

COMPANIES TO BEWARE OF.

A List of Insurance Concerns Doing Illegal Business in Nebraska.

NEWS FROM THE STATE HOUSE.

The Live Stock Commission and the Colorado Quarantine - Municipal Officers Start on a Trip - Lincoln News.

[FROM THE BEE'S LINCOLN BUREAU.]

There has always been to some extent a violation of the state insurance laws by companies working in the state without complying with the statutes. The auditor has been diligent and careful to suppress this kind of business, whenever possible and to locate for certainty the companies that persist in violating the law by working business in remote districts in the state. A company that does not cheerfully come to the front and place itself on record in a legitimate and lawful way is not a good company for the public to patronize, and the auditor furnishes a list for publication of companies violating the laws so that persons may be careful when insuring their property that these parties are not represented in their selections. Following are companies that have not complied with the law: Manufacturers' Mutual of Milwaukee, German American of New Orleans, Louisiana Insurance Company of New Orleans, Mountain City of Chattanooga, Tenn.; Northwestern Mutual Insurance company of Wahpeton, Dak.

AT THE CAPITOL BUILDING.

The live stock sanitary commission will hold a meeting Monday to revise the quarantine regulations. The importation of stock into the state. There has been some feeling aroused over the fact that Colorado, without any discernible cause, quarantined against the Omaha stock yards and against the Nebraska commission notified the Colorado authorities that if this course was persisted in without cause that Nebraska would feel justified in quarantining against Denver. Matters are now in a way for amicable adjustment.

The following notaries were commissioned yesterday: Daniel C. Sleeper, York; John A. Greene, Rushville; Charles West, Lincoln; Arthur Shaw, Lincoln; E. H. Barber, Niobrara; Charles G. Woods, Ogallala; Fred M. Flansburg, Culbertson; James M. Moore, Beatrice; W. J. Lawrence, Plum Creek; Charles P. Lloyd, Dundley county.

Articles of incorporation of the Broken Bow building and loan association, with an authorized capital stock of \$500,000, were filed yesterday with the secretary of state.

B. D. Slaughter returned home to Fullerton yesterday after completing with Assistant Clerk Cook the journals of the late house ready for the printer.

The live stock commission has received a letter from Dr. Conrad, of Crete, stating that a young man living north of that place was dying with the glanders.

OFF TO KANSAS CITY.

Yesterday the mayor and members of the city council departed for Kansas City to visit that city and its public works and improvements in the interests of paving for Lincoln. The delegation got to Kansas through a thorough survey of work done there and to learn of the practical results from the use of different qualities of paving materials that have been tried and tested by several years' wear. The bonds having been voted to meet the expense of paving intersections the city council and all citizens are anxious to see work commence at once.

MR. EGAN TO HEALY.

Yesterday Mr. Patrick Egan cabled Mr. Healy in the English parliament to renew his question to King Harmon regarding the letter Mr. Egan wrote him regarding his extradition to Ireland. A few days ago, in response to a question from Mr. Healy, King Harmon denied ever having received such a letter from Mr. Egan, and declared that none such had been written. Mr. Egan mailed the letter in question on the 25th of April and now that time sufficient has elapsed for its arrival, he cables Mr. Healy as above stated to propound the question again.

PUSHING THE CABLE LINE.

John H. Ames, one of the principal stockholders in the cable line railway recently granted in France, yesterday telegraphed J. K. Graves, at Dubuque, Ia., to come at once to Lincoln and close the contract and prepare at once to construct three miles of the line. It will be remembered that the Healy society opposed the presence of Mr. Graves in Lincoln, and at that time a contract for three miles of cable line was agreed upon and the signing postponed until the franchise was granted and the Healy society had the opportunity to visit Chicago. This is important news for the capital city.

THE PROSECUTIONS DROPPED.

The mayor, in a semi-official way through his secretary, the Star Journal, states to the public that the violations of his orders from which he ran away are not to be called into court because of the ordinance being faulty. At one point and another the mayor's police officers, when he found it open, entered and not finding the owner, demanded the keys of an employe and looked it up himself. This man, besides sustaining losses in business which he had been sure to lose if the business were open, has a good case against the city and the smart policeman for trespass.

THEY WANT THE GRADER.

