MEETING OF THE REGENTS.

The New Buildings Provided by the Legislature Finally Located-

IMPORTANT RAILROAD SUIT.

District Court Notes - Cadets' En campment-Incorporation News -New Additions Platted-Other News.

FROM THE BEE'S LINCOLN BUREAU.! The board of regents held a business

Bession at the state university yesterday,

the principal event calling them together being the location of the new buildings provided for during the last session of the state legislature. The locations decided upon were for the industrial school building at the northeast corner of the university campus and for the armory building on the east side of the campus, midway between the industrial and the chemical labratory buildings. This completes the east side of the campus grounds, and buildings that may be decided upon in the future will be located on the west side of the grounds. The regents also voted to discontinue the present organization of the medical college in connection with the university. This college has been in a weak way running for about two years but without appropriations, the doctors comprising the faculty doing the work practically for glory. In a conversation with one of the regents he stated that the action was taken largely cause a college of that character could not be sustained and give public confidence without large appropriations to place it on its feet. No such appropriations have been made and the college is now undoubtedly a thing of the past. A reform of equal worth could be inaugurated by the signers if they would to away with their expensive and useless experimental station in veterinary and kindred subjects under Dr. Billings. An abatement of this would be a relief and a

measure of undoubted wisdom.

IN DISTRICT COURT. An interesting case was on trial yesterday before Judge Chapman in the district court. The case was that of Warner Townsend against the B. & M. railroad for damages for being evicted from a train on the A. & N. branch two miles from Sterling on a cold day in the middle of the winter solstice. Townsend's case, as developed, was that, desiring to come to Lincoln he purchased a ticket at Tecumseh and checked his trunk through at the same time. When the train came along, Townsend boarded the train, and between Tecumseh and Sterling the conductor came along and in response to 'tickets' the traveler gave up his paste board. At Sterling a goodly number of passengers boarded the train and in going through the train again the conductor faced the colored man for tickets. The passenger protested that his ticket for Lincoln had already been collected and offered his check for his trunk as evidence that he had paid. The conevidence that he had paid. The con-ductor, however, was obdurate, and two miles from the depot the passenger was dropped in a snowdrift. The prosecu-tion was in the above tenor and the defense was on the ground that the man's ticket was only for Sterling and that the conductor was right and the passenger wrong. At noon the case had just reached the jury. As this case occurred in the midst of the legislative session it is probable that the conductor was so surprised to see a ticket that he did not know how o act and pursued the plan elated of a main line conductor, who about the same time found a man on his train with a ticket and immediately ejected him and sent him back over the road to get a pass to travel with.

One of the recent cases filed in the district court is a rather unusual seque to a divorce proceeding. In October last Enious Smith procured a divorce from his wife, Mary Smith, and in settlement of family difficulties in this way the head of the family paid to R. B. Graham as trustee \$1,000 for the use of the minor children. A few days ago, how-ever, in the present match-making month of May, the two ended a renewed courtship by approaching the hymelnial altar and again becoming one flesh or muscle, as the case may be. The case filed in court now asks that Mr. Graham turn back to the re-united family the \$1,000 held in trust that affairs may be as if the past six months were a blank.

The case of Woodward against the Pacific Mutual Telegraph company was on trial before Judge Pond yesterday, the case was one involving the rights of an individual in competing with a common carrier. The hearing was an argument on motion.

The case of Archie Brooks against the

The case of Archie Brooks against the Lincoln street railway was in the hands of the jury all the night. They came into court at 11 o'clock yesterday with a verdict for the defense. The claim was for damages and injuries sustained by reason of his falling on the street car track, from a pony directly in front of the car that caught him and dragged him some seventy-five feet before the car was stopped. The claim of negligence against the company was based on the alleged fact that the driver was inside the car and not in a position to stop it so speedily as he should.

The trial of Mrs. Shellenbarger has not

The trial of Mrs. Shellenbarger has not yet been given a date, and neither has the case against the colored convict Jackson for murder. Both, however, it is stated, will be heard at the present

ABOUT THE CITY.

In the county clerk's office Wednesday six plats of additions were filed with the accompanying acreage to each, as follows: University place 320, Lincoln Heights 100, Dayton addition 20, Vaill addition 10, Sherwin's addition 10, Second Hillsdale addition 40. This makes a total acreage added to the city in additions in one day of 560 acres, and still the boom rolls on.

tions in one day of 560 acres, and still the boom rolls on.

The articles of incorporation of the Wesleyan university, with the names of J. J. Imhoff, C. F. Creighton and C. A. Atkinson as incorporators, were filed with the county clerk yesterday.

Complaint is made that in laying sewers no extra depth is excavated for the joints in the sewer pipes, and the consequence is that the greater part of the mains when laid do not rest on solid ground. Predictions are made that when the trenches are filled these defects in laying will result in breaking the joints and bring consequent wreckage.

