A BONANZA BARGAIN

To Parties Who Will Build. Four elegant east front lots on North 10th, each 43x180 feet, for \$5,000 apiece. To parties who will build \$3,000 houses these lots will be sold without any cash payment, and when house is completed deed will be given and mortgage taken for the purchase price of the ground, to run five years at 8 per cent. This is a splendid opportunity to get an elegant home at small outlay. Call and investigate this, and then ask any well posted real estate agent if the ground alone is not worth \$150 per foot.

A Narrow Escape.

At 8 o'clock this afternoon, while one of our most prominent citizens was walking along the railroad track near South Omaha, on his way to look at some of those elegant lots of the South Omaha Land company, and for which the C. E. Mayne Real Estate and Trust company are sole agents, he missed his footing and slipped, barely escaping the pilot of an engine on an incoming train. To those who may not be familiar with the fact, we wish to say that we have salesmen with carriages ready at all times to convey parties to these lots, so that the possibilities of such an accident are thus removed.

These songs grew out of the woe and misery of the tormented soul; they are the passion flowers of the blood of martyrs.—From Bondage to Freedom.

For a Few Days Only.

100 acres west of the city, adjoining the land purchased by the Chicago & Northwestern railway company, suitable for plating, for sale at a price that can be doubled within six months.

W. G. ALBRIGHT, 215 S. 15th st.

Residence accommodation in South Omaha is far from being sufficient to meet the present demands and with the increased packing house industries which are yet to come, the situation is likely to become worse.

The proposition of the South Omaha Land Company, to be seen in another column of this paper, to discount a large per cent on the price of lots to anyone building houses on the same, will strike the average man as being a remarkably fair offer and one which should be accepted at once. Choice lots are yet to be had of the C. E. Mayne Real Estate & Trust Company.

"Isn't it wonderful I never heard anything like it?"—Hon. William E. Gladstone.

Strike Ended. Peace for the Afflicted.

Rum, Romanism and Rebellion is what many of our readers imagine was meant by the "Now R. R. R."—others that it was Rheumatism Radically Routed, which is nearer the mark, but as usual, in this connection, the three R's has reference only to "Rail-Road Remedy," the king of pain exterminators—a panacea for every distressing ailment to which flesh is heir. All sufferers from Rheumatism and Neuralgia most earnestly entreat to try this Great Discovery. It will cure you as it has thousands of others. It is also a positive cure for Colic, Croup, Headache, Toothache, Sore Throat, Lumbago, Lamé Back and all wounds, and in less time than any other medicine on earth—relieves all pain and soreness as soon as applied.

Sold by all responsible druggists, generally with a guarantee that it will do just what we advertise. Ask for Rail Road Remedy, only 25 and 50 cents a bottle. Trade supplied by The Richardson Drug Co., Omaha, Neb.

The money you pay out for rents will buy you a home of your own in Benson. C. E. Mayne is agent for this property, and his accommodating salesmen will show it to purchasers at all times.

"It may be safely asserted that nothing like the plantation songs of these Jubilee Singers has been heard in this country."—London Telegraph.

Fisk Jubilee Singers, Exposition Building, Monday and Tuesday evenings, May 16 and 17.

The rails are all laid and track in splendid condition on the line to "Benson," and cars will be running with surprising regularity to and from that very desirable locality just as soon as the motors, which are expected daily, reach here.

Do not forget that choice lots as well as acre property are still left in this addition, and the early bird will not vary from his usual custom of catching the worm.

Carriages, with gentlemanly salesmen ready at all times, or by appointment meet parties and show these lots. Our goods are placed within easy reach, guaranteed to be as represented, and whether purchase is made or not.

Still in the Lead.

On entering the handsome parlors and partaking of a dish of his delicious ice cream, still in the lead was the first exclamation to Mr. Dalzell, the ice cream manufacturer of 115 N. 16th st. Hand-some brussels carpet covered the floor. The walls were tastefully decorated, and the furniture was in keeping with the room. He has now the most spacious, airy and handsome parlors west of Chicago. Mr. Dalzell has sold out his entire interest in the real estate business, and will hereafter devote his entire energies to the ice cream business alone. He has put in his basement a new horse power engine to aid him in keeping up to his continually growing trade. Double and treble the amount he could formerly make can be turned out easily with the increased facilities, besides making a better article. The lovers of first-class ice cream, prepared from pure ingredients, will find Dalzell's headquarters for this elegant refreshment, whether bought by dish, pint or gallon. For the benefit of strangers the location is given. Dalzell's, 115 N. 16th st.

Mind Reading.

The recent mind reading exhibition at the Exposition building was the subject discussed at the Growlers' Club last evening, and Mr. George Washington Jones, of Cheyenne, surprised the members by stating that he had made the subject a special study for years and had acquired considerable proficiency in the new science. Mr. Jones submitted to a few practical tests which fully substantiated his statement; being blindfolded and a man of the city spread before him, he unhesitatingly moved his index finger to any lot called for.

"Now, I'll fool you, I think," said Dexter Thomas (turning the map upside down). "Mr. Jones, can you point to the addition where I made most money?"

Mr. Jones seemed perplexed and for a few minutes his finger moved alternately to Orchard Hill and Briggs Place, finally stopping on the latter.

"By Jone!" exclaimed Dexter T., "there is something in this nonsense after all; while he was wandering between these two additions I was figuring up my profits on them. I nearly doubled my money on the Hill and just doubled it on Briggs. In fact, I've about doubled it on everything I ever bought from Mayne."

A number of other equally interesting tests were made, and the club unanimously requested Mr. Jones to give a public exhibition of his wonderful power.

The First Stone Office Building.

The United States National bank building, which was originally to be of pressed brick, will now be entirely of stone from ground line to roof. The bank people gave Hodgson, the architect, the privilege of using stone, provided he could build as cheaply as of pressed brick. He has complied and will use the best sand stone that can be bought. He agrees to have the building completed and ready for occupancy by the 1st of November of this year, thus saving the bank people a great deal of money. The building will be six stories high, 66x132, and although costing less than \$100,000, it will be as substantial as any building in the city and far more ornamental than the great majority of them. Hodgson's connection with the work is a sufficient guarantee of this.

In another column of this paper will be found a copy of the resolution recently passed by the South Omaha Land company. It is teeming with interest to every man who desires to be the happy possessor of his own home and should be read with careful attention.

Henney Buggies at Armstrong, Pettis & Co.'s 1208 Iard st.

The Tyrolian Arbor Concert Company, nineteen in number, will appear at Metz Summer Garden, commencing May 22nd, for one week. This Company is a novelty in this country. They bring wooden instruments. They receive \$2,000 for the week's engagement.

The first annual ball of The Omaha Wood Machinist and Helpers' Union, will be given at Cunningham Hall, on Wednesday evening, May 18th. Tickets of invitation are out and a good time is anticipated by all. This being the first ball, everything will be done to make it a social success. Hoffmann's orchestra has been secured to furnish the music.

It may be new to many that the word "sarcophagus" means literally "flesh-eater," and was applied to coffins from the peculiar kind of stone of which the ancient Roman coffins were made. This stone is supposed to have been a species of limestone, and is claimed had the property necessary entirely to consume a body, with the exception of the teeth, in forty days; hence the name.