The city of Lincoln has a grading machine that is used on the street work, and while it is used almost all the time several complaints have been made that only special men should be permitted to use the machine, and parties without wealth or influence might whistle for it. There is no reason why poorer people, on streets that abound with mud and water, should not receive some attention themselves. It is also stated that the grader has for some time back been in use outside the city.

THE NEW ROMEO AND JULIET.

An incident occurred in the city Tuesday night - just an incident - with a tragedy in the background that did not materialize, although it was loaded. A well-known citizen who had been in the city or so before midnight and gazed through the shutters upon the lights and shadows in the street reflected from a gas lamp. As he looked he was astonished to see a man tip-toe to the front gate and gaze long and suspiciously at the place. He gazed for a season and retired on tip-toe to the opposite side of the street and disappeared in the shadows of some friendly trees. Fifteen minutes later again came the mysterious midnight visitor and again the peaceful citizen saw him stealthily approach the house and reach for the gate. Entirely satisfied that the visitor was a burglar in the citizen produced the family revolver, drew a bead upon the man and in tones loud enough to wake citizens for blocks he hurled anathemas at the stranger, but before he could raise the target he had fallen upon the street at a prodigious rate of speed. Investigation in the daylight revealed the fact that the midnight marauder was a Romeo whose Juliet worked at the next door and was doing the matrimonial scene with a rival on that particular night, and Romeo was laying for the interloper when the scene should be concluded. The near approach of bloodshed therefore probably saved bloodshed.

and it was an illustration of "All's well that ends well."

REGULATING THE WATER SUPPLY. The whistle at the waterworks blows now at 6 p. m., when parties are allowed to commence using water on their lawns, and blow again at 9 p. m., when lawn sprinkling must cease. This is all the time that reasonable people should ask for the use of city water in this way, but it was noted that one prominent citizen, with porcupine proclivities, left his sprinkler in operation the entire night and nothing whatever has been heard of the person being fined. The council at its last meeting placed the question of creating an additional supply of water in the hands of a special committee, who will have the work in charge.

AFTER A RUNAWAY.

A resident in one of the western counties in the state was in Lincoln yesterday in search of a runaway daughter who had left home a week ago to work in his neighborhood, but who had disappeared entirely. The girl had been determined for some time to see the world, by going to Lincoln or Omaha and at one of the places the decidedly anxious parent was hoping to find her and save her from what he feared she was choosing, a life of shame and sorrow. She was reported in Lincoln and he departed for Omaha on the evening train to continue the search at the metropolis.

ABOUT THE CITY.

Police court yesterday was confined to the usual catalogue of drunks taken up the night before, part of whom were also engaged in small riots when nabbed by the police officers. The usual summary of fines were added to each. The new Sunday closing ordinance as presented to the council last Monday was passed Wednesday evening at the meeting of the city fathers, with several amendments being introduced and the original ordinance to any material extent.

T. P. QUICK'S FUNERAL.

T. P. Quick's funeral, which occurs at 3 p. m. to-day, will be under the auspices of the Lincoln Chapter of this order, of which order he was a member. The services will be held from his late residence and be conducted by Rev. J. P. Johnson, of the Christian church.

THE CITY IS GRADUALLY GROWING.

The Lincoln base ball club can play ball. A very general opinion has been that while the cyclone pitcher might be a paying acquisition, what was most needed was vim, energy and attention to business on the part of the boys. They have shown all this in the last week's playing.

AN IMPERATIVE NECESSITY.

What pure air is to an unhealthy locality, what spring cleaning is to a neat housekeeper, so is Hood's Sarsaparilla to everybody at this season. The blood is purified and vitalized, the germs of disease destroyed. Scrofula, Salt Rheum and all other blood disorders are cured by Hood's Sarsaparilla, the most popular and successful spring medicine.

REAL ESTATE.

Transfers Filed May 11, 1887.

CROOKS ARE KEPT MOVING.

Pickpockets and Banko Men are Huddled Along by the New York Police. St. Louis Republican: It is one of the boasts of the New York detectives that they are personally acquainted with all the professional criminals in the near towns. The results of this acquaintance are often peculiar. You are talking with Detective Prior a few feet from the door of the Fifth avenue hotel, and he sees a young dandy half a foot away. "Better keep right on," he says to the dandy, "hurry up, now."

I Owe My Life.

