the Fourth of July, and intend to make the occasion such as to satisfy a long-felt demand for a successful display on that day.

The funeral of Miss Ellen Fox, the daughter of Contractor Fox, was held from St. Philomena's cathedral yesterday morning at 9 o'clock. High mass was celebrated at the cathedral. The attendance of mourning relatives and sorrowful friends indicated the very high esteem in which the young lady was held and the grief which was felt here at her death.

Edison Electric Light System Estimates furnished. GEO. W. COSTER, Paxton House, Omaha, Agent.

South Omaha Coal. All reports to the contrary Mr. Cook, who has charge of the sinking of the coal shaft at South Omaha, says that coal of a very fine quality has been discovered.

The Cable Line Strike. The assertions of Contractor Lillis of the cable line as published in Wednesday's Bee, are denied by the striking employees.

Joe Kearney Dying. Joe Kearney, one of the first teamsters in Omaha, and well known in the city, is not expected to live many hours.

A BIG SUIT.

An Injunction Against the Waterworks Company.

An important and sensational suit was started in the United States court yesterday, involving large sums of money and important interests.

The plaintiff is Marshall Field, the merchant prince of Chicago, and the defendant is the City Waterworks Company of this city. The plaintiff in his petition alleges that about a year ago he purchased 100 shares of waterworks stock from S. R. Johnson, who was then president.

It transpires that the reason work is not being pushed on the Nebraska Central railway project is that there is some trouble about the bridge. As has already been stated in the Bee, the Chicago, Milwaukee & St. Paul road, which is backing the Nebraska Central, will build the bridge at this point which is to connect the Iowa line of that road with the Nebraska Central road.

Messrs. Potter, Ames and Adams, of the Union Pacific, are to arrive in this city this evening, where Mr. Potter will hereafter take up his residence.

This coming will be fraught with interest to the Union Pacific, the management of which passes into the hands of Mr. Potter. The details of the transaction will be effected at this meeting, as will doubtless also be determined the closeness of relationship which shall hereafter exist between the Omaha Pacific and Chicago, Milwaukee & St. Paul. It has long been mentioned in railroad circles that there was a growing desire on the part of both of these roads to arrive at an understanding whereby each might derive the benefit of the through western and eastern connection of the other, thus forming a continuous line from almost coast to coast.

Passenger Agent Vandercreek, of the New York Central, is in the city. Travelling Passenger Agent Giles and General Western Passenger Agent Johnson, of the Lake Shore road, are in Omaha.

Knex Boude, a former stenographer for Superintendent Kosty, of the Union Pacific telegraph department, is said to be doing Salvation army work in Denver.

The whole Pontag family, who were engaged in an assault upon Stuart Reed, residing at Nineteenth and Spring streets, were brought before Judge Berka yesterday.

Stock Yards Company Stock. The success which has attended the stock yards in South Omaha, has been so remarkable that the management has found that they are inadequate to supply the demands upon them.

This powder never varies. A marvel of purity, strength and wholesomeness. More economic than the ordinary kinds, and cannot be sold in competition with the multitude of low cost, light weight alum or phosphate powders.

ACCOMPLISHED

Ever since our opening here we have labored under great disadvantage on account of our store being too crowded. We were heretofore not able to get such a large place as we desired, and not only were we prevented from keeping the stock we intended, but we could not even properly display the assortment we did carry.

We have at last succeeded in securing additional room and have leased the two floors above as also the rear part adjoining our store on 14th street.

The necessary alterations will crowd us fearfully, and this as well as the desire to open the enlarged quarters with entirely fresh goods prompts us in making a SPECIAL SALE, at which we will offer extraordinary bargains.

We are Now Marking down our Stock throughout at such prices that it will make a stir in the clothing trade, and will move our goods quickly.

All goods marked in plain figures and at one price.

Nebraska Clothing Company,

Cor. Douglas and 14th sts., Omaha.
