ket Quotations.

CHICAGO, June 3 .- | Special Telegram to the BEE. |- The wheat market was steady and even strong the most of the day. Trading was of light volume until after 12 o'clock. From that time until the end of the long session business was decidedly active, and the close was somewhat excited. Foreign market advices were unexpectedly strong. Paris quoted a large advance in flour, and Liverpool was higher for American wheats and for Indian wheat in positions. England is in the American markets, actively bidding for Duluth wheat. The seaboard clearances continue large, and there is no prospect of an immediate diminution in the movement, if reliance is to be placed on advices from exporters in the east, whose views are reflected by western exporters. On the other hand, the receipts at primary markets continue heavy, and grain keeps coming from farmers as well as country elevators. There is a likelihood of a let-up in the movement from first hands, however, even though the outgo from the tidewater does not stop. The free forward movement of wheat from the interior, and the brilliant crop prospects, constitute the stock in trade of the bears. June wheat opened at 90c, and until nearly the close of the principal session the fluctuations were between 89%c and 90c.

fluctuations were between 80% and 90%. Towards the last it advanced to 90% and rested \$6 lower. July opened at 86%, sold as low as 86% and as high as 86%, leaving off at 86% 65%. August ranged at 84%. Corn in the local speculative market was duil but stubbornly firm. To-day trading was of a light local scalping character. Norton & Worthington were the largest individual buyers. Outside orders were light both ways and there was little or nothing in the way of news. The speculative offerings were noticeably light all through the long session. There was a rather easy opening, the initial trades in July being at 39%. The price of this option gradually worked up to 30% (30% and during the last hour there was a pretty good demand at around these figures. A few minutes before the close rumors of colder weather in the west were started and the minutes before the close rumors of colder weather in the west were started and the market immediately showed additional strength, closing at 39½c for July at 1 o'clock, June rested at 38½c, August at 41c, and September at 41½c.

Oats were dull in the speculative market to-day and prices were about steady. The feeling was firm at the close of the regular session, with seller July quoted at 26½c, and August at 26c.

August at 26c.

In the provision market a strong undertone was again witnessed. Traders have apparently reached the conclusion that the available supplies at interior points have been at last reduced to such a point as to allow Chicago to direct to some extent the trade, and with the large stocks here either well-concentrated or in strong hands, the trade, and with the large stocks here either well concentrated or in strong hands, the side promising better prices on improved butiness is evidently growing in favor. Yesterday's reaction and improvement were continued to-day with increased vigor, and from the start the market seemed to be able to command encouraging support. In the active lines—lard and short ribs—the movement was also sharply upward, and based on last night's closings lard at 1 o'clock showed an advance of 7½@10c and short ribs of 15@20c. For both of these articles inside prices prevalled at the opening and the highest at or near the adjournment, Trading was quite fair, with July, August and September the leading deliveries. Pork was quoted at \$23,00 for cash and June.

fair, with July, August and September the leading deliveries. Pork was quoted at \$23.00 for cash and June.

AFTERNOON SESSION—Wheat was stronger. June 2004c, July 869c, August 84%c. Corn, July 309c, August 41c bid, September 41%@42c. Uats were firmer. June 25%c, July 26%c, August 26%c. Pork was inactive, with cash and June nominally at \$23.00. Lard was strong and 5c higher. closing at \$6.60 for June, \$6.70 for July, \$6.80 for August, \$6.874 for September. Short ribs were active, excited and 12%c higher. June closed at \$7.55, July at \$7.57%, August at \$7.67%, and September at \$7.75.

FINANCIAL.

NEW YORK, June 3 .- | Special Telegram to the BRE. |- STOCKS-The stock market opened active to-day, but contrary to expectations was decidedly strong. The annual statement of the Northwestern was regarded as very favorable, and buying from Chicago was good enough to cause the rally of a point. A good many investors were reported to be buying stock and taking it out of the street entirely. After Northwestern had moved up, St. Paul advanced a fraction in sympathy. Coal stocks were all very strong, regaining all of yesterday's decline. Jersey Central was a special buil card. It advanced to 84%, and the shorts were eager buyers on the buige. Railroad earnings reported for the fourth week of May were all large. St. Paul increased \$24,000, and Louisville & Nashville and Denver & Rio Grande each increased about \$100,000 for the week. Missouri Pacific earnings for the month of May increased \$500,000. 'The story started yesterday that Mr. Gould was seriously ill was de-

nied by George Gould to-day, and as a consequerice all the Gould stocks were very strong. It was reported that Denver & Rio Grande had declared a semi-annual dividend of 234 per cent on the preferred stock. This, together with the big earnings reported for the fourth week of last month, caused a sharp upward sport in the stock. All of the cheap stocks were inclined to advance, and notwithstanding the fact that London prices were all lower, local traders were disposed to favor the bull side. It was reported that some sort of an alliance between the Northern Pacific and Northwestern was being negotiated, and that some of the buying of Northwestern was based on early information of some favorable development in the matter. The bears attempted another raid on the market just before the close. and were fairly successful in some respects. A bunch of stop orders were caught in cotton seed oil, and a quick break to 48% was followed by a rally of 114 per cent. A fierce drive was also made at the Gould stocks, but only a fractional decline was secured. Pullman broke 3 per cent and Manhattan dropped 2 per cent. The whole market closed very weak at about the lowest point of the day. The total sales were about 250,000 shares. GOVERNMENTS-Government bonds were dull but steady.

OMAHA LIVE STOCK.

Friday, June 3, Cattle.

The receipts of cattle were light, although considerable heavier than yesterday. The market took another advance of 10c on ac-count of the light run and good demand. The market was active and everything was sold before the close. There was the best demand for good handy light and medium weight steers. Native steers sold much more readily

Hogs.

The run of hogs was about the same as yesterday. The market opened with all the buyers on the ground, and while a few of the first sales were made at an advance of 5c, the market very quickly advanced 10c. The bidding was very sharp between the buyers and the hogs were all sold out early. The demand of the local packing houses is sufficient to take all the hogs that are coming in, and add to that the requirements of the Boston and Chicago houses that have buyers here and there must of necessity be a yery spirited market.