"I was taken sick a year ago with bilious fever. My doctor pronounced me cured, but I got sick again with terrible pains in my back and sides, and I got so bad I could not move. I bought From 25¢ to 1.00. I had been doctoring for my liver, but it did no good. I did not expect to live more than three months. I began to use Hop Bitters. Directly my appetite returned, my pains left me, my entire system seemed renewed as if by magic, and after using several bottles, I am not only as sound as a sovereign, but weigh more than I did before. To those who love my life." R. FITZPATRICK, Dublin, June 6, '86.

Hardened Liver.

Five years ago I broke down with kidney and liver complaint and rheumatism. Since then I have been unable to be about at all. My liver became hard like wood, my limbs were stiff and I died with water. All the best physicians agreed that nothing could cure me. I resolved to try Hop Bitters. I have used seven bottles, the hardness has all gone from my liver, the swelling from my limbs and it has worked a miracle in my case, otherwise I would have been in my grave. J. W. MONEY, Buffalo, Oct. 1, 1884.

I Write This

Token of the great appreciation I have of your Hop Bitters. I was afflicted with inflammatory rheumatism!!! For seven years, and no medicine seemed to do good. I tried two bottles of your Hop Bitters, and to my surprise I am as well to-day as ever I was. I hope you may have abundant success! Valuable medicine. Anyone wishing to know more about my cure, can learn by addressing me, W. C. Williams, 1103 1/2 street, Wash. D. C.

TOO EASY.

What! Cleanliness prevents disease. Johnnie, that is the best medicine for dirt? Johnnie indignantly blushed. "Sapolio! Give me a disease known as half cured." If your house is dirty buy a cake of SAPOLIO. It is a solid cake of Scouring Soap used for all cleaning purposes except the laundry. No. 5. (Copyright, March, 1887.)

OMAHA, NEB. CATARRH 5 YEARS STANDING PERMANENTLY CURED.

Read the following affidavit: Carbolic Smoke Ball Co. Gentlemen, I have been a constant sufferer from catarrh for the last 5 years. I have tried many remedies that claimed a sure cure but received no benefit from any of them. My head at times would become so stopped up with the mucous matter that it was impossible for me to breathe through my nostrils. My sleep was also broken by choking sensation caused by the dropping of the mucous matter into the throat. I first received a free test of your Smoke Ball some 3 months ago, and was surprised to find that it cleared my head in a few minutes, and gave wonderful relief. I then purchased a ball which I have been using since, and can say honestly and truthfully, that I am entirely cured. I sleep well at night, have a good appetite and feel like a new man.

Yours truly, NEWTON HALL, With Omaha Republican. Subscribed in my presence and sworn to before me this 11th day of May, 1887. W. W. KEYSOR, Notary Public.

The Complete Treatment which includes the Debilitator Package, is guaranteed to cure Catarrh of the nose, bronchitis, catarrh of the throat, neuralgia, headache, croup, sore throat, colds, etc. One complete treatment sent by mail on receipt of price, \$2 and 4 free test. Smoke Ball, \$2. Debilitator, \$1. A CARBOLIC SMOKE BALL CO. Room 11 Creighton Block, 15th st., next to P. O. Omaha, Nebraska.

Notice-After June 1st the price of the complete guaranteed treatment will be advanced to \$5. Beware of counterfeits. Not for sale by druggists, canvassers or peddlers.

THE PATENT WIRE GAUZE OVEN DOOR

IS THE LATEST IMPROVEMENT ON THE

Revolution in the Present Methods of Cooking ITS THEORY. In that all Food Boiled or Roasted, should be cooked in fresh steam, and not in old steam. This is done by discarding the close oven door heretofore used, and substituting for it a door containing a sheet of fine Gauze nearly as large as the door itself. Through this Gauze Door the air freely circulates, facilitating the process of cooking, and producing food in its natural condition. It also produces larger loaves of bread, requiring less fuel, and a larger amount of the health of the family by the superior quality of the food prepared.

OPINION OF AN EXPERT. Mrs. Mary B. Welch, Teacher Domestic Economy, Iowa State University, says: "My delirious judgment is that the oven of the range, as compared with this, is not only more equally heated in every part, but as well as more economical in its use. It produces a better food, and a larger amount of the health of the family by the superior quality of the food prepared."