The cadets of the university will enter the last of this week upon a three days' encampment, that will be held on the classic banks of the Weeping Water, near the village of that name. The boys are predicting a great time.

Articles incorporating the Nebraska State Poultry association have been filed with the secretary of state. The object is such as organizations of that character have in view, and a list of officers was appended as the incorporators.

is such as organizations of that character have in view, and a list of officers was appended as the incorporators.

The members of the railroad commission were discussing yesterday the question of a trip of inspection over the line of the Fremont, Elkhorn & Missouri Valley railroad up to Northwestern Nebraska. The trip will be taken the coming week, following the meeting Tuesday with the general freight agents.

Two tough women of this town were in police court yesterday for the usual fines. It developed in the evidence that they were in the habit of attending the Gospel army meetings in the guise of seekers after truth, but in reality to ply their nefarious business, through such channels. The police have information

that other females of this character are acting in a like manner and other arrests are liable to follow. The punishment for people plying this character of business should be meeted out in extremely heavy

Senator Tom Majors, of Peru, Representative McGrew, of Auburn, General L. W. Coiby and Mrs Colby of Beatrice, and Major John C. Watson, of Nebraska City, were in Lincoln yesterday. Major Watson's requisitions for munitions of war for his company at Nebraska City Lost-"I don't see where, I can't tell

when, I don't see how-something of great value to me, and for the return of which I shall be truly thankful, viz., a good appetite."
FOUND—"Health and strength, pure blood, an appetite like that of a wolf, regular digestion, all by taking that pop-

ular and peculiar medicine, Hood's Sar saparilla. I want everybody to try it this season." It is sold by all druggists. One hundred doses one dollar.

GREAT LAKE MONSTER.

A Huge 'Amphibious Animal Seen on the Beach of Lake Erie. TOLEDO. O., May 13,-There was great along the lake shore in Ottawa county over the reported discovery of a marine monster by two French fishermen named Dusseau. The brothers were returning from the fishing grounds late last night, when they noticed a monster on the sandy beach of Lake Erie. They fastened their boat, and upon examining the monster found it to be an immense fish between twenty and thirty feet in length. It was shaped like a sturgeon, but had arms which were thrown wildly into the air. The fishermen say the light must have been caused by phosphorescence emitted in its death struggles. They hurried away for ropes and aid, but when they returned the submarine monster had evidently thrown itself into the lake in its dying struggles and been carried away by the waves. No trace of the animal could be found save a half dozen scales as large as silver doldiscovered made it perfectly plain that the lake serpeut was of great size, and it was undoubtedly in its death struggles when first seen.

The "Favorite Prescription." Dr. R. V. Pierce, of Buffalo, N. Y. whose name has become known over the world through his success as a physician, and especially through the reputation of his "Golden Medical Discovery," has done a good work in preparing an especial remedy for the many distressing troubles classed as "female weaknesses." It is known as the "Favorite Prescrip-tion." Under its administration all the pelvic organs are strengthened, and the woman becomes that embodiment of health and beauty which God intended

A Solomon in the Bud. "Mark Twain's" article in the Century is very good reading-almost as good, in fact, as the subjoined examinaion paper received at the Life office

this morning:

I. Why does a telegram sent from New York at noon reach St. Louis before noon? Union telegraph company more than twenty-three hours to cover the distance. II. What is the greatest difference in

time that two places may have? There is about a century's difference between New York and Philadelphia, III. What causes the continual fogs on the Newfoundland coast.

The Newfoundland coast is English,

IV. Where is the Levant? Down east. V. State briefly the causes that led to he American civil war.

Niggers. VI. Name the principal point of diference between the government of Rus-sia and the government of the United

States. In the United States the government endeavors to elevate the people and in Russia the people try to elevate the gov-ernment. They sometimes succeed in

VII. The state of Michigan is divided into two parts by what water?
Fire-water. The prohibitionists are

slightly in the rear.

7III. If the 1st of March were on Friday, what would the 17th be?
St. Patrick's day.
1X. Wherein lies the difference be-

tween the senate and the house of representatives?

The senate is republican and the house X. Name the five races of mankind.
Horse races, yacht races, foot races,
boat races and the race for office.

The unfortunate part of this is that the youth who has displayed such rich and varied stories of learning as above was summarily flunked at the theological seminary, to which he applied for admission, and has now gone on a western paper in the capacity of a humorist.

Disease lies in ambush for the weak; a feeble constitution is ill adapted to encounter a malarious atmosphere and sudden changes of temperature, and the least robust are usually the easiest vic-tims; Dr. J. H. McLean's Strengthening Cordial and Blood Purifier will give tone, and vitality and strength to your entire body. \$1.00 per bottle.

