A QUIET WHEAT MARKET.

CHICAGO PRODUCE MARKET.

CHICAGO, May 27,-ISpecial Telegram to the BEE. |- The wheat market was quiet today, and price changes were not important. Early in the day some of the many gentlemen on the curbstone who keep books for the clique gave their friends to understand that the negotiations between the man in the air and the Bank of Montreal for a little matter of \$3,000,000 had fallen through, and on the strength of this the scalpers were inclined to be bearish in their operations at the opening. With a caution born of unprofitable experience in fooling with the clique on previous tips touching its financial weakness, the scalpers went at the market in a very gingerly manner, and the absence of reckless plunging was the ruling characteristic of their operations. The clique brokers didn't hear of the ill fortune that had befallen them for some time, and when the sad truth was finally communicated to them, they smiled broadly. Those who had acted on their first tips bought back their wheat when they found that the clique was going right along sawing wood at the same old stand and saying nothing, and otherwise acting as though nothing had happened. June, which had sold off to 88%c, reacted to 89%c, and July, which had receded from 86%c and July, which had receded from 86% to 86% c, advanced to 86% c. During the last couple of hours the market was listless and prices settled, more from inaction than anything else, however. One o'clock quotations were 88% c for July and 85% c for August. These figures show very little deviation from yesterday afternoon. Trade was light and the market was unequivocally dull. Speculation as to the designs of the clique continues to engross the attention of everybody. Efforts to arrive at an approximately correct estimate of the short interest in June are being made on every band. A mately correct estimate of the short interest in June are being made on every hand. A canvass by two or three prominent bears resulted in the accumulation of evidence sufficient to satisfy them that the short interest in June did not exceed 10,000,000 or 12,000,000 bushels over and above the cash property. On the other hand, parties who are in a position to judge intelligently, but who do not pretend to speak by authority, estimate the short interest at 30,000,000 bushels outside of the sales against possessed property in

the short interest at 30,000,000 bushels outside of the sales against possessed property in Chicago. Possibly the truth lies somewhere between the two extremes. The clique laid dormant to-day. It did nothing to influence the market either way.

Large, general and promiscuous trading was witnessed in the corn pit to-day and the market was weak during the greater portion of the long session, closing at the bottom at 1 o'clock and 1/4c lower than last night for all futures. There was no plunging. Three hundred and eighty-nyecars were estimated for to-morrow and 450 for Monday. From 401/4c for July the local market weakened to 301/4c and June sold from 331/4c off to 331/4c, both closing at inside figures at 1 o'clock. Seiler May was nominally 1/4c under June and August 11/4c nominally 14c under June and August 114c premium over July.

Oats were firm and rather dull early, but

when corn declined, the market grew soft and under free selling by longs, prices weakened rapidly, June selling down from 26%c to 25%c and closing at 10°clock at 25%c, or 3%c lower than yesterday. July oats were 4c off, closing at 27c. This future sold early at 27% (2027%c.

(627%)c.

In the provision market a quiet feeling again held control. The usual number of traders put in appearance, but there was no disposition to trade save to cover or extend come outstanding contracts for lard or short disposition to trade save to cover or extend some outstanding contracts for lard or short ribs, and the late unsatisfactory state of affairs was continued. Trading, in fact, was slower if anything than on any of the former days of the week, yet the general situation was without decided change. Pork was held at yesterday's prices—\$23,75—for cash, May and June. Lard and short ribs averaged a little easier, and for the former prices at 1 o'clock showed a decline of 2½c and for ribs 5c. June, July and August were the favorite months.

FINANCIAL

NEW YORK, May 27 .- | Special Telegram to the BEE. |-STOCKS-There was not much activity in the stock market to-day, and owing to the fact that to-morrow will be a short and Monday a holiday, traders were more disposed to sell than buy. Some large blocks of stocks were thrown on the market by people who did not care to go over into next week long of stocks. Lake Shore and Western Union were the weakest things on the list, but the decline was attributed to the fact that operators were indisposed to start any movement or take on a line of stocks until June 1. Manitoba, however, had exceptional strength, advancing 1% per cent. Reading stock was in good demand and a report that its April earnings increased 500,000 created a very strong sentiment in favor of the property. Lake Erie & Western was quite active and rather buoyant. The story was that Cummings, Bryce & Thomas, the syndicate which reorganized the road recently, had arranged to make a trip of inspection over it, and would at the same time start a bull movement in the stock. London

prices for American stocks were all higher, indicating, as the bulls claimed, that foreigners were still buying stocks. There was a good deal of bull talk in regard to the Vanderbilts and Consolidated Gas. During the closing hour the bears made a drive at the market, being careful to sell stocks that were least protected by buying orders from the clique. Most of the traders were already away and little difficulty was experienced in getting prices off 1/4 to 1/4 per cent. Manitoba ost all its early advance and the Vanderbilts broke badly and closed at the lowest point of the day. Room traders and Cammack were the principal sellers. Conservative houses advised purchases on breaks. The closing prices for the list were the lowest made for several days. The total sales were

about 300,000 shares.
GOVERNMENTS-Government bonds were
dull but firm.

General Produce. Friday, May 27. The following prices are for round lots of The following prices are for round lots of produce, as soid on the market to-day.

BUTTER—Butter continues to arrive in very liberal quantities and far in excess of the demands of the local retail trade. Local farmers and dairymen are bringing in a great deal of choice butter, which they sell direct to the retail trade, and this cuts off just so much from the commission houses. The great bulk of these receipts is selling at 10% 12c, with the greater proportion at the 10@12c, with the greater proportion at the less price. An occasional package of the best is sold to the retail trade at 13@14c, but it has to be strictly choice to bring that price. The shipping demand is good and the ship-

EGGS—The receipts have been a little more liberal this week in proportion to the demand than last week. POTATOES,—There is a strong demand for old potatoes but very few coming in. On account of the scarcity of new potatoes, old potatoes are still higher than last week. New Vegetables.—Local gardners are now supplying the demand for most kinds of vegetables, such as top onions, radishes, lettuce pie plant and peas, and there is not much sale for stock of that kind shipped in.
