

A STARTLING IMPOSITION.

The Well Laid Plans of Nebraska Railroads to Rob the Public.

THE GREAT WALKING MATCH.

The Irish Memoir—Baptist College—Railroad Commissioners—Quarantine Station—Lincoln News.

[FROM THE BEE'S LINCOLN BUREAU.] The evidence continues to accumulate and force itself upon the dullest of observers that the railroads are doing their utmost by fair means and by foul to make the inter-state commerce law obnoxious.

The closer their operations are noted the more clearly it becomes apparent that the scheme in operation by one road at least, was formulated before the inter-state law came into effect, ready to bind upon the people of Nebraska with the advent of the new law.

The first step taken was an advancement of freight rates over the Burlington system, a new freight tariff being promulgated April 4 for the guidance of agents and shippers.

This new sheet was as ingenious and misleading as was possible to make it, on the face, as it represented a reduction in rates.

It represented this from the fact that the company had, through their system of rebates, placed their old rates on paper so high that the new schedule figures were lower.

However, it was only an apparent reduction, for in reality it advanced prices on corn and other grains on an average of nearly 6 cents a hundred, and consequently from that day to this every grain man in the state has been unable to pay within 2 cents a bushel for corn of what it is actually worth.

From the present rates charged and the rebate rate in operation before the first of April, there is an increase on corn rates to Chicago, as stated heretofore from five to seven cents on a general average.

This statement is based upon the best possible authority, and the very men who themselves have increased the rate and take it in turn from every bushel of grain they buy, know it.

The rebate rate in force prior to the new tariff schedule, and the rate now exacted on Chicago shipments to the west, can be best illustrated by citing a few towns taken at random in this section of the state, giving with each the old and the new per hundred:

Table with 2 columns: Old Rate, New Rate. Rows include Hastings, Wilber, Blue Hill, Council Bluffs, Central City, Holdrege, Republican City, Superior.

And so on the list could be continued until all the towns in central Nebraska were enrolled.

It is in order to remark that the same system has been in vogue at Rock Island and Northwestern stations in the state, and the policy of the Union Pacific is presumably on the same plan.

FROM LIFE TO DEATH strikes the heart. These diseases are the most painful and the most dangerous of any to which human kind is liable.

George Schneider, employed at the sash factory of Hattig Bros. Manufacturing Co., Muscatine, Iowa, says: "About a year ago my wife was afflicted with both rheumatism and neuralgia."

Every druggist should keep Athlophoros and Athlophoros Pills, but where they cannot be bought of five bottles she used Athlophoros Co., 112 Wall St., New York.

QUARANTINE STATIONS. The Live Stock Sanitary commission have added a number of new ports of entry to the state and quarantine stations.

The present work, Commissioner Barnhart with Dr. Ramacciotti, is visiting points on the Union Pacific, and Commissioner Abbey with Dr. Wessel, of Hastings, is in Kearney county.

A DAMAGE SUIT. In district court yesterday morning Judge Chapman called a jury in the case of Sophia Beckman against the City of Lincoln.

"Dead Shot" for Bed Bugs. Dutcher's Improved kills upon touch, and remains a trap to catch intruders. Use it thoroughly and sleep in peace.

A citizen of Boston has been cured of "nervous dyspepsia, insomnia, and great thirst" by eating peanuts for dessert.

The Duke of Connaught, youngest living son of Queen Victoria, needs an act of parliament in order to allow of his presence at the jubilee celebrations.