Joseph Fanning, who died in Hamilton, Ont., on Friday last, was one hundred and six years old. Until last Wednesday, when he was seized by a paralytic stroke, he was as vigorous as most men of sixty.

Story of a Government Bond. Chicago Journal: A \$50 government bond was recently found in this city, and reached its owner after a disappearance of nearly twenty-five years. During the war a Chicagoan visited the army in the field, and while there was relieved of \$7,000 in government bonds. As he had just purchased them it was easy to obtain their numbers, and all bankers and brokers were warned against buying the tain their numbers, and all bankers and brokers were warned against buying the stolen securities; but nething was heard of them until last month when the \$50 bond was picked up on the streets of Chicago, as mentioned before. It was a good deal the worse for wear, but the numbers were deciphered, and in that way its owner was found, and he has just received a notice from Washinghas just received a notice from Washington that it will be redeemed.

Globe Democrat: One of the most embarrassing things a court stenographer can be subjected to sometimes is to be suddenly asked to read a lot of crossquestioned testimony over which there has arisen a dispute, and the answers and questions of which, together with the interjected remarks of wrangling counsel, have been taken down with lightning speed. Under such circumstances one's writing is little more than a scroll, and to decipher and read it quickly at a moment's notice is by no means easy. The most important thing in this, as in all kinds of reporting, is to keep a cool and collected head. I have seen some pitiable cases of first-class stenographers who were so rattled on being ask to read what they had written, that the request had to be withdrawn out of charity to them.

Pozzoni s Complexion Powder produces a soft and beautiful skin. It combines every element of beauty and purity. Sold by druggists.

Irish Emigrants. Pittsburg Post: The Irish emigration this year to America threatens to be the largest ever recorded in the history of Ireland. In the south of the island over wide areas the entire able bodied popu-lation is either leaving or preparing to leave. The emigrants are camping out in the streets of Queenstown awaiting ships. The total emigration from that port to America for April was 12,000, against 6,550 for the same period last

CHAPTER L. "I was taken sick a year ago With billious fever."

"My doctor pronounced me cured, but I go sick again, with terrible pains in my back an d Could not move! I shrunk!

From 228 hs to 120! I had been doctoring for

my liver, but it did no good. I did not expect to live more than three months. I began to use Hop Bitters. Directly my appetite returned, my pains left me, my entire system specied renewed as if by magic, and after using several bottles, I am not only as sound as a sovereign, but weigh more than I did before. To Hop Bitters I owe my lefe."

R. Fitzpatrick.

CHAPTER II. "Maiden, Mass., Feb. 1, 1886. Gentlemen-I suffered with attacks of sick headache."

Dublin, June 6, '86.

Neuralgia, female trouble, for years in the most terrible and excruciating manner. No medicine or doctor could give me relief or "The first bottle

Nearly cured me;" The second made me as well and strong as when a child,

"And I have been so to this day." My husband was an invalid for twenty years

"Kidney, liver and urinary complaint. "Pronounced by Boston's best physicians-"Incurable!" Seven bottles of your Bitters cured him and

"Laves of eight persons" In my neighborhood that have been saved by vour Bitters. And many more are using them with great

benefit. "They almost do miracles?"
—Mas. E. D. SLACK. How to Get Sick.—Expose yourself day and night; eat too much without exercise, work too hard without rest, doctor all the time take all the vile nostrums advertised, and then you will want to know
How To GET WELL,—which is answered in
three words—Take Hop Bitters,

Hardened Liver.

Five years ago I broke down with kidney and complaint and rheumatism, ce then I have been unable to be about at since then I have been unable to be about at all. My liver became hard like wood, my limbs were puffed up and filled with water.

All the best physicians agreed that nothing could cure me. I resolved to try Hop Bitters: I have used seven bottles: the hardness has all gone from my liver, the swelling from my limbs and it has worked a miracle in my case, otherwise I would have been now in my grave.

J. W. Morey, Buffalo, Oct. 1, 1884.

CATARRH 5 YEARS STANDING PERMANENILY GUKEU.

Read the following affidavit: Carbolic Smoke Ball Co, Gentlemen, I have been a constant sufferer from catarrh for the last 5 years. I have tried many remedies that claimed a sure cure but received no benefit from any of them. My head at times would become so stopped up with the mucous matter, that it was impossible for me to breathe through my nostrils. My sleep was through my nostrils. My sleep was also broken by choking sensation caus-ed by the dropping of the mucous mat-ter into the throat. I first received a free test of your Smoke Ball some 3 free test of your Smoke Ball some 3
months ago, and was surprised to find
that it cleared my head in a few minutcs, and gave wonderful relief. I then
purchased a ball which I have been using since, and can now say honestly and
truthfully, that I am entirely cured. I
sleep well at night, have a good appetite and feel like a new man.
