Pious Points.

Rev. S. V. McKee, of the Detroit Presbytery, occupied the pulpit of the Congregational church yesterday morning. He gave a very interesting sermon on the second coming of Christ. In the evening the pastor preached. A showing of practical christianity took place at the Congregational church yesterday morning. The pastor reported that a family who formerly lived here, and who were now in Dakota, were in a sadly destitute condition, the man dying with consumption, and there being no means of support. The morning collection, and a liberal one, was given to their support.

One of the congregations was greatly disturbed yesterday morning by what seemed to be a snoring sinner. The ushers watched in vain to locate the offending sleeper, and many in the congregation turned around to see who was the disturber. Strangely enough the sound was finally traced to a woodpecker who had lodged on the outside of the church building, and was pecking away in such a manner as to make it appear to those inside, as if there was a heavy snorer in the congregation. The incident was particularly annoying as the preacher was one of the visiting Presbyterians, and naturally all in the congregation felt that the eastern preacher would get a very unfavorable idea of western courtesy, at having his sermon encoiled only by a snore.

Took a Tumble. N. A. Smith on Saturday night attempted to go down into the cellar of his home on South Eighth street. He succeeded, but in so doing received a painful fracture of the tibia and fibula which was caused by him slipping and falling the entire length of the steps.

Broke His Arm. Yesterday Thomas, the son of T. J. Evans, fell forward off the railing onto the porch at the home of his uncle, Frank Evans, and fractured his arm at the elbow joint.

WALKING Advertisements!

EISEMAN'S People's Store

Have tried all kinds of advertising in newspapers, looks, by hand-bills, signs, circulars, etc., etc., but the most successful advertisement they ever put forth is a walking advertisement.

Have you seen them? Of course you have many a time. We refer to those walking advertisements so frequently seen on the streets of this city and all over the western country in the shape of one of our Suits with a man or boy inside.

What a splendid advertisement each one of these:

All Wool Suits, \$10.

Four Button Worsted & Imported Corkscrew Suits. In all shades, \$12.50, \$14.00, \$16.50, \$18.00, \$20 and \$22.

How they advertise us! It is true we don't make much on these goods, but it is a satisfaction every time we see a customer buy one, we know that he is ours.

The fit and satisfaction our clothing gives him will cause him to return for his next suit as well as advise his friends to do likewise.

We offer no bait with the hope of selling you something else when you reach our store. The same principal of BIG VALUE for your money applies to every garment we offer.

Our tailor-made clothing has proven a blessing to mankind; the high priced merchant tailor has been compelled to divide his trade and give us the largest share. Our tailor made clothing are made by the same men who work in custom shops.

In addition we will say that we carry more ready made clothing than all the other houses in the city combined.

Don't fool your time and money away, come to the Popular People's Store, where you get fair and square dealing and more than the value for the money. See quality grand army suits with buttons thrown in, at \$8.50.

ELECTRICITY DR. RICHARDS' Electric Bath Rooms and Office

No. 607 Mynster St., Council Bluffs. One Square North of the P. O. Building.

Treatment and Baths Given Ladies by Mrs. Dr. Richards on Tuesday, Thursday & Saturday.

Electricity is a remarkable natural agent which has long been known and utilized as a remedy for disease and continued experience has enlarged its sphere of usefulness and improved its appliances by which it is employed until its utility and virtue has become second to no other known remedy, in the treatment of certain forms of disease. This agent is employed here in all its most serviceable forms by the aid of large batteries, static machines, electric cabinet baths, electric water baths, the electric chair and electrodes for treating all parts of the body. We are prepared to do all that can be done with these great remedies. In cases of Rheumatism, Neuralgia, Paralysis, Spinal Irritation, Rectal Diseases, Nervous Diseases, in females arising from Uterine disorders and many other chronic and subacute troubles, it stands at the head of all known remedies or methods cure. A thorough study of it for years and the successful treatment of hundreds of cases, after all other remedies had failed, is sufficient evidence of its great worth and perfectly satisfies us with its good effects on the diseased body. In the great hospitals and sanitariums of America and Europe, electricity is leading all other methods of treatment. In all leading colleges the professors are teaching electricity as one of the potent remedies and a special chair is appointed in many of them. Many of the ablest physicians of all schools are making a specialty of electricity to the exclusion of almost everything else. This great remedy has often fallen into disrepute by being recommended and used by persons, and physicians, perfectly ignorant of its properties and powers, who would as often advise and use the wrong current as the right one or depend upon it in diseases for which it is not adapted. We are sure that when the people become educated in the use of electricity for many diseases with which the body is afflicted and find the great good therein, the medicines and patent rights nostrums upon which they now rely will grow old and dusty on the shelves. Electricity is nature's great remedy and to fully understand and skillfully apply it is our effort and aim in life.
